1 Instructions to the Reader

The instructions given below are followed throughout the document. For a better understanding of the material, go through the below instructions.

1. It is mandatory to execute the steps given in the numbered list to achieve the expected result.
2. Steps in the bulleted list explain the optional or additional menu elements. It is not mandatory to execute these steps to achieve the expected result.
3. Hyperlinks are used in the document to explain the optional menu elements. Click the hyperlink will navigate you to the corresponding page.
4. Commonly used GUI elements such as the Search box, reset button are explained in a separate heading to avoid repetition of content. For more information, refer to [**Commonly Used Options in GUI.**](#)

2 Introduction

The product catalogue is a unified rating and charging engine that enables the operator to price the services in the way that subscribers understand by using the perceived value of content or service used.

The real-time rating and charging result in an increased uptake of service plans and reduced churn because the operating system provides a single integrated platform for delivering a comprehensive range of billing solutions.

The product catalogue is the heart of any Service Provider. In today's multiservice offerings with multi-tiered pricing structures, this is the place where all service differentiation is realized.

The system supports all kinds of networks such as mobile, fixed-line, broadband, and so on.

Following are the menus available in the product catalog:

- Product Catalog
- Product Reference
- Login Approval
- Audit Info
- Configuration

3 Accessing to the Unified Product Catalogue Application

Note: All the applications are integrated with SSO, so you can login to the SSO and select the UPC GUI application.

To access the Unified Product Catalogue Application:

4. Enter the URL (found in the release notes) in the web browser. The Sign In page will be displayed.

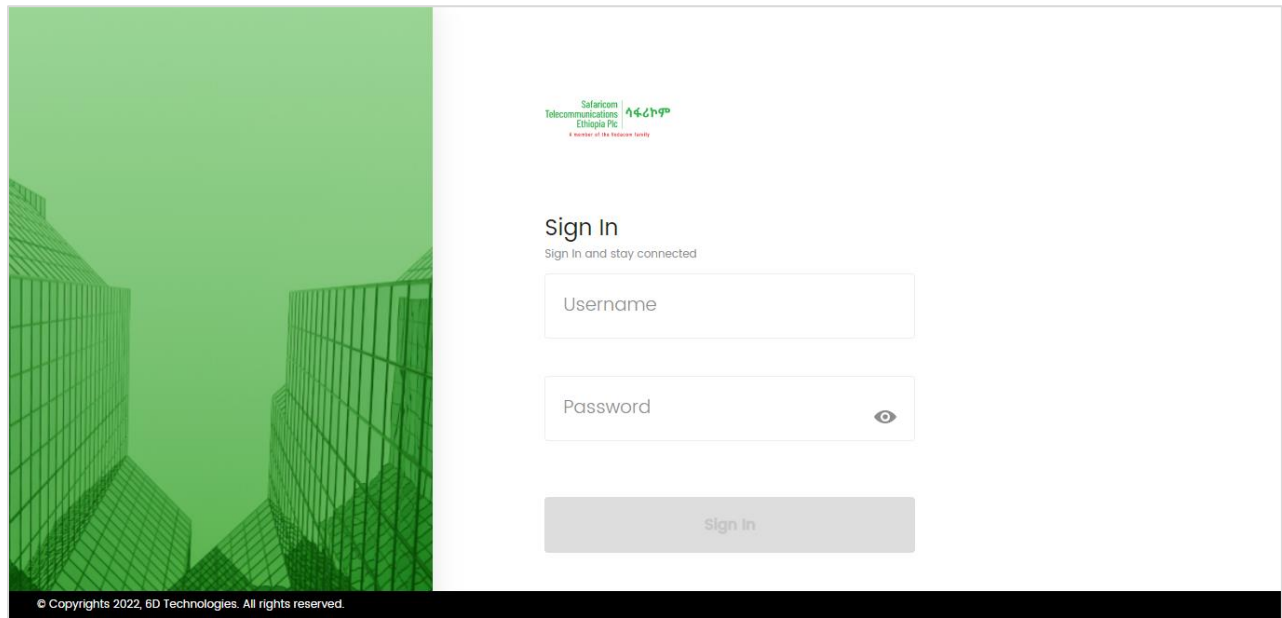

Figure 1 SSO Sign in Page

5. Enter the **Username** and **Password** in the corresponding fields.

- Click the **View** button  to view the hidden password.

- After entering all the required details, click the **Sign In** button. Refer to the following screen.

© Copyrights 2022, 6D Technologies. All rights reserved.

Figure 2 SSO Sign In Button

Note: The **Sign In** button is enabled after entering the username and password only.

- After clicking the **Sign In** button, the following applications screen will be displayed.

Figure 3 SSO Applications Details

- On the **SSO Applications** screen, click the **Go To Application** button to sign in to the UPC GUI. Refer to the following screen.

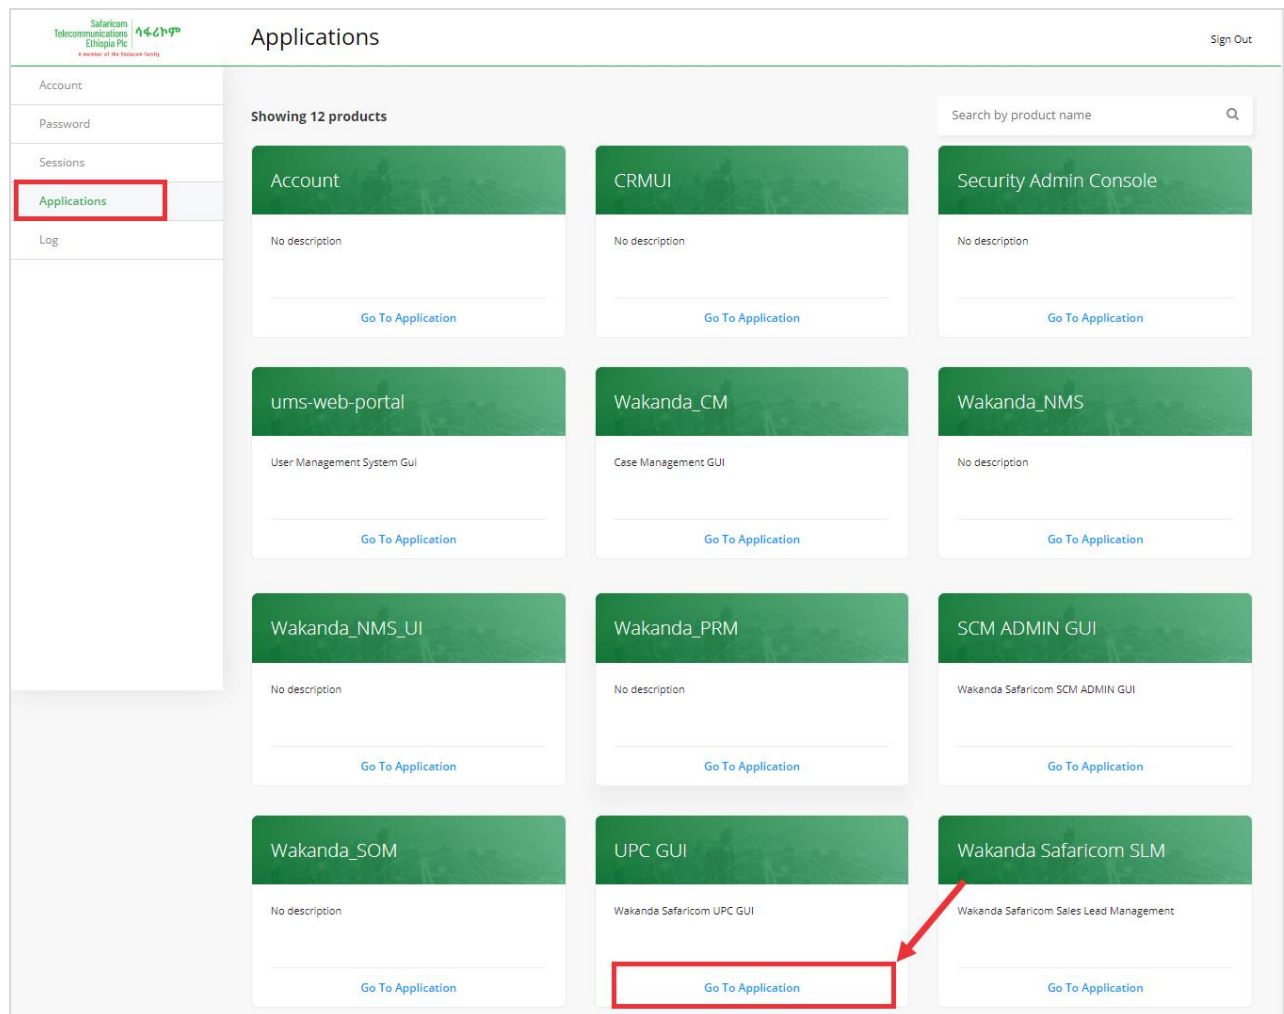

Figure 4 SSO - Go To UPC GUI Application

After a successful login, the **UPC Dashboard** page will be displayed on the screen.

4 Dashboard

After the successful login, the following Dashboard will be displayed on the screen.

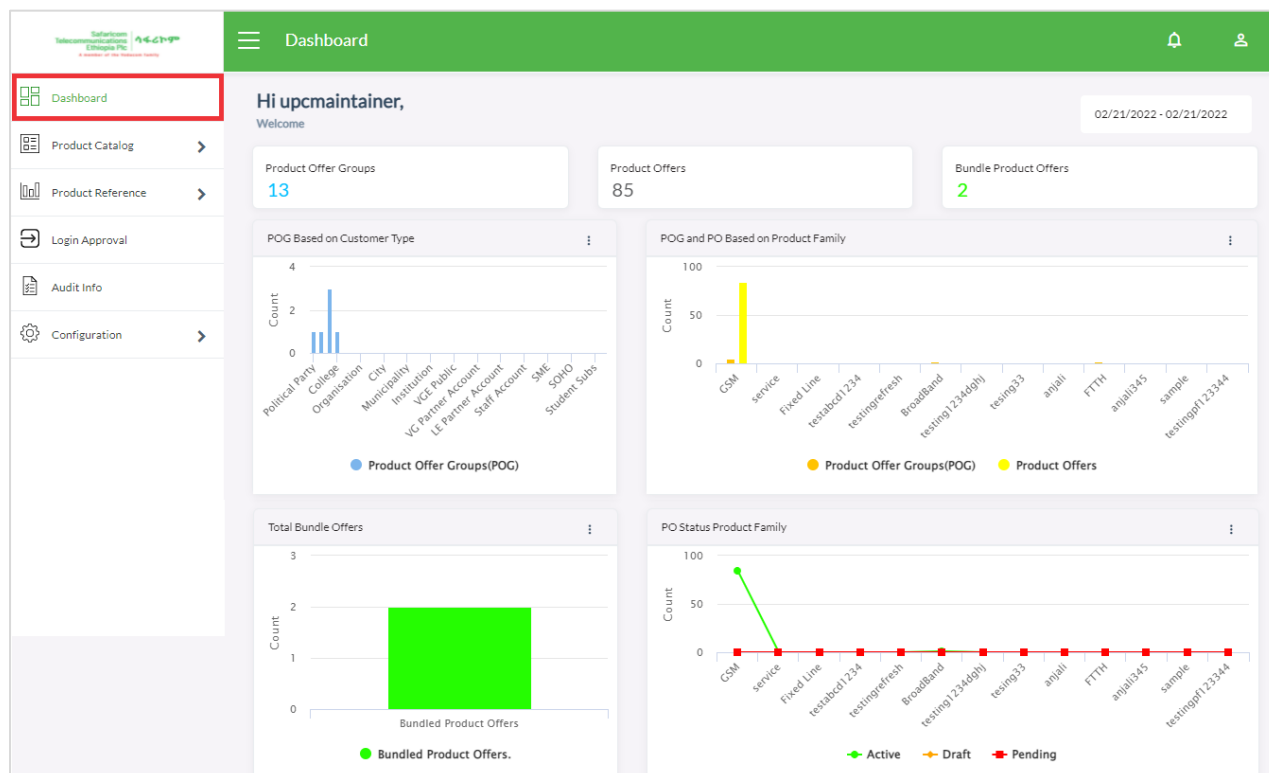

Figure 5 Dashboard Details Screen

Admin can view the **Menus** and **Submenus** items in the left pane of the window. The following details will be displayed on the **Dashboard** screen.

Field	Description
Product Offer Groups	Indicates the Product Offer Groups count on that selected date.
Product Offers	Indicates the Product Offers count on that selected date.
Bundle Product Offers	Indicates the Bundle Product Offers count on that selected date.
POG Based on Customer Type	Indicates the count of Product Offer Group Based on Customer Type that includes Residential and Business Customers.
POG and PO Based on Product Family	Indicates the count of Product Offer Group and Product Offer Based on Product Family that includes Connectivity, IPTV, and Internet.
Total Bundle Offers	Indicates the count of Total Bundle Offers on that selected date.
PO Status Product Family	Indicates the count of Product Offer Status Product Family on that selected date

The following details will be displayed on the Dashboard screen with detailed chart.

- I. POG Based on Customer Type
 - II. POG and PO Based on Product Family
 - III. Total Bundle Offers
 - IV. PO Status Product Family
- On the **Dashboard** screen, click the **Date Picker** to select the desired date to view the product's details. Refer to the following screen.

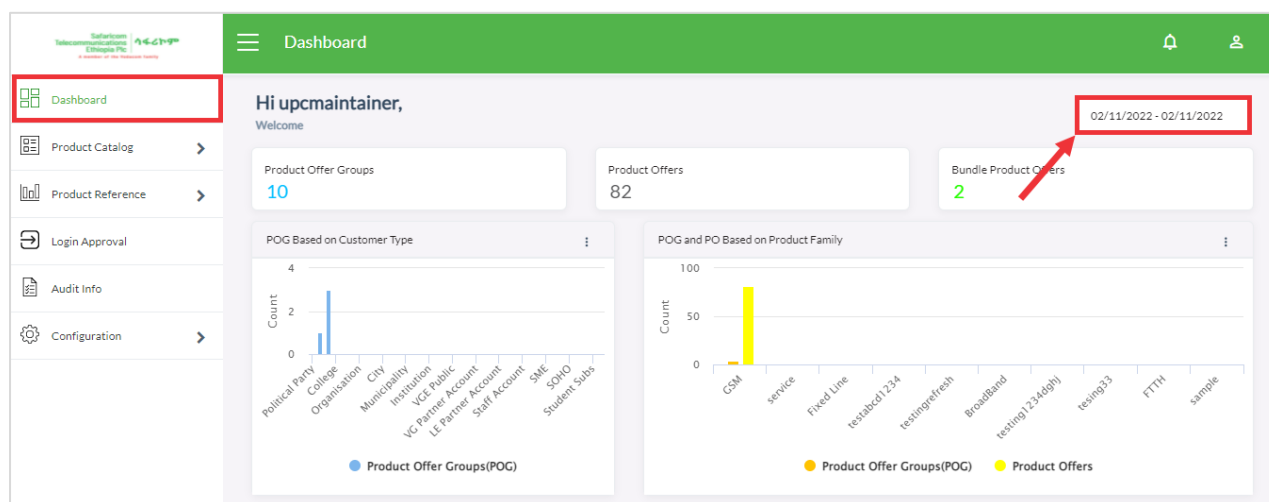

Figure 6 Dashboard Date Picker Button

- After clicking the **Date Picker** button, the following screen will be displayed.

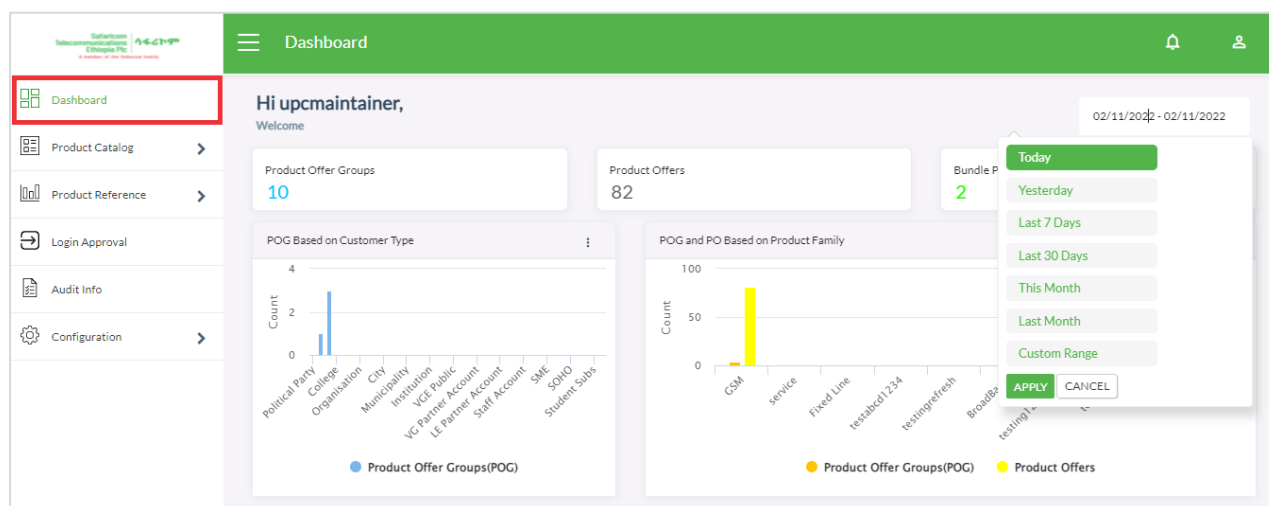

Figure 7 Date Selection Details Screen

- Select the desired date that you want to view the product details on that particular date and click the **Apply** button. Refer to the following screen.

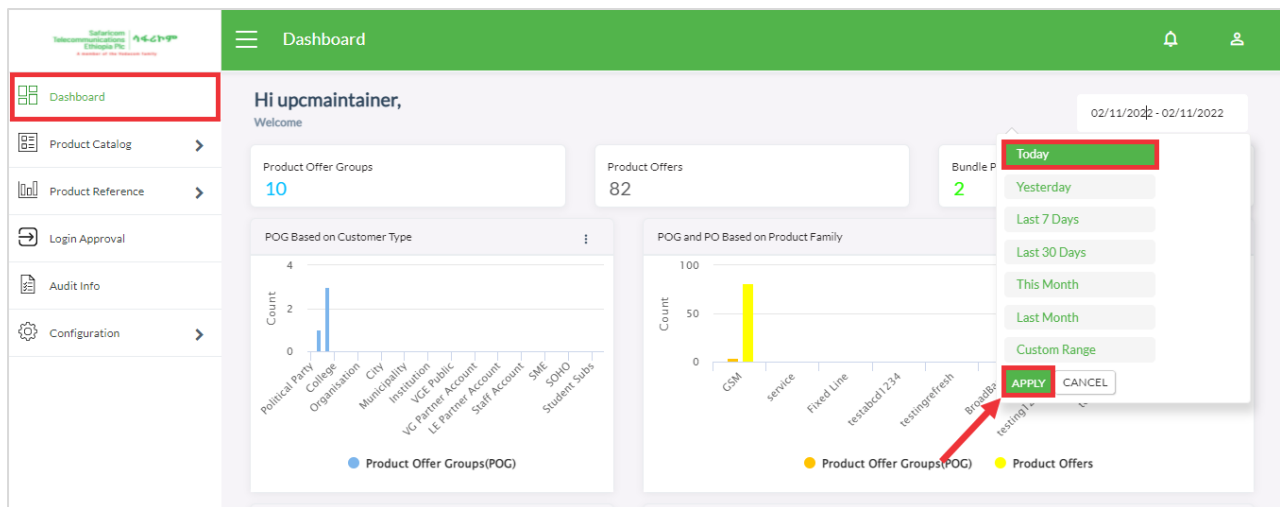

Figure 8 Date Selection Apply Button

The Product details will be displayed based on the selected date.

5 Logout from the Application

After the successful login, you can logout from the application at any time.

To Logout from the Application:

- On the right corner of the screen, click  > > **Logout** button to logout from the application. Refer to the following screen.

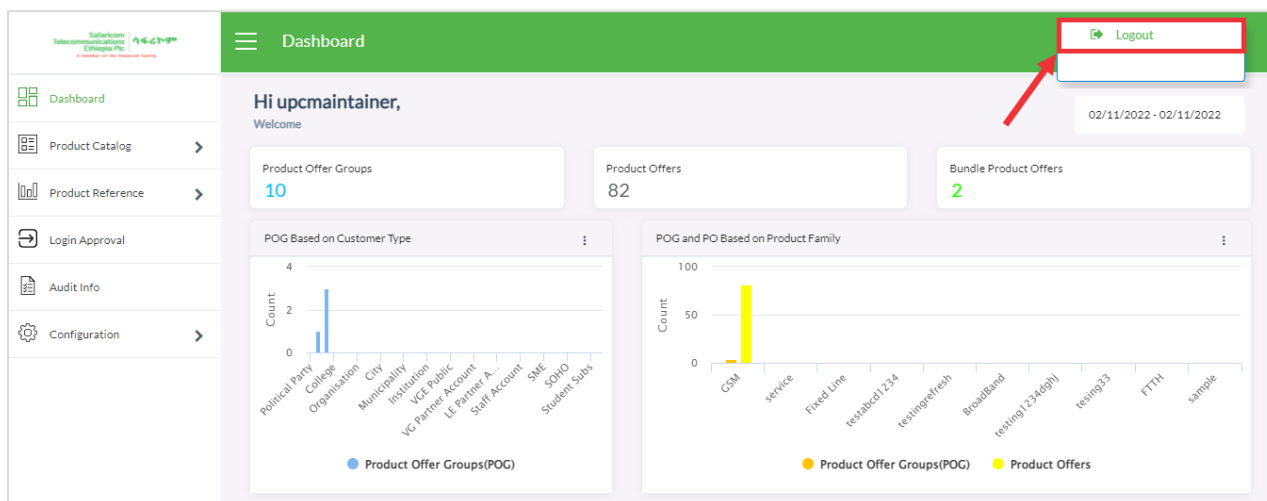

Figure 9 Logout Button

- After clicking the **Logout** button, you will be logged out from the application.

6 Commonly Used Options in GUI

The following are the options used commonly in the GUI.

- Click  to view/ hide the side menus on the screen. Refer to the following screen.

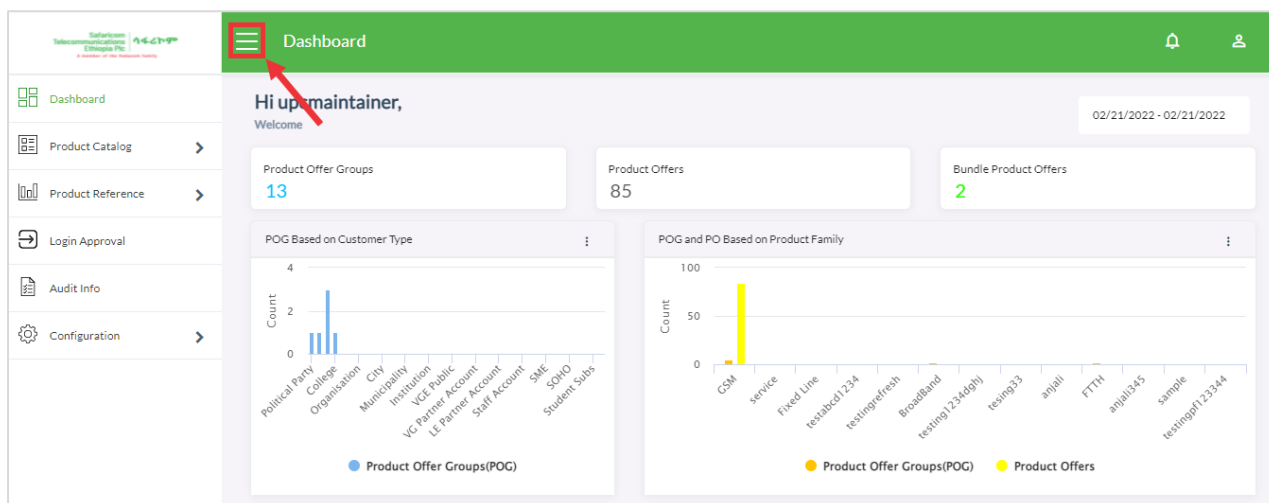

Figure 10 Hide/ View side Menus

- You can search for specific parameters using the **Search** Option.
- On the **Product Specification** screen, enter the name of the parameters in the search fields that you want to view and click the **Search** button. Refer to the following screen.

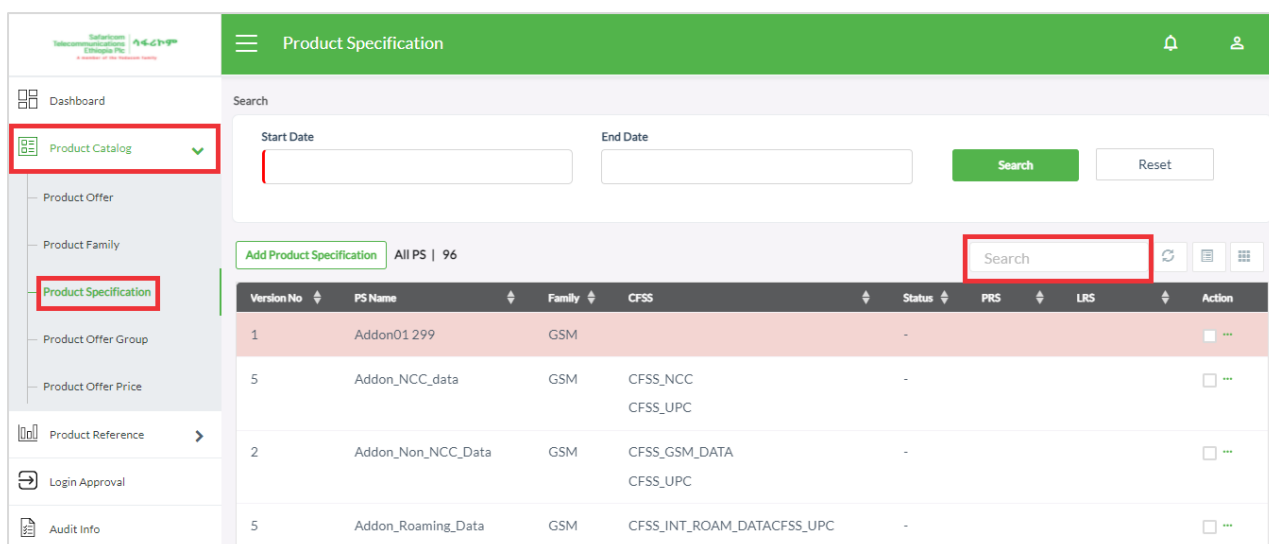

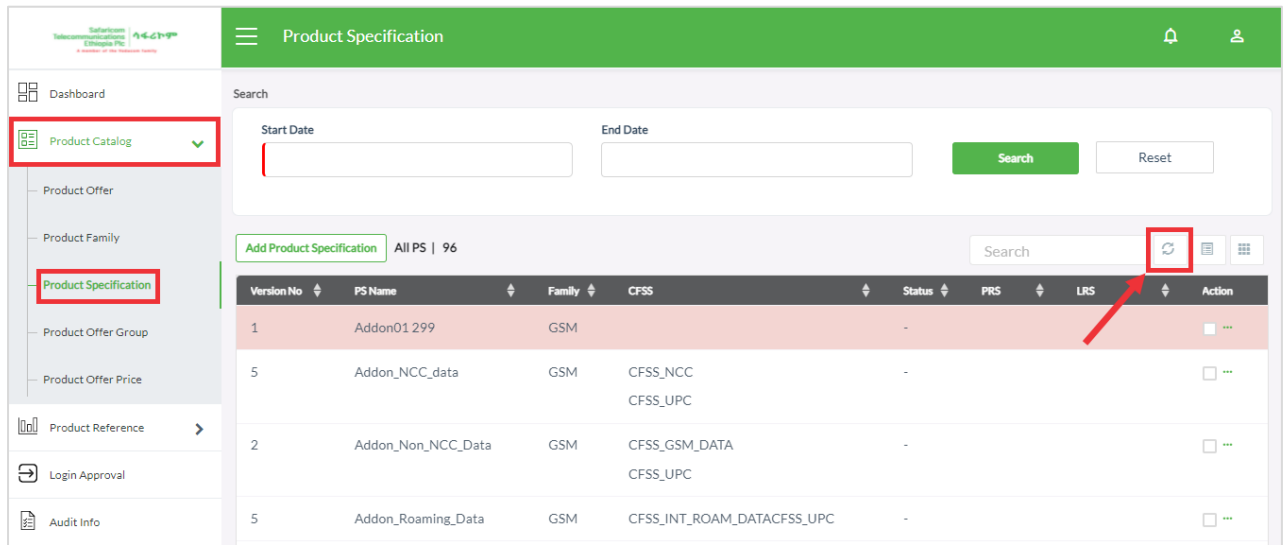

Figure 11 Search Parameters

The results are displayed based on your search criteria.

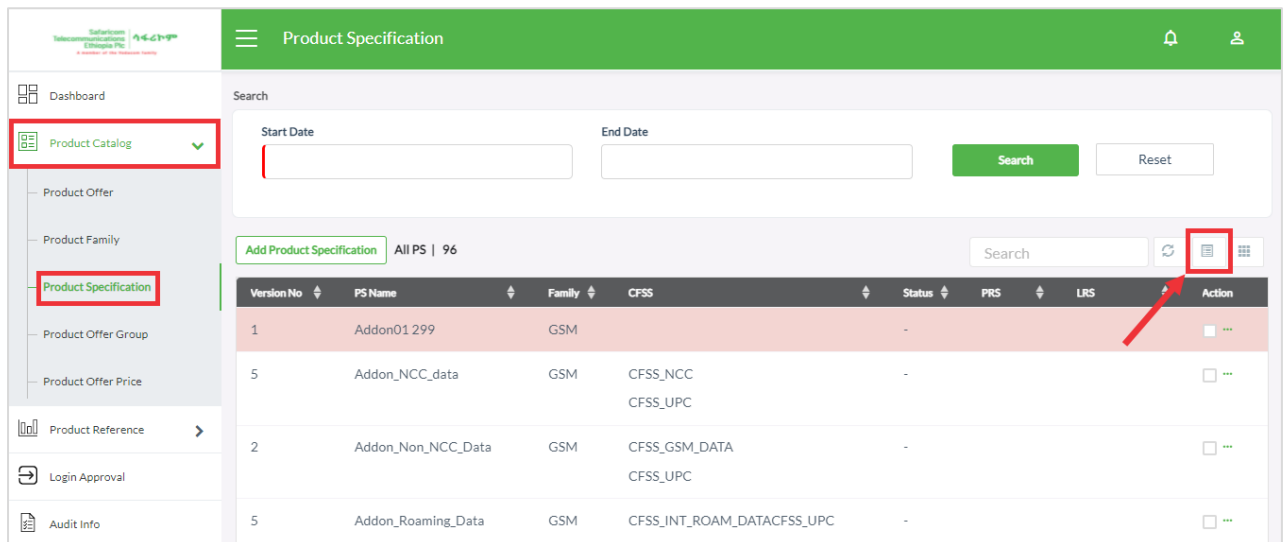

- Click the **Refresh** button  to refresh the search. Refer to the following screen.

The screenshot shows the 'Product Specification' interface. On the left sidebar, 'Product Catalog' and 'Product Specification' are highlighted with red boxes. The main area features a search bar with 'Start Date' and 'End Date' fields, a 'Search' button, and a 'Reset' button. Below the search bar, there is a table with columns: Version No, PS Name, Family, CFSS, Status, PRS, LRS, and Action. The table contains four rows of data. A red box highlights the 'Refresh' button (a circular arrow icon) in the top right corner of the table area, with a red arrow pointing to it.

Figure 12 Refresh Button

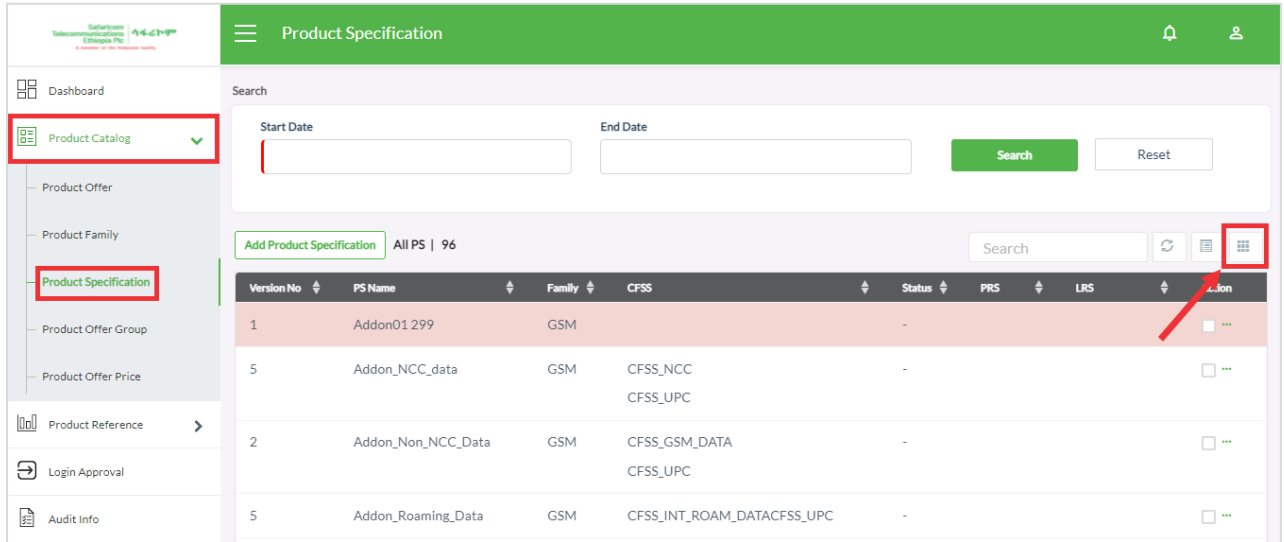

- Click the **List/Grid View** button  to toggle between the list view and grid view.

This screenshot is identical to the previous one, showing the 'Product Specification' interface. However, the red box and arrow now point to the 'List/Grid View' button (a square icon with a grid pattern) located next to the 'Refresh' button in the top right corner of the table area.

Figure 13 List/Grid View Button

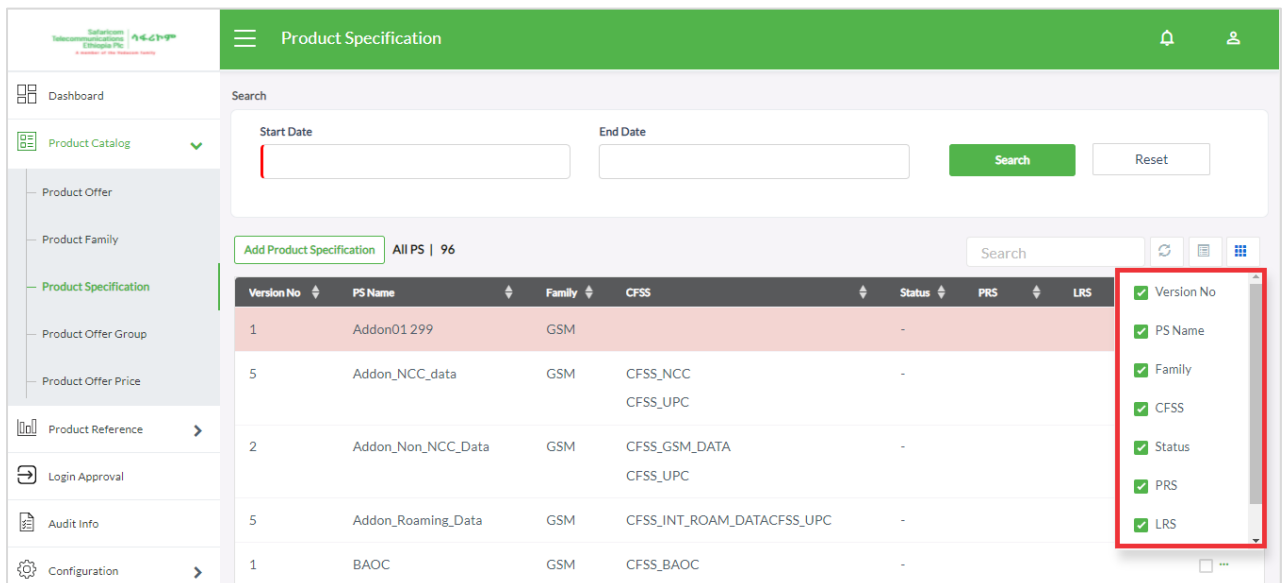

- Click the **Settings** button  to change the setting of the displayed content.

The screenshot shows the 'Product Specification' screen. On the left sidebar, 'Product Catalog' is selected. The main area has a search bar with 'Start Date' and 'End Date' fields, and a 'Search' button. Below the search bar, there's a table with columns: Version No, PS Name, Family, CFSS, Status, PRS, LRS, and Action. The first row is highlighted in red. A red box highlights the 'Settings' button (a grid icon) in the top right corner of the table area.

Figure 14 Settings Button

- After clicking the **Settings** button, the following screen will be displayed.

The screenshot shows the 'Product Specification' screen with the 'Settings' button clicked. A dropdown menu is open, showing a list of columns with checkboxes: Version No, PS Name, Family, CFSS, Status, PRS, and LRS. All checkboxes are checked. The table below the dropdown shows the same data as in Figure 14.

Figure 15 Parameter Options Details Screen

- Select/clear the checkbox displayed against the field to hide/unhide the column in the displayed content.

- To modify the number of entries displayed per page, click the number. Refer to the following screen.

1	3 Year 15 Percent	Birr15.00	Contract Discount	Percentage	Recurring	☐ ...
1	33	Birr111.00	Base Price	Fixed	Non-Recurring	☐ ...

Figure 22 Search Button

The results will be displayed based on the selected date ranges.

- Select the checkbox to delete the entire entry. Refer to the following screen.

For example, you can delete single or multiple entries.

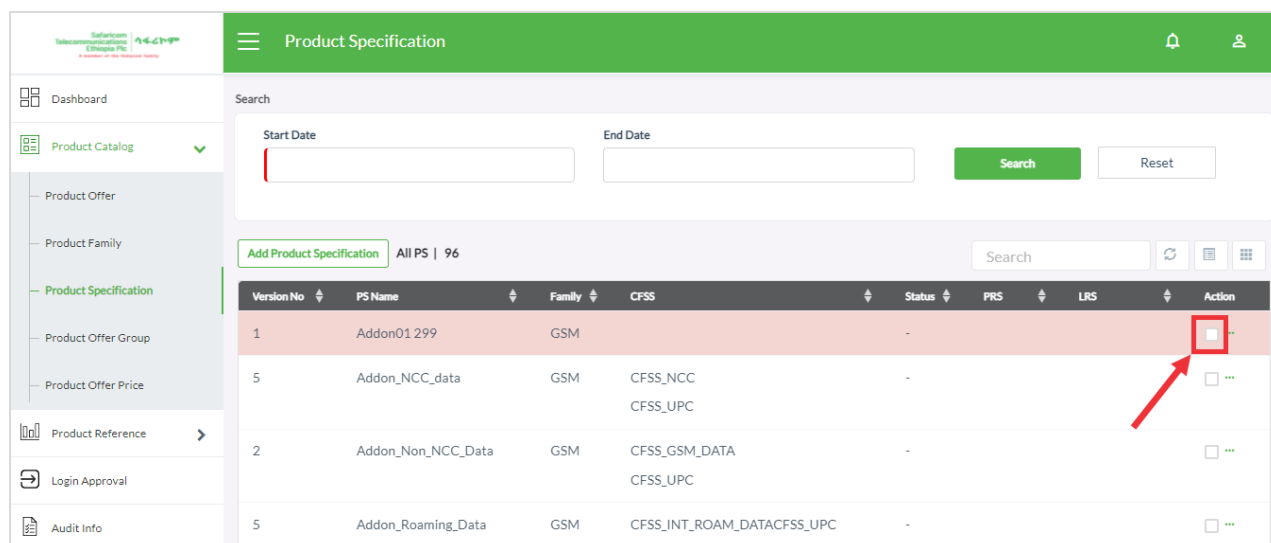

Figure 23 Product Specification Checkbox Selection

- After selecting the checkbox, click the **Delete** button to delete the selected entry. Refer to the following screen.

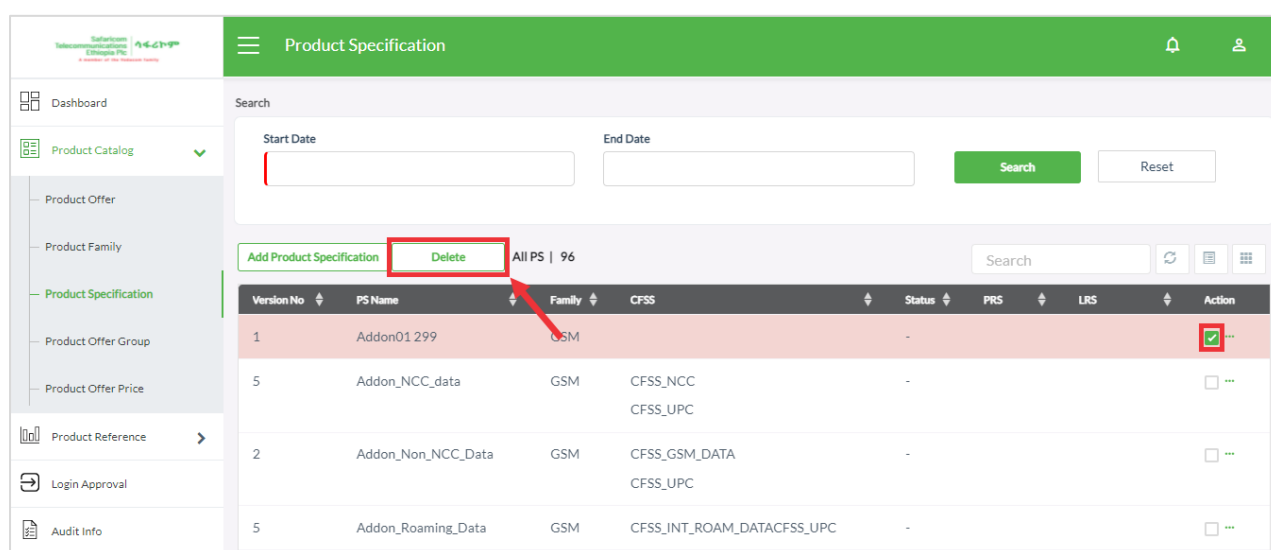

Figure 24 Entry Delete Button

Note: At least one entry should be selected to delete.

- After clicking the **Delete** button, the following End Date screen will be displayed.

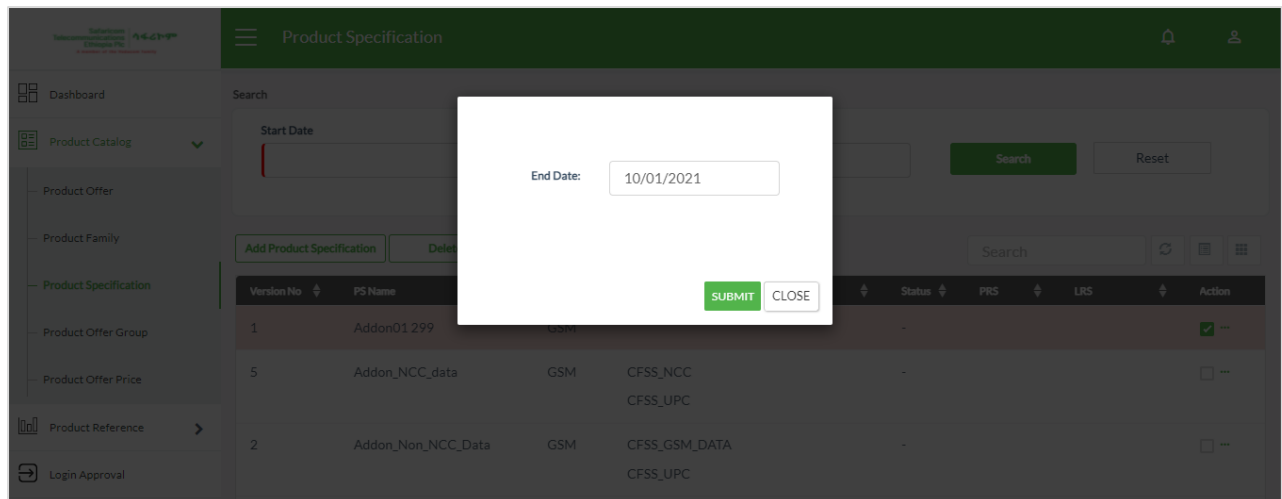

Figure 25 Delete Product Specification End Date Details Screen

- Select the End Date from the calendar and click the **Submit** button. Refer to the following screen.

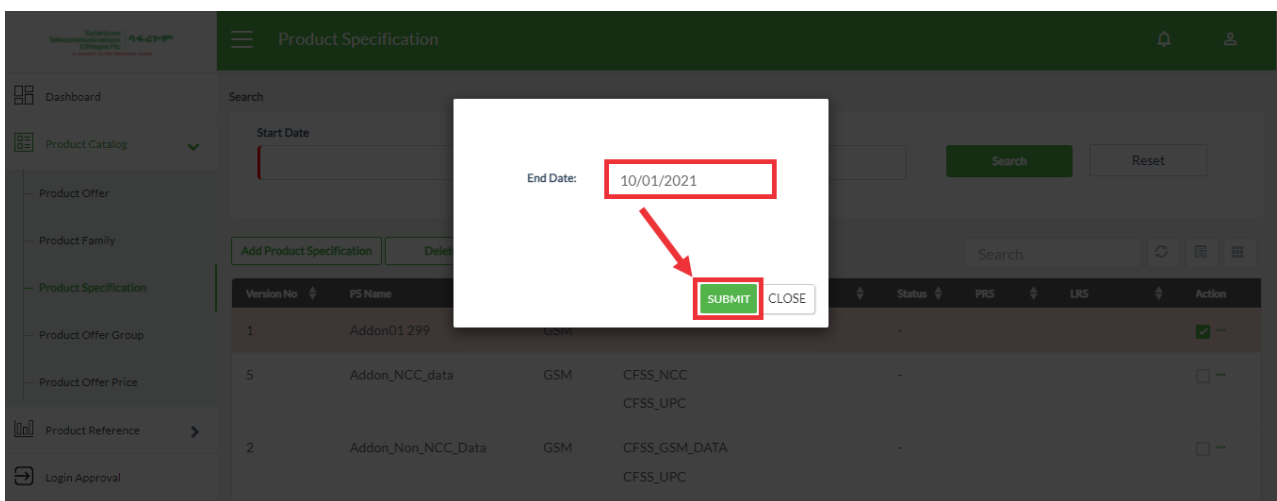

Figure 26 Delete Product Specification Submit Button

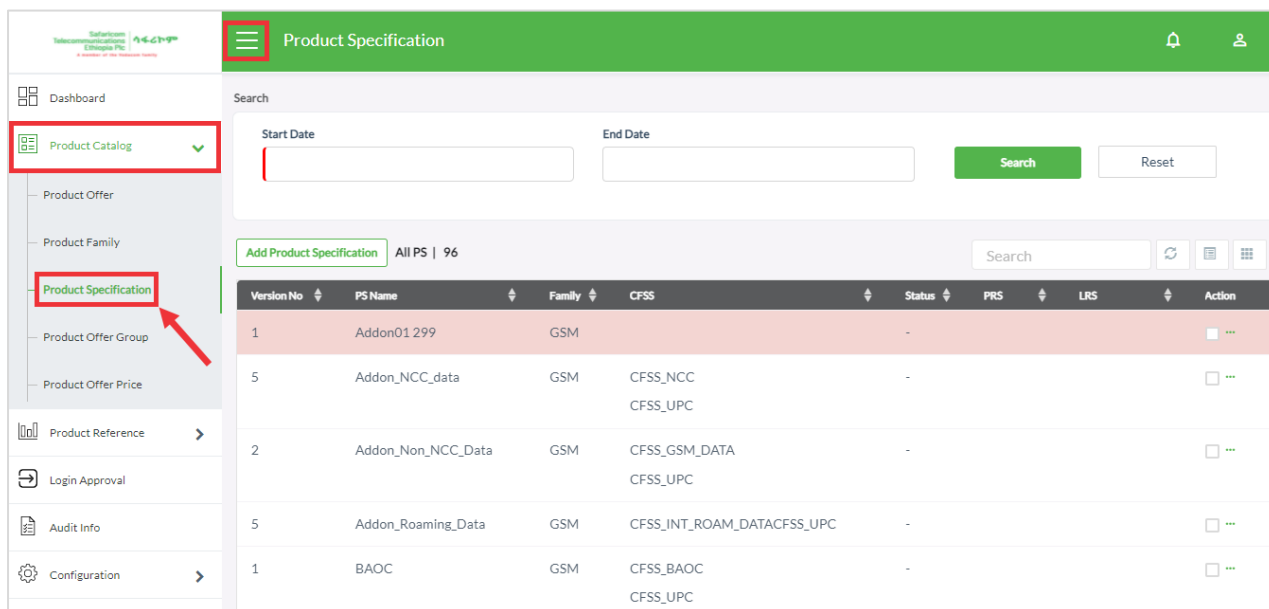

Note: While deleting the Product Specification, the end date should be higher than the previous version start date but not less than the current date.

A success message will be displayed, indicating that the **Product Specification** is deleted successfully.

Versioning:

Using the versioning menu, you can view the previous versions of any service. Versioning is created when you modify the data of an existing service. An example is given below.

1. On the top horizontal bar, click  >> **Product Catalog** >> **Product Specification** to view the product specification screen. Refer to the following screen.

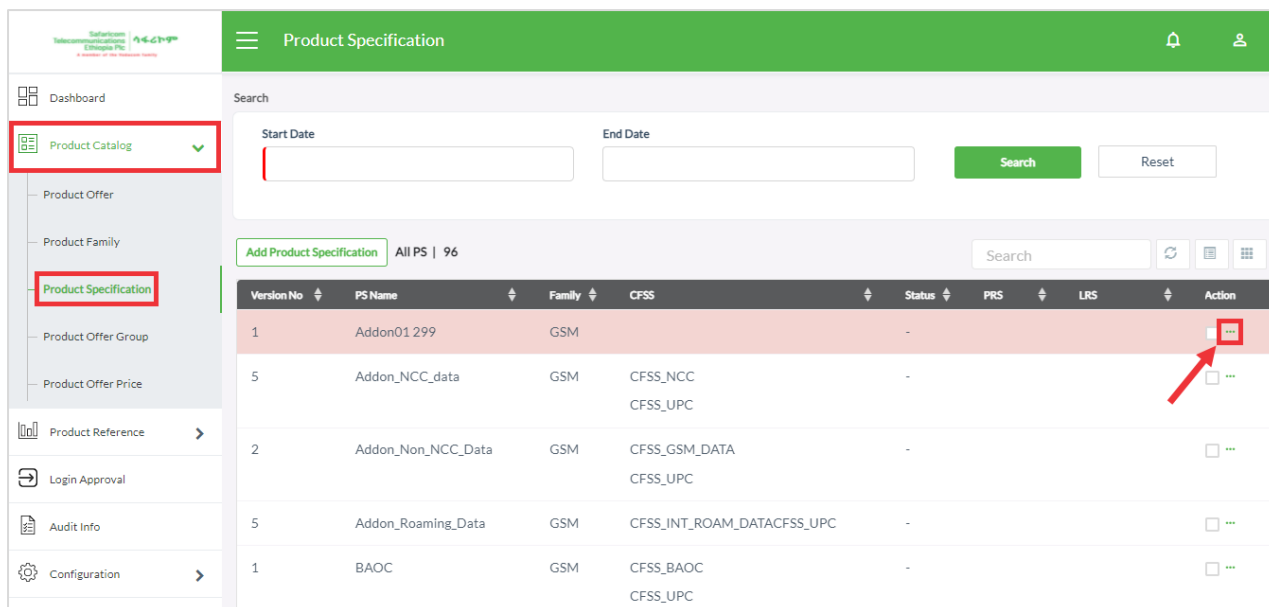

The screenshot shows the 'Product Specification' screen. The left sidebar has a menu with 'Product Catalog' and 'Product Specification' highlighted. The main area has a search bar and a table of product specifications. The table has columns: Version No, PS Name, Family, CFSS, Status, PRS, LRS, and Action. The first row is highlighted in red.

Version No	PS Name	Family	CFSS	Status	PRS	LRS	Action
1	Addon01 299	GSM		-			
5	Addon_NCC_data	GSM	CFSS_NCC CFSS_UPC	-			
2	Addon_Non_NCC_Data	GSM	CFSS_GSM_DATA CFSS_UPC	-			
5	Addon_Roaming_Data	GSM	CFSS_INT_ROAM_DATA CFSS_UPC	-			
1	BAOC	GSM	CFSS_BAOC CFSS_UPC	-			

Figure 27 Reference Data Product Specification Screen

2. On the **Product Specification** screen, click  to view the details. Refer to the following screen.

The screenshot shows the 'Product Specification' screen with the same table as Figure 27. A red arrow points to the 'More options' icon in the Action column of the first row.

Version No	PS Name	Family	CFSS	Status	PRS	LRS	Action
1	Addon01 299	GSM		-			
5	Addon_NCC_data	GSM	CFSS_NCC CFSS_UPC	-			
2	Addon_Non_NCC_Data	GSM	CFSS_GSM_DATA CFSS_UPC	-			
5	Addon_Roaming_Data	GSM	CFSS_INT_ROAM_DATA CFSS_UPC	-			
1	BAOC	GSM	CFSS_BAOC CFSS_UPC	-			

Figure 28 Product Specification View Details

3. After clicking the button, the following screen will be displayed.

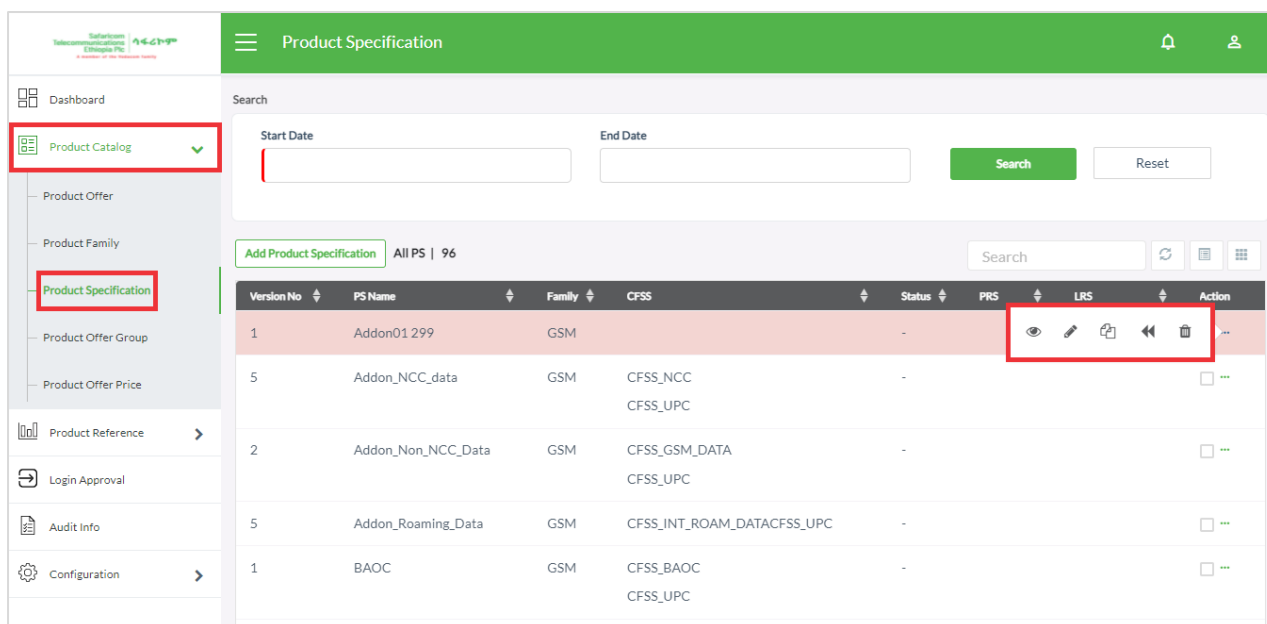

Figure 29 Product Specification Details Screen

4. On the **Product Specification** screen, click the **Versioning** button against the product specification name to view the versioning details. Refer to the following screen.

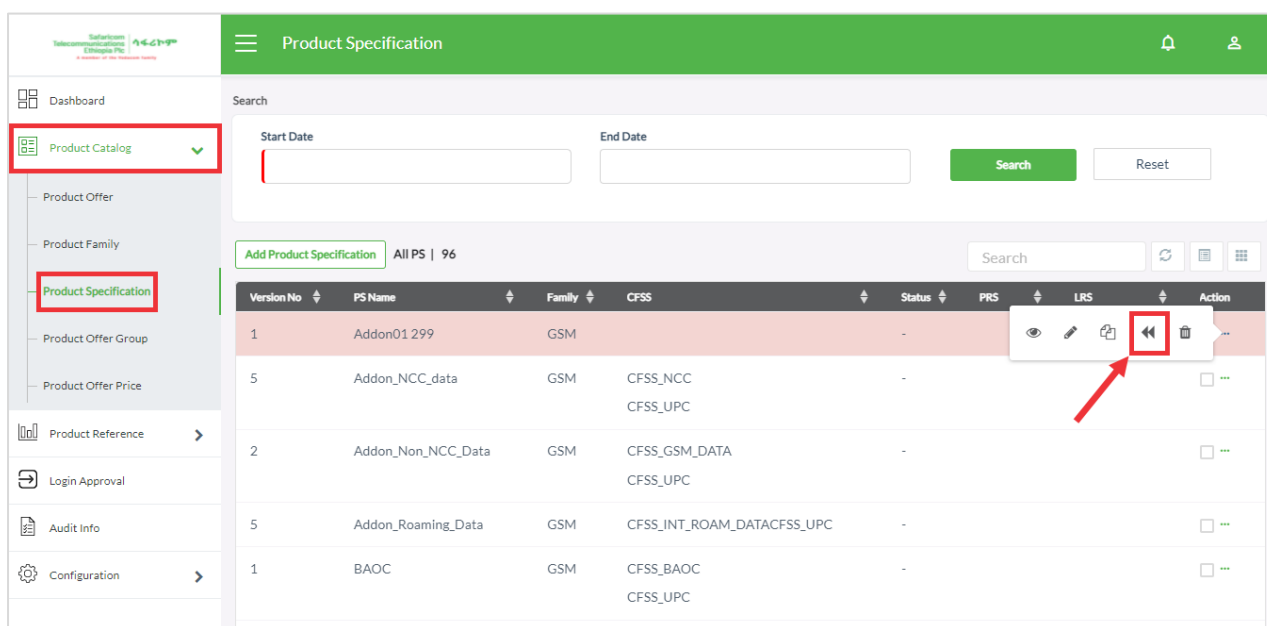

Figure 30 Product Specification Versioning Button

5. After clicking the **Versioning** button, the following screen will be displayed.

Figure 31 Product Specification Version Details Screen

The following Product Specification Version Details will be displayed.

Field	Description
Name	Indicates the name of the product.
Version No	Indicates the number of modifications made on the service with the version number for each modification
Version Status	Indicates the status of the corresponding version. For example, Active , Scheduled , Replaced , Deactive , and Void
Start Date	Indicates the start date of the version.
End Date	Indicates the end date of the version.
Locked	Indicates who locked the version number.
Locked By User	Indicates which user locked the version number.
Version Change Note	Indicates the version change note.

- Click the **View** button  to view the product specification details.

7 Product Catalog

This option allows you to configure the following operations.

- Product Offer
- Product Family

7.1 Product Offer

Using this product offer option, you can create the following product offers.

- Product Offer group
- Simple Product Offer

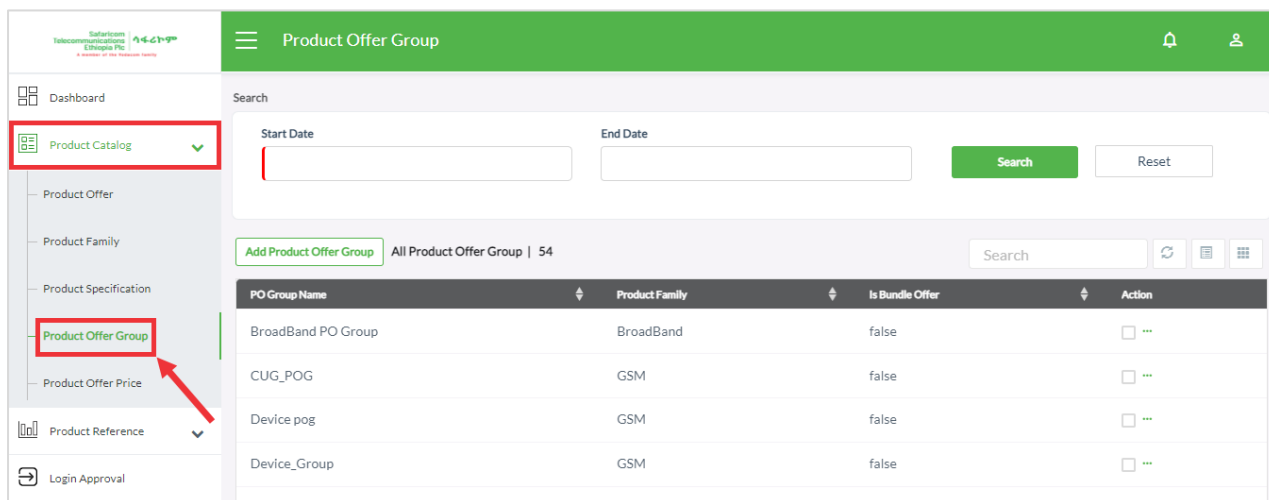

7.1.1 Product Offer Group

Product Offer Groups are basically a collection of POs based on service type. For example, all high-speed PO's will be grouped to a common PO Group.

Using this option, you can create a Product offer Group for Simple products and Bundle products. You can also modify and delete the existing product offer groups.

To manage the Product Offer Group:

1. On the side menu, click **Product Catalog >> Product Offer Group** to view the product offer group details. Refer to the following screen.

The screenshot shows the 'Product Offer Group' management interface. The left sidebar contains the following menu items: Dashboard, Product Catalog (highlighted with a red box and a green checkmark), Product Offer, Product Family, Product Specification, Product Offer Group (highlighted with a red box and a red arrow), Product Offer Price, Product Reference, and Login Approval. The main content area has a green header bar with the title 'Product Offer Group'. Below the header is a search bar with 'Start Date' and 'End Date' input fields, a 'Search' button, and a 'Reset' button. Below the search bar is a green button labeled 'Add Product Offer Group' and a text label 'All Product Offer Group | 54'. Below this is a table with the following columns: PO Group Name, Product Family, Is Bundle Offer, and Action. The table contains the following data rows:

PO Group Name	Product Family	Is Bundle Offer	Action
BroadBand PO Group	BroadBand	false	☐ ...
CUG_POG	GSM	false	☐ ...
Device pog	GSM	false	☐ ...
Device_Group	GSM	false	☐ ...

Figure 32 Product Catalog – Product Offer Group Details

7.1.1.1 Add Product Offer Group

Using this add product offer group option, you can add a new Product Offer Group.

To add a new Product Offer Group:

1. On the **Product Offer Group** screen, click the **Add Product Offer Group** button to add a new product offer group. Refer to the following screen.

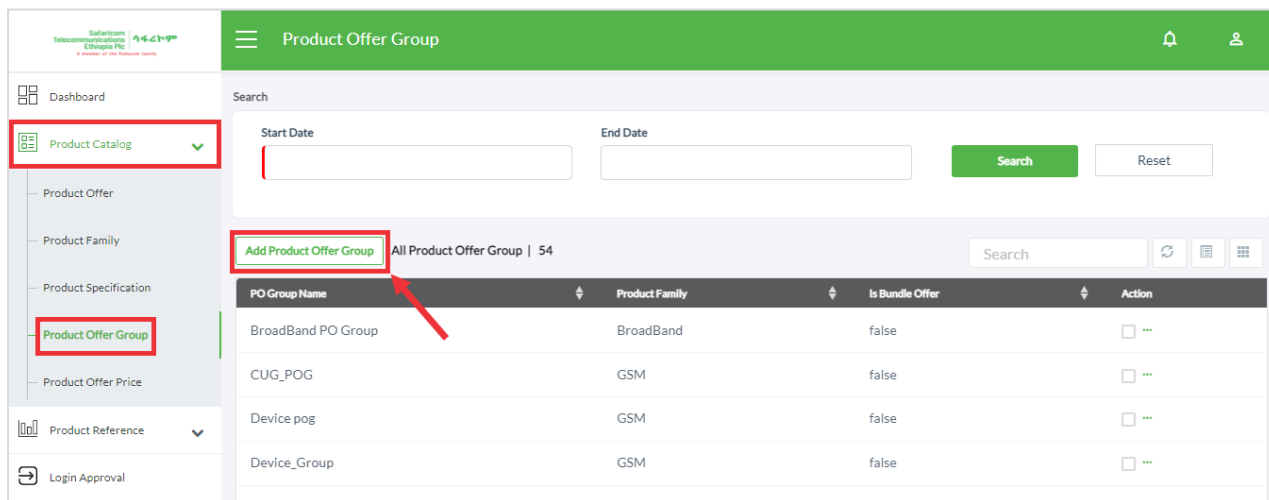

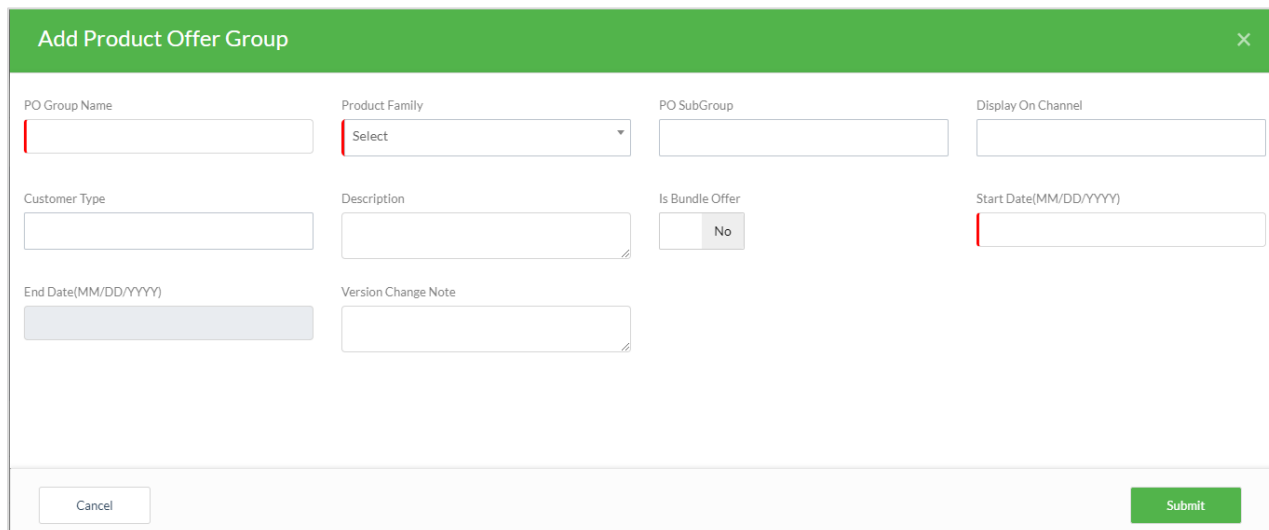

Figure 33 Product Offer Group - Add Button

2. After clicking the **Add Product Offer Group** button, the following screen will be displayed.

The 'Add Product Offer Group' form contains the following fields:

- PO Group Name:** Text input field.
- Product Family:** Dropdown menu with 'Select' as the current value.
- PO SubGroup:** Text input field.
- Display On Channel:** Text input field.
- Customer Type:** Text input field.
- Description:** Text input field.
- Is Bundle Offer:** Radio button group with 'No' selected.
- Start Date(MM/DD/YYYY):** Text input field.
- End Date(MM/DD/YYYY):** Text input field.
- Version Change Note:** Text input field.

At the bottom, there are 'Cancel' and 'Submit' buttons.

Figure 34 Add Product Offer Group Details Screen

3. Enter/Select the following details in the corresponding fields. If the fields are marked with "!" is mandatory.

Field	Description
PO Group Name	Enter the Name of the Product Offer Group.
Product Family	Select the Product Family in the drop-down list. For example, GSM, GSM Postpaid, and so on.
PO Sub-Group	Select the Product Offer Sub-Group in the drop-down list. For example, Subgroup1, Subgroup2, and so on.
Display On Channel	Select the Display on Channel in the drop-down list. For example, CRM, POS, SCM.
Customer Type	Select the Customer Type in the drop-down list. For example, Enterprise and Residential.
Description	Enter the description about the Product Offer Group.
Is Bundle Offer	Click "Yes" if it is an Is Bundle Offer. Or Click "No" Note: If you click "No" then it will be considered as a Simple Product Offer.
Start Date	Select the Start Date from the calendar.
End Date	End date will be selected by default based on the selected start date.
Version Change Note	Enter the version change note of the product offer group.

4. After entering all the required details, click the **Submit** button.

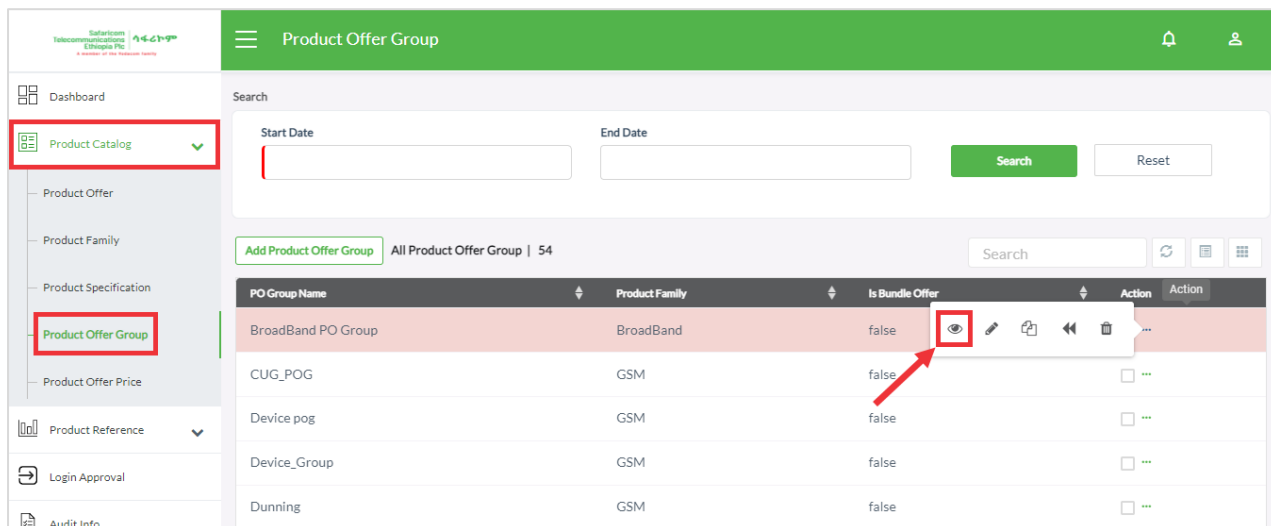

A success message will be displayed, indicating that the **Data is submitted** successfully.

7.1.1.2 View Product Offer Group

Using this option, you can view the existing product offer group details.

To view the Product Offer Group:

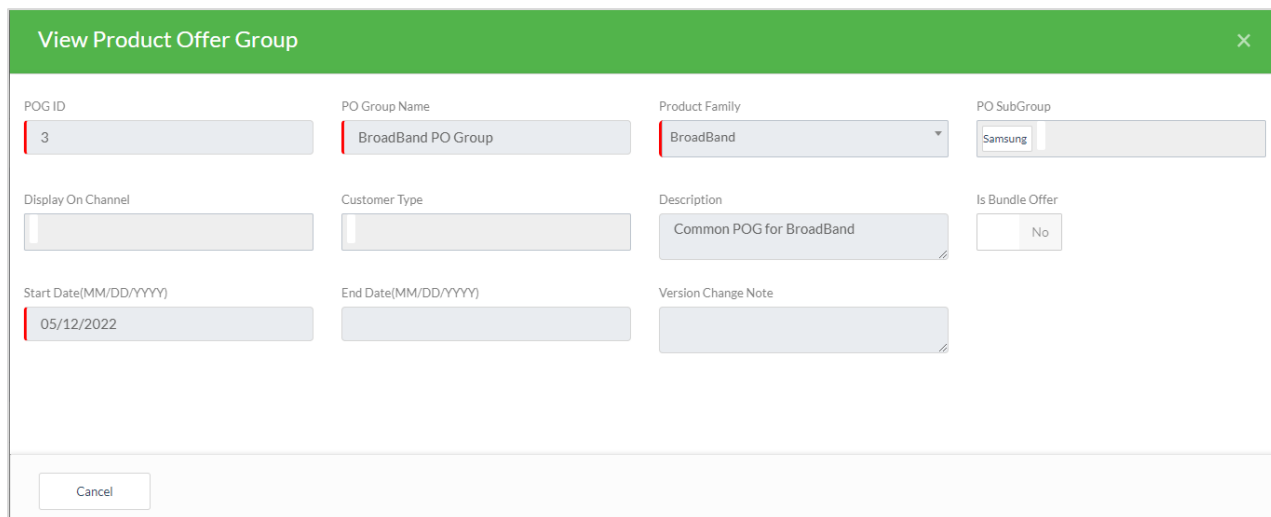

1. On the **Product Offer Group** screen, click the **View** button  to view the existing product offer group details. Refer to the following screen.

The screenshot shows the 'Product Offer Group' interface. On the left, a sidebar contains navigation items: Dashboard, Product Catalog, Product Offer, Product Family, Product Specification, Product Offer Group (highlighted), Product Offer Price, Product Reference, Login Approval, and Audit Info. The main content area has a search bar with 'Start Date' and 'End Date' fields, and a 'Search' button. Below the search bar, there's a table of product offer groups. The table has columns: PO Group Name, Product Family, Is Bundle Offer, and Action. The first row is 'BroadBand PO Group' with 'BroadBand' as the product family and 'false' for 'Is Bundle Offer'. The 'Action' column for this row contains a red box around an eye icon (the 'View' button), with a red arrow pointing to it. Other rows include 'CUG_POG', 'Device pog', 'Device_Group', and 'Dunning', all with 'GSM' as the product family and 'false' for 'Is Bundle Offer'.

Figure 35 Product Offer Group - View Button

2. After clicking the **View** button, the following screen will be displayed.

The screenshot shows the 'View Product Offer Group' screen. It has a green header bar with the title 'View Product Offer Group' and a close button. The form contains several fields: POG ID (3), PO Group Name (BroadBand PO Group), Product Family (BroadBand), PO SubGroup (Samsung), Display On Channel, Customer Type, Description (Common POG for BroadBand), Is Bundle Offer (No), Start Date (05/12/2022), End Date, and Version Change Note. There is a 'Cancel' button at the bottom left.

Figure 36 View Offer Preference Details Screen

7.1.1.3 Modify Product Offer Group

Using this modify product offer group option, you can modify the existing Product Offer Group details.

To modify the Product Offer Group:

1. On the **Product Offer Group** screen, click the **Modify** button  to modify the existing product offer group details. Refer to the following screen.

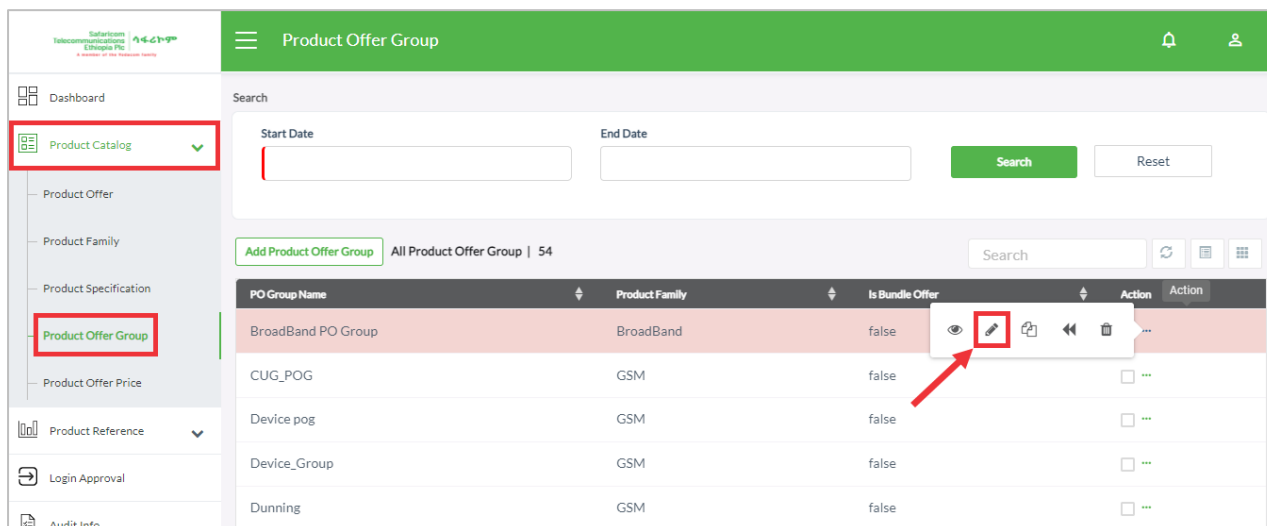

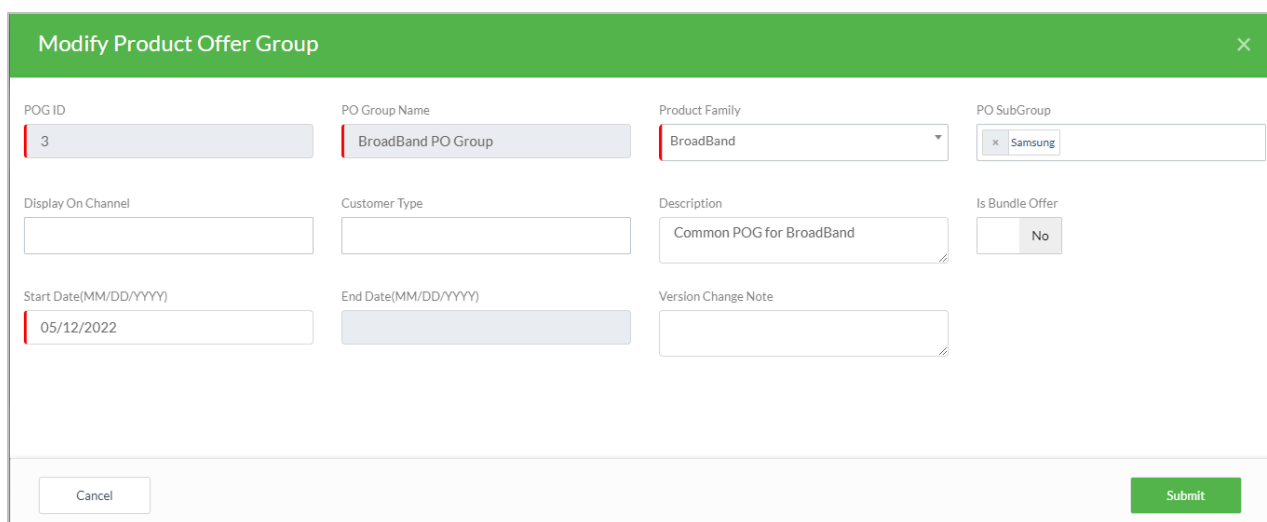

Figure 37 Existing product Offer Group Modify Button

2. After clicking the **Modify** button, the following screen will be displayed.

 The screenshot shows the 'Modify Product Offer Group' form. It contains the following fields:

- POG ID: 3
- PO Group Name: BroadBand PO Group
- Product Family: BroadBand
- PO SubGroup: Samsung
- Display On Channel: (empty)
- Customer Type: (empty)
- Description: Common POG for BroadBand
- Is Bundle Offer: No
- Start Date(MM/DD/YYYY): 05/12/2022
- End Date(MM/DD/YYYY): (empty)
- Version Change Note: (empty)

 At the bottom, there are 'Cancel' and 'Submit' buttons.

Figure 38 Modify Product Offer Group Details Screen

Note: The start date should be higher than the current date.

3. Modify the necessary details and click the **Submit** button.

A success message will be displayed, indicating that the Data is submitted successfully.

7.1.1.4 Copy Product Offer Group

Using this option, you can copy the existing product offer group details.

To copy the Product Offer Group:

1. On the **Product Offer Group** screen, click the **Copy** button  to copy the existing product offer group details. Refer to the following screen.

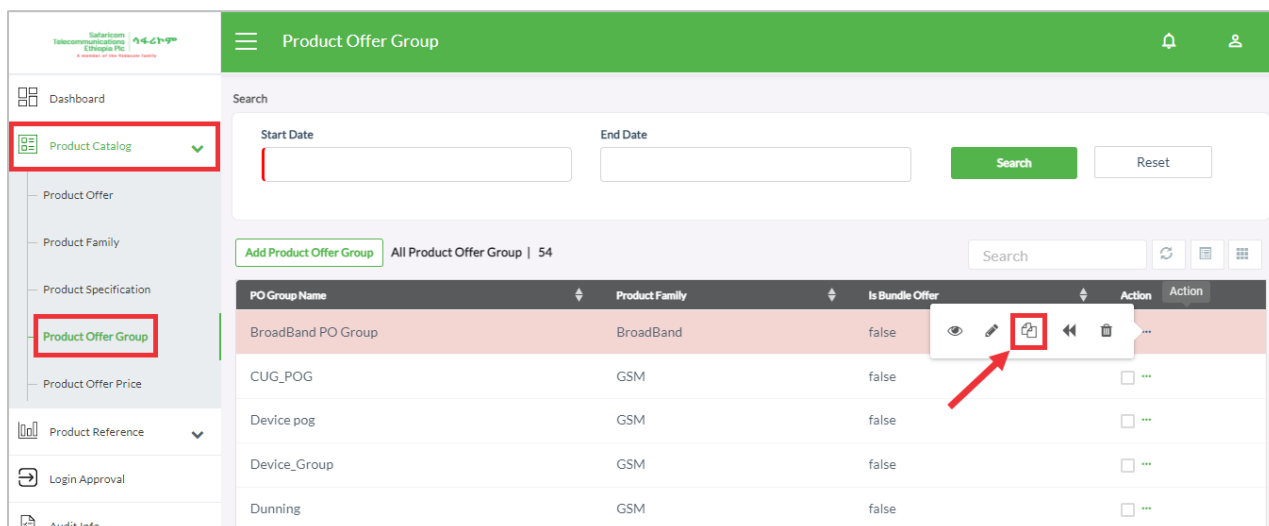

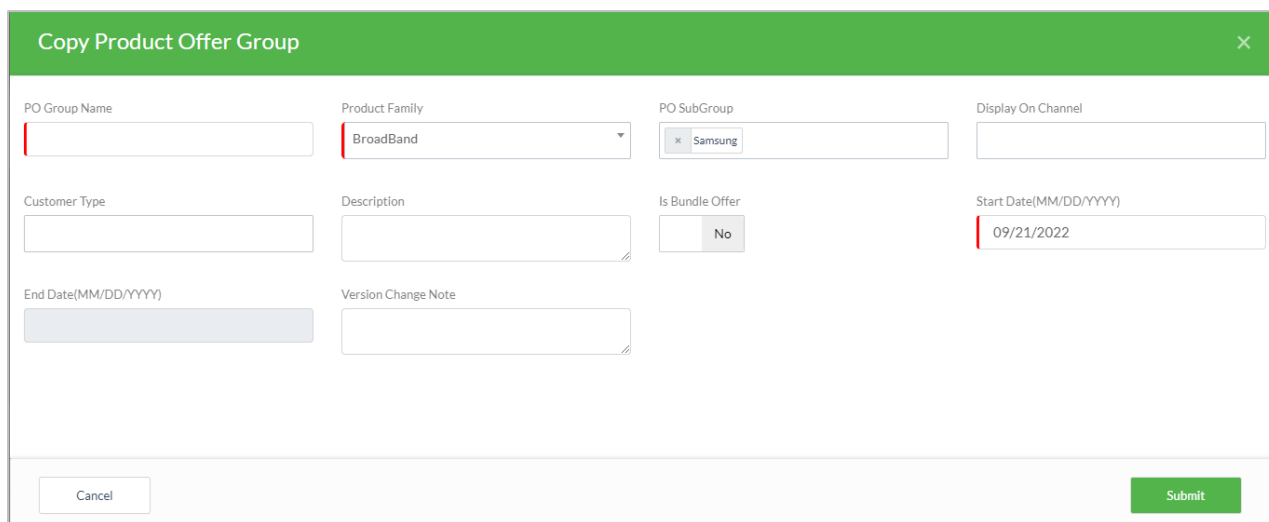

Figure 39 Product Offer Group Copy Button

2. After clicking the **Copy** button, the following screens will be displayed.

 The screenshot shows the 'Copy Product Offer Group' modal form. It contains several input fields for copying details from an existing group.

PO Group Name	Product Family	PO SubGroup	Display On Channel
	BroadBand	Samsung	
Customer Type	Description	Is Bundle Offer	Start Date(MM/DD/YYYY)
		No	09/21/2022
End Date(MM/DD/YYYY)	Version Change Note		

Buttons: Cancel, Submit

Figure 52 New Eligible Offers Add New Button

Note: The following Sub-Group details will be displayed when the sub-group is selected as "Yes".

- On the **New Eligible Offers** screen, click  to add, modify, and delete the subgroup. Refer to the following screen.

The screenshot shows the 'New Eligible Offers' modal window. It contains several input fields: 'Group Name' (text input), 'PO Type' (dropdown menu), 'Minimum Qty' (text input with 'Min Qty' placeholder), 'Maximum Qty' (text input with 'Max Qty' placeholder), 'Eligibility Type' (dropdown menu), and 'Sub-Group' (checkbox labeled 'Yes'). Below these fields is a 'New Sub Group' button with a plus icon. This button is highlighted with a red box, and a red arrow points to it. At the bottom right of the modal are 'Cancel' and 'Add' buttons.

Figure 53 New Subgroup Details Screen

- On the **New Eligible Offers** screen, click the **Add** button to add the new subgroup. Refer to the following screen.

This screenshot is similar to Figure 53, but it shows a context menu that appears when the 'New Sub Group' button is clicked. The menu has three options: 'Add', 'Modify', and 'Delete'. The 'Add' option is highlighted with a red box, and a red arrow points to it. The 'New Sub Group' button is also highlighted with a red box. The 'Add' button at the bottom right of the modal is also visible.

Figure 54 New Sub-Group Add Button

- After clicking the **Add** button, the following screen will be displayed.

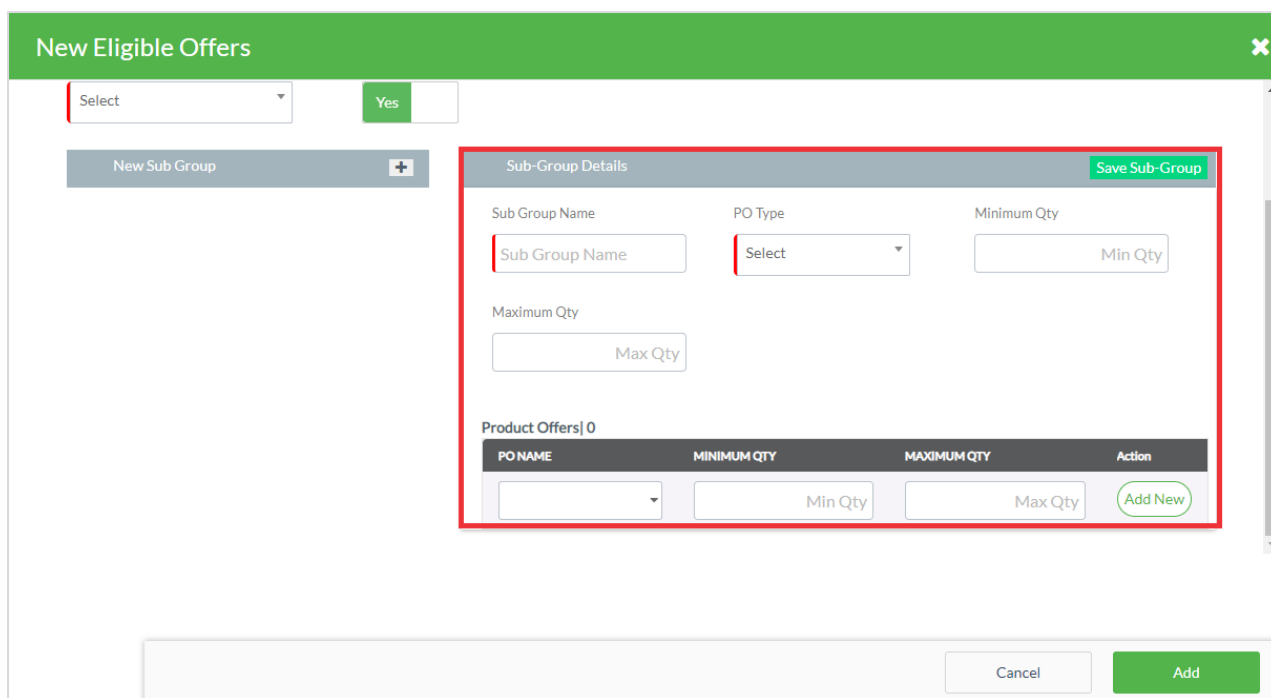

Figure 55 Sub-Group Details Screen

13. Enter/Select the following details in the corresponding fields. If the fields are marked with " | " is mandatory.

Field	Description
Sub-Group Name	Enter the Sub-Group Name of the Product Offer.
PO Type	Select the Product Offer Type in the drop-down list. For example, Base, Add-on, and so on.
Minimum Qty	Enter the minimum quantity of the product offer.
Maximum Qty	Enter the maximum quantity of the product offer.
Product Offers	
PO Name	Select the Product offer Name in the drop-down list. For example, Basic Talk, Child Base Offer, and so on.
Minimum Qty	Enter the minimum quantity of the product offer.
Maximum Qty	Enter the maximum quantity of the product offer.

14. On the **New Eligible Offers** screen, click the **Save Sub-Group** button to save the subgroup details. Refer to the following screen.

The screenshot shows the 'New Eligible Offers' form. At the top, there's a green header bar with the title and a close button. Below the header, there's a 'Select' dropdown and a 'Yes' button. A 'New Sub Group' button with a plus icon is on the left. The main section is titled 'Sub-Group Details' and contains fields for 'Sub Group Name', 'PO Type' (a dropdown), 'Minimum Qty' (a text field with 'Min Qty' placeholder), and 'Maximum Qty' (a text field with 'Max Qty' placeholder). A red box highlights the 'Save Sub-Group' button in the top right corner of this section, with a red arrow pointing to it. Below the details section is a 'Product Offers' table with columns for 'PO NAME', 'MINIMUM QTY', 'MAXIMUM QTY', and 'Action'. The table is currently empty, showing only the headers and placeholder text. At the bottom of the form are 'Cancel' and 'Add' buttons.

Figure 56 Save Sub-Group Button

15. After clicking the **Save Sub-Group** button, the sub-group will be created.

Note: Once you save the subgroup details, you can use those details in the future.

- On the **New Eligible Offers** screen, click the **Modify** and **Delete** button to modify and delete the created subgroup details. Refer to the following screen.

The screenshot shows the 'New Eligible Offers' form after a sub-group has been created. The form now includes a 'Group Name' field, a 'PO Type' dropdown, 'Minimum Qty' and 'Maximum Qty' text fields, an 'Eligibility Type' dropdown, and a 'Sub-Group' section with a 'Yes' button. A 'New Sub Group' button with a plus icon is still present. A red box highlights the 'Add', 'Modify', and 'Delete' buttons in a dropdown menu that appears when the 'New Sub Group' button is clicked. The 'Modify' and 'Delete' buttons are specifically highlighted with a red box. At the bottom of the form are 'Cancel' and 'Add' buttons.

Figure 97 Product Family Copy Button

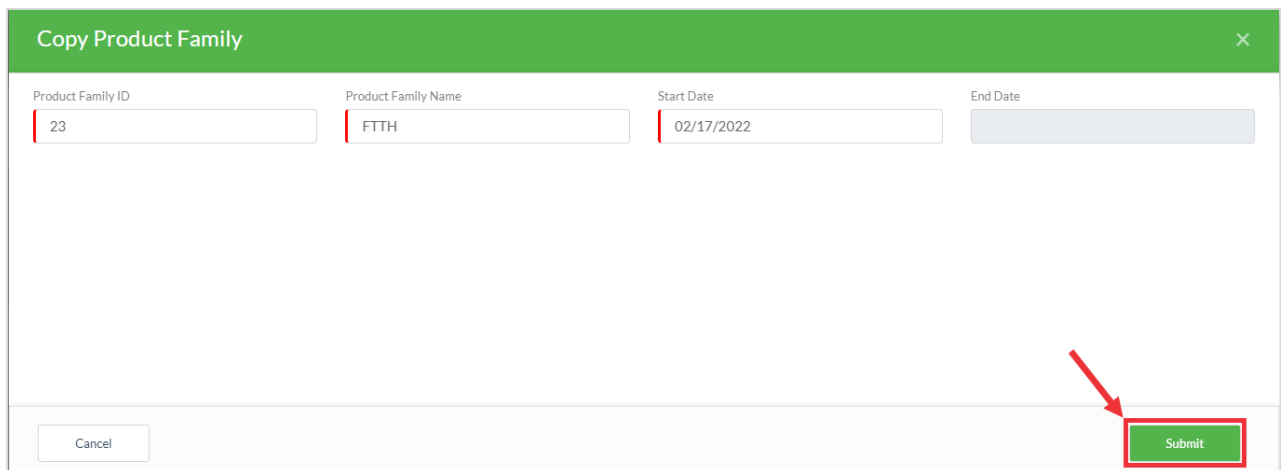

2. After clicking the **Copy** button, the following screen will be displayed.

The screenshot shows a modal window titled "Copy Product Family" with a green header and a close button (X) in the top right corner. Below the header, there are four input fields arranged horizontally: "Product Family ID" containing the value "23", "Product Family Name" containing "FTTH", "Start Date" containing "02/17/2022", and an empty "End Date" field. At the bottom of the modal, there is a "Cancel" button on the left and a green "Submit" button on the right.

Figure 98 Copy Product Family Details Screen

3. Copy the required product family details and click the **Submit** button. Refer to the following screen.

This screenshot is identical to Figure 98, showing the "Copy Product Family" modal with the same input values. A red arrow points from the right side of the modal towards the green "Submit" button at the bottom right, which is also highlighted with a red rectangular border.

Figure 99 Copy Product Family Submit Button

A success message will be displayed, indicating that the Data is submitted successfully.

7.2.5 Delete Product Family

Using this delete option, you can delete the existing product family details.

To delete the Product Family:

1. On the **Product Family** screen, click the **Delete** button  to delete the existing product family. Refer to the following screen.

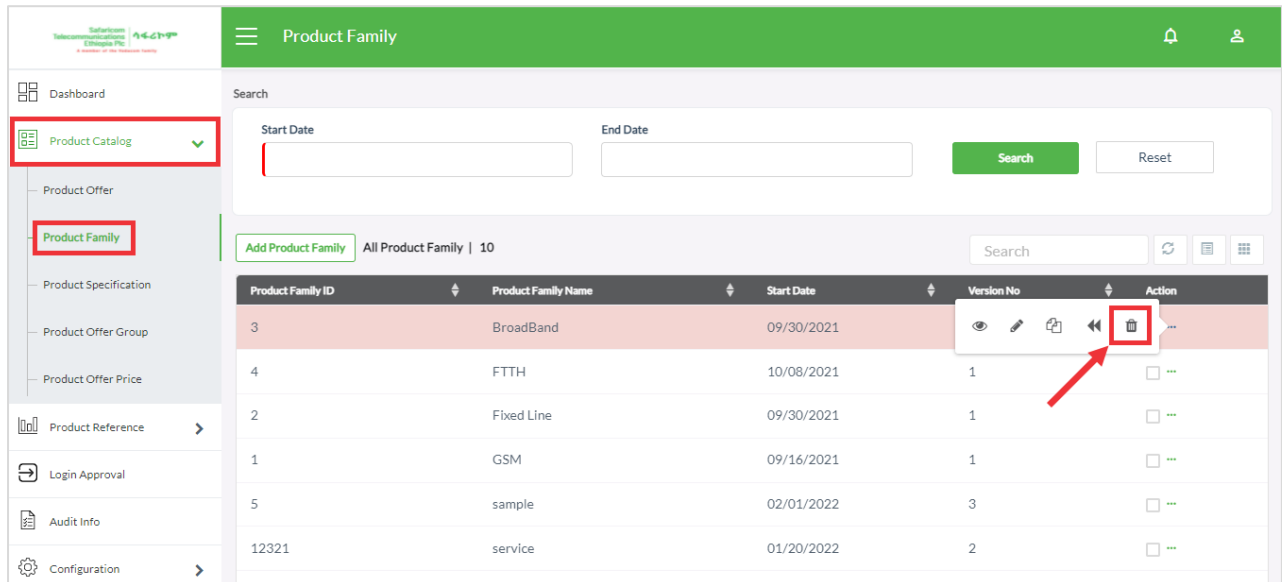

Figure 100 Product Family Delete Button

2. After clicking the **Delete** button, the following End Date screen will be displayed.

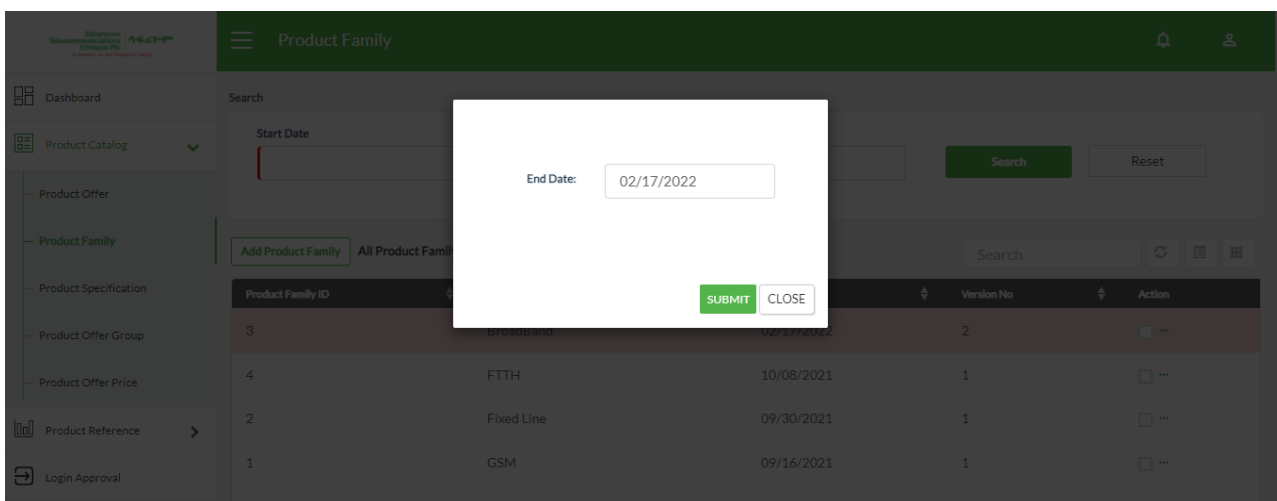

Figure 101 Delete Product Family End Date Details Screen

3. Select the End Date from the calendar and click the **Submit** button. Refer to the following screen.

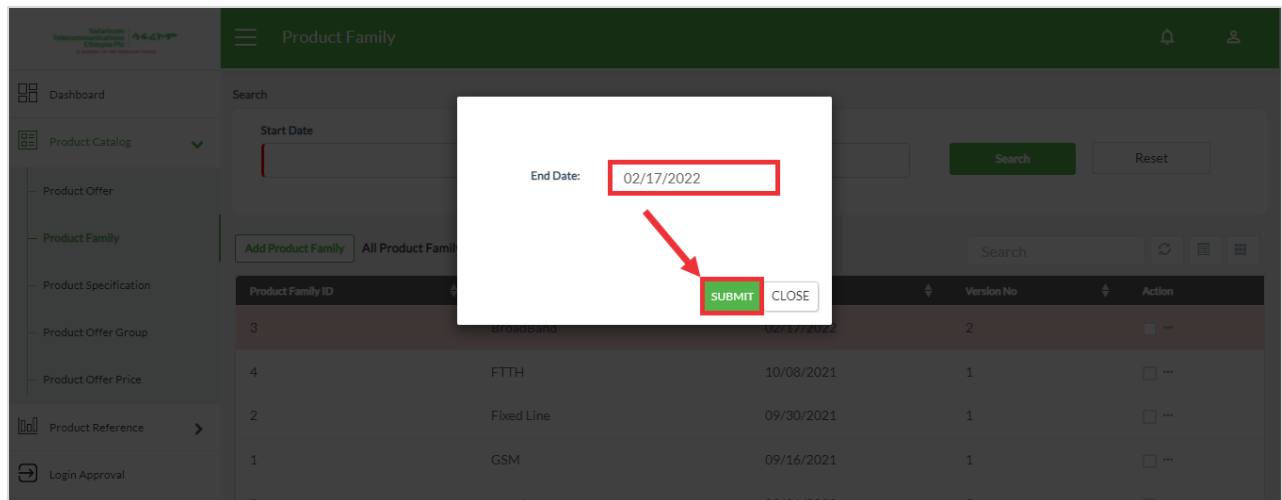

Figure 102 Delete Product Family Submit Button

Note: While deleting the product family, the end date should be higher than the previous version start date but not less than the current date.

A success message will be displayed, indicating that the data is submitted successfully.

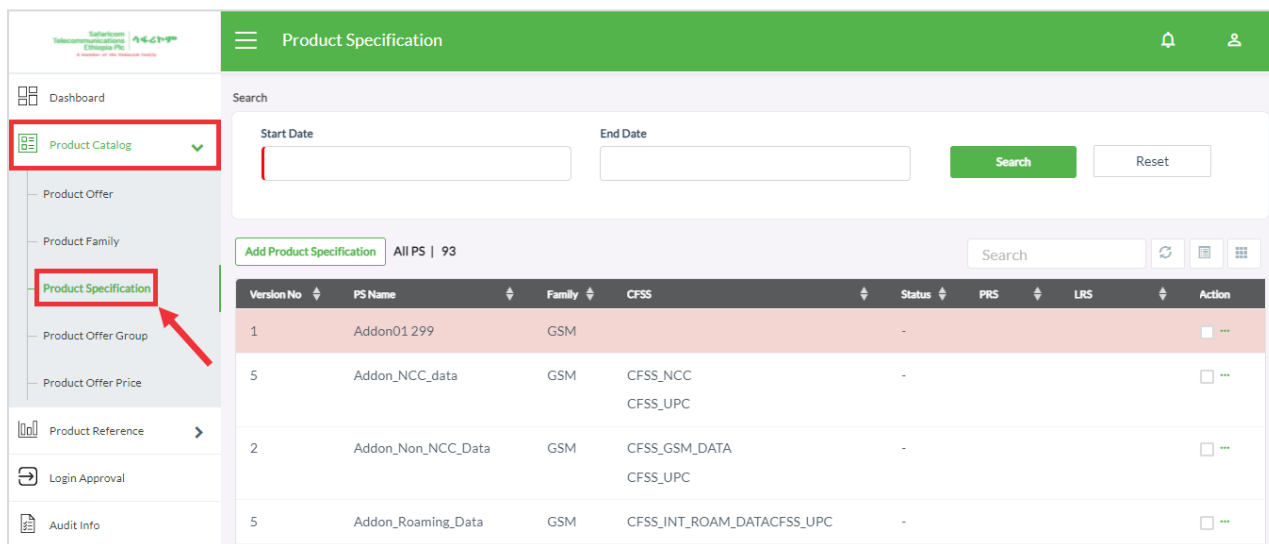

7.3 Product Specification

Using this product specification option, you can manage and add the product specification by entering the required details such as product information, product specification, child relationship, and peer relationship.

You can also view, modify, copy, and delete the existing product specifications.

To manage the Product Specification:

1. On the side menu, click the **Reference Data >> Product Specification** to view the product specification menu. Refer to the following screen.

The screenshot shows the 'Product Specification' screen. The left sidebar has a menu with 'Product Catalog' and 'Product Specification' highlighted. The main area has a search bar and a table of product specifications.

Version No	PS Name	Family	CFSS	Status	PRS	LRS	Action
1	Addon01 299	GSM		-			[Icon] [Icon]
5	Addon_NCC_data	GSM	CFSS_NCC CFSS_UPC	-			[Icon] [Icon]
2	Addon_Non_NCC_Data	GSM	CFSS_GSM_DATA CFSS_UPC	-			[Icon] [Icon]
5	Addon_Roaming_Data	GSM	CFSS_INT_ROAM_DATA CFSS_UPC	-			[Icon] [Icon]

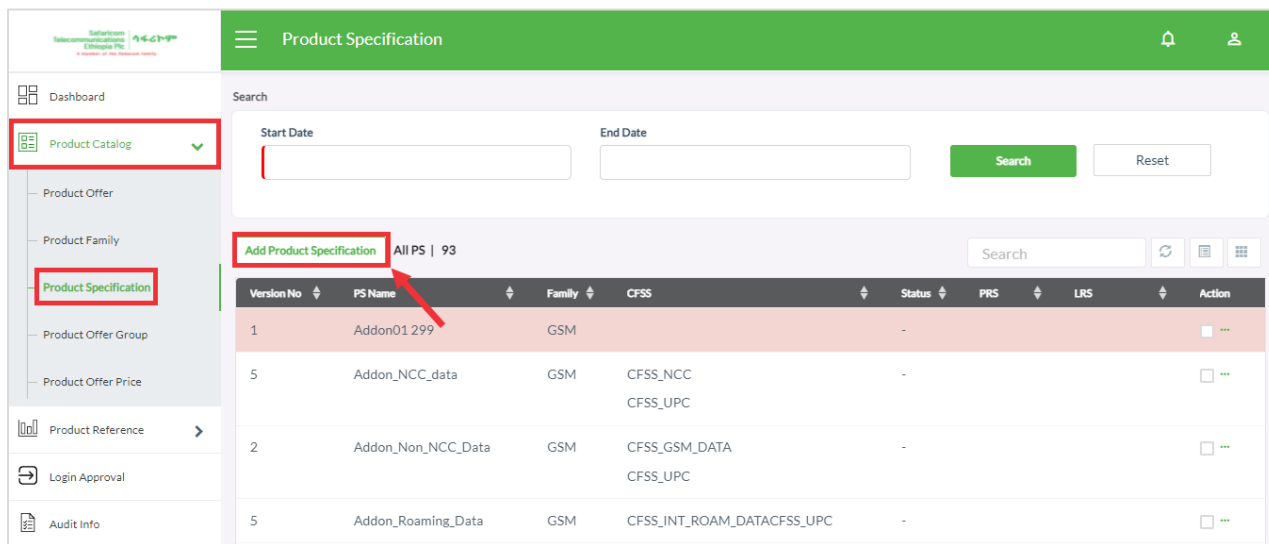

Figure 103 Product Catalog - Product Specification Screen

7.3.1 Add Product Specification

Using this option, you can add the new product specification.

To add the new Product Specification:

1. On the **Product Specification** screen, click the **Add Product Specification** button to add a new product specification. Refer to the following screen.

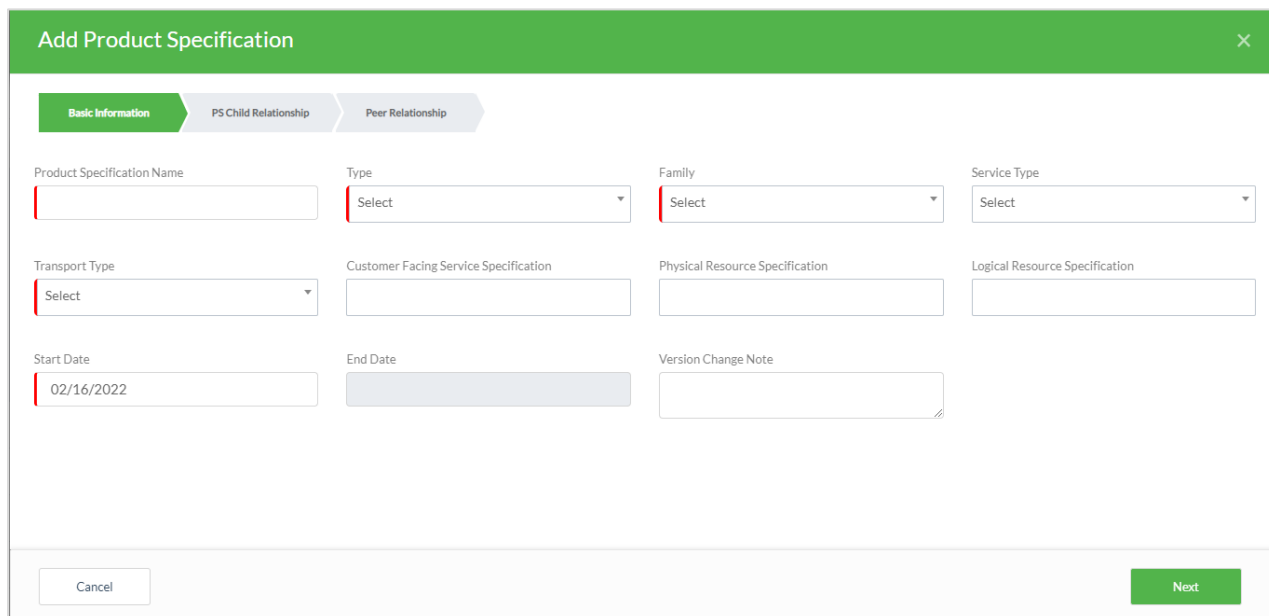

The screenshot shows the 'Product Specification' screen. On the left sidebar, 'Product Catalog' is selected. Below it, 'Product Specification' is also highlighted with a red box. In the main area, the 'Add Product Specification' button is highlighted with a red box and an arrow. The table below shows existing specifications:

Version No	PS Name	Family	CFSS	Status	PRS	LRS	Action
1	Addon01299	GSM		-			
5	Addon_NCC_data	GSM	CFSS_NCC CFSS_UPC	-			
2	Addon_Non_NCC_Data	GSM	CFSS_GSM_DATA CFSS_UPC	-			
5	Addon_Roaming_Data	GSM	CFSS_INT_ROAM_DATA CFSS_UPC	-			

Figure 104 Product Specification - Add Product Specification Button

2. After clicking the **Add Product Specification** button, the following screen will be displayed.

The screenshot shows the 'Add Product Specification' form with the 'Basic Information' tab selected. The form contains the following fields:

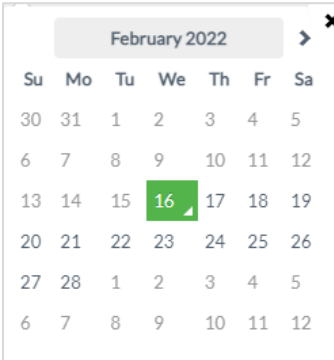

- Product Specification Name:
- Type:
- Family:
- Service Type:
- Transport Type:
- Customer Facing Service Specification:
- Physical Resource Specification:
- Logical Resource Specification:
- Start Date:
- End Date:
- Version Change Note:

At the bottom, there are 'Cancel' and 'Next' buttons.

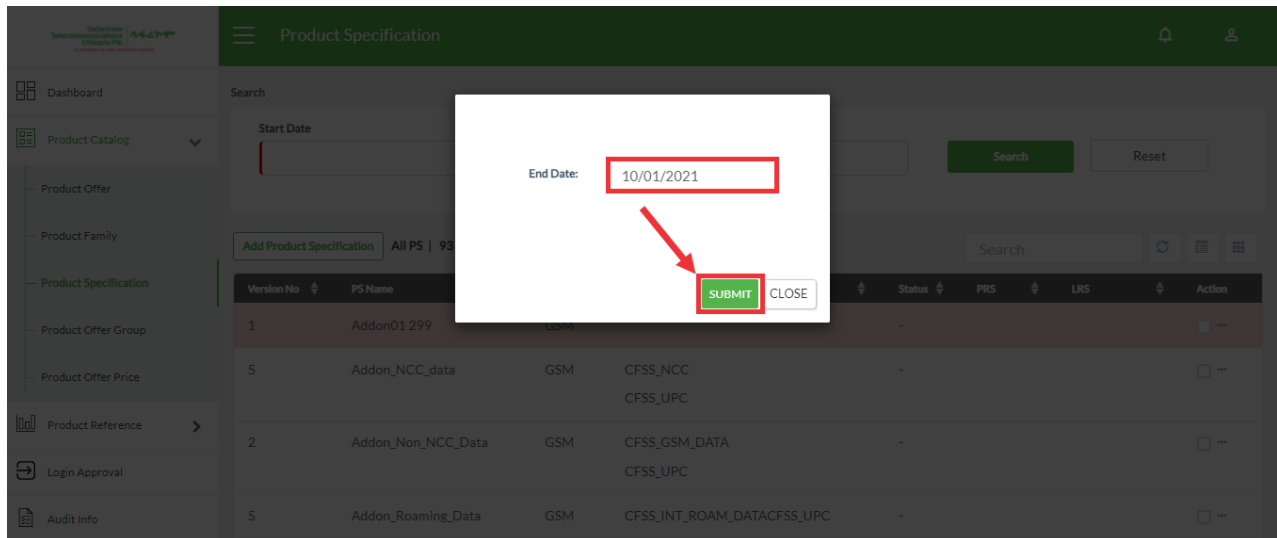

Figure 130 Delete Product Specification Submit Button

Note: While deleting the product specification, the end date should be higher than the previous version start date but not less than the current date.

A success message will be displayed, indicating that the data is submitted successfully.

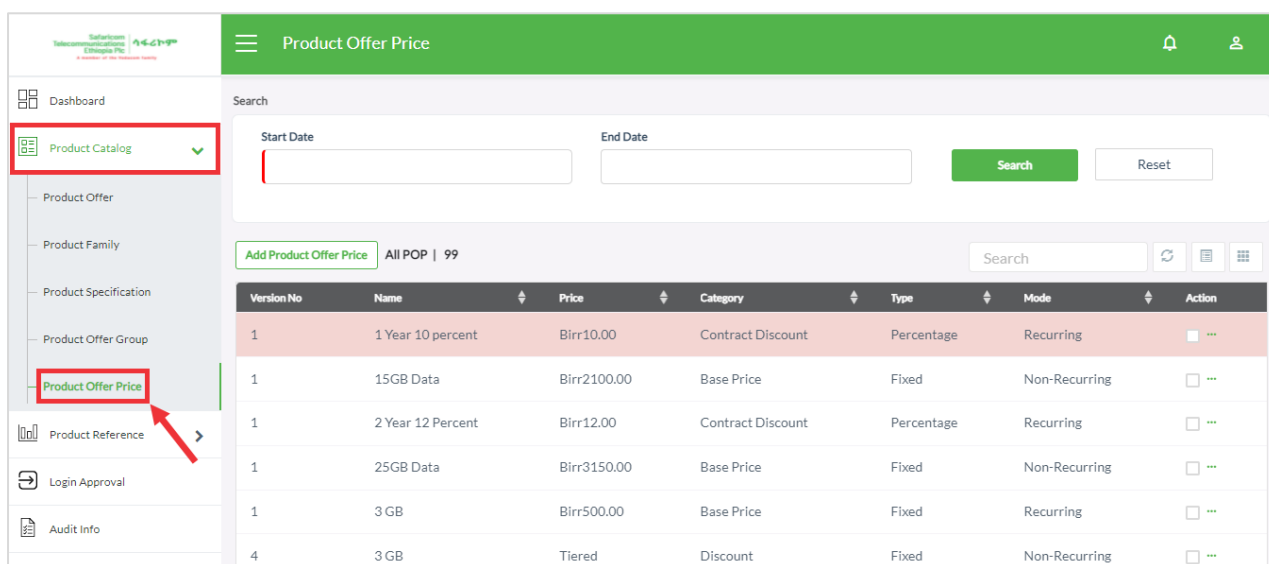

7.4 Product Offer Price

Using this option, you can manage and add the product offer price for the static and dynamic rule. You can also view, copy, modify, and delete the existing product offer price.

- **Static Product Offer Price:** This characteristic defines if the Product Offer Price is static or will be derived at run-time based on evaluation criteria such as Business Office, Community, and Customer Type.
- **Dynamic Product Offer Price:** Dynamic pricing rule allows Product Manager to set a Price Point targeting specific customer type or specific evaluation criteria such as Business Office, Community, and Sales Channel.

To manage the Product Offer Price:

1. On the side menu, click the **Reference Data >> Product Offer Price** to view the product offer price menu. Refer to the following screen.

The screenshot shows the 'Product Offer Price' management interface. The left sidebar contains a navigation menu with the following items: Dashboard, Product Catalog (highlighted with a red box and a green checkmark), Product Offer, Product Family, Product Specification, Product Offer Group, Product Offer Price (highlighted with a red box and a red arrow), Product Reference, Login Approval, and Audit Info. The main content area has a green header bar with the title 'Product Offer Price'. Below the header, there is a search section with 'Start Date' and 'End Date' input fields, a 'Search' button, and a 'Reset' button. A green button labeled 'Add Product Offer Price' is also present. Below the search section, there is a table with the following data:

Version No	Name	Price	Category	Type	Mode	Action
1	1 Year 10 percent	Birr10.00	Contract Discount	Percentage	Recurring	[icon] [icon]
1	15GB Data	Birr2100.00	Base Price	Fixed	Non-Recurring	[icon] [icon]

- Return Subsidy On Early Termination: No
- Contract Period: 12
- Frequency: Monthly
- Factor: 1
- Start Date: 11/02/2021
- End Date:
- Version Change Note:

A 'Cancel' button is located at the bottom left.

Figure 187 View Contract Details Screen

8.2.3 Modify Contract

Using this modify option, you can modify the existing contract details.

To modify the Contract:

1. On the **Contract** screen, click the **Modify** button  to modify the existing contract details. Refer to the following screen.

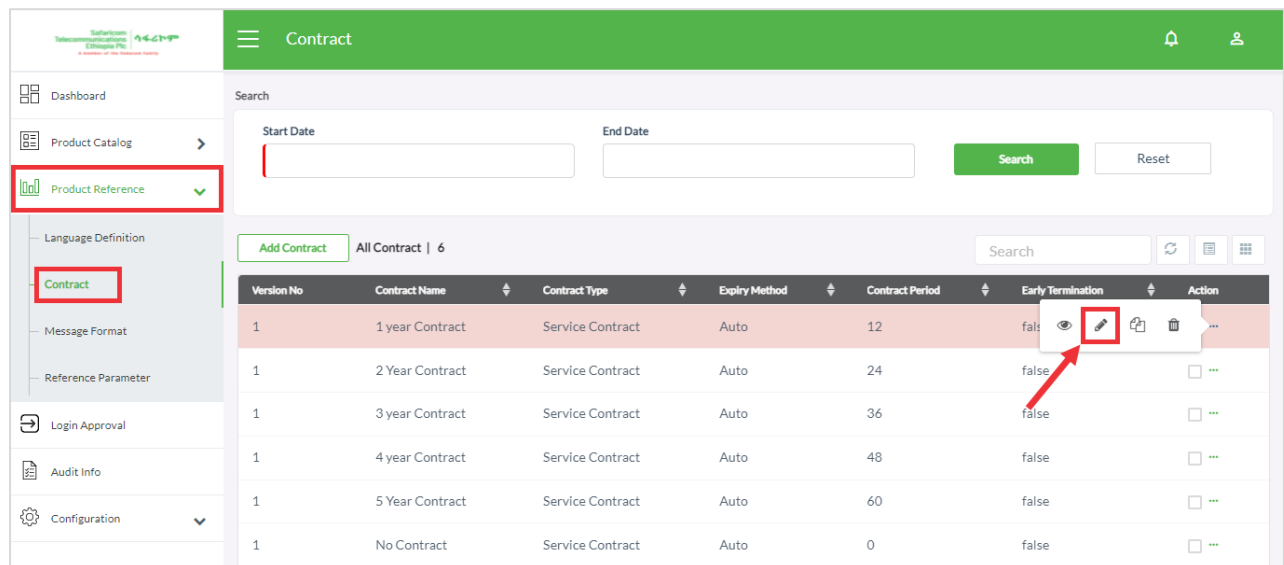

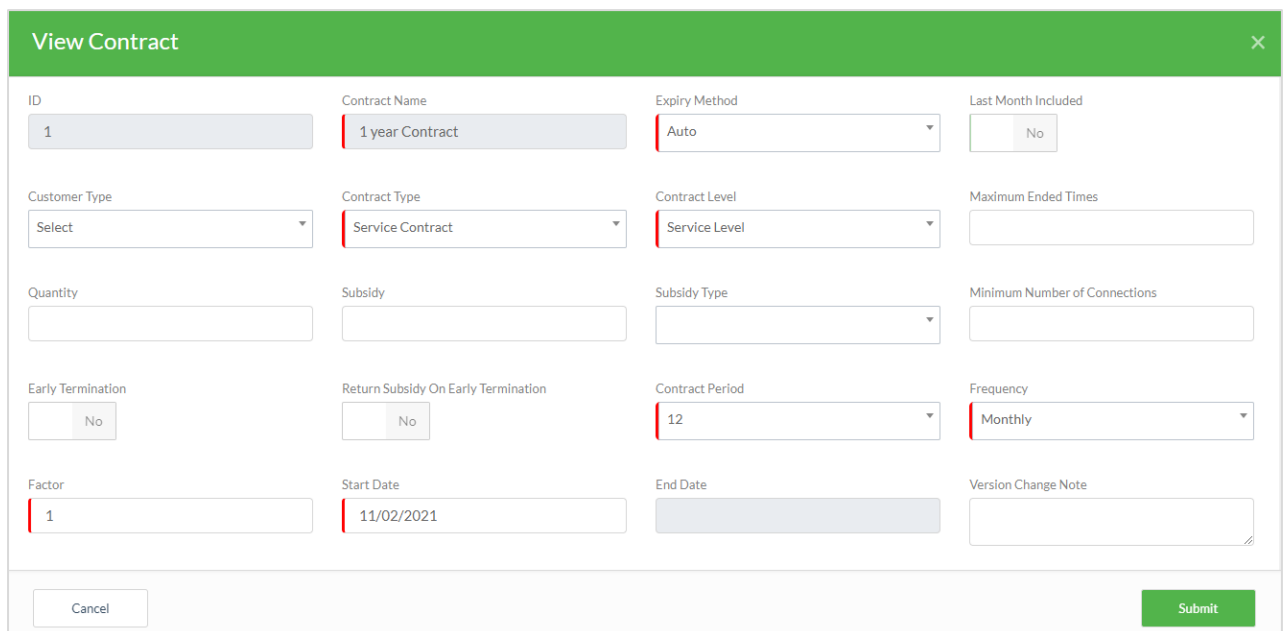

Figure 188 Contract Modify Button

2. After clicking the **Modify** button, the following screen will be displayed.

The screenshot shows the 'View Contract' screen with a green header and a close button. The form contains the following fields:

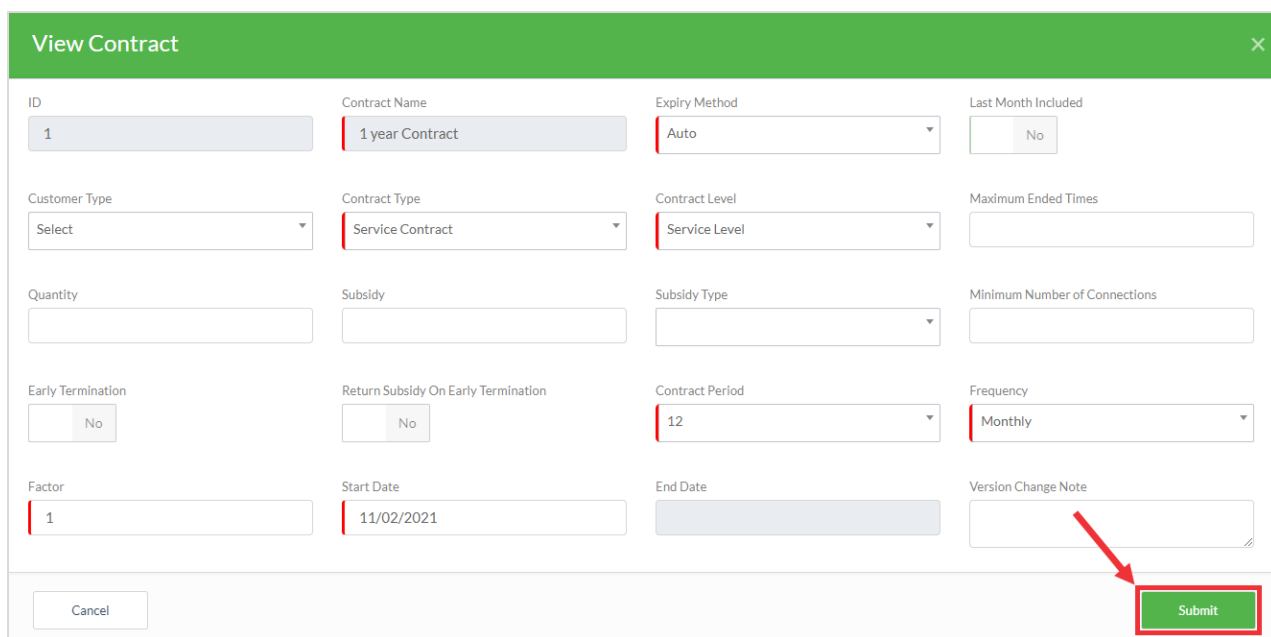

- ID: 1
- Contract Name: 1 year Contract
- Expiry Method: Auto
- Last Month Included: No
- Customer Type: Select
- Contract Type: Service Contract
- Contract Level: Service Level
- Maximum Ended Times:
- Quantity:
- Subsidy:
- Subsidy Type:
- Minimum Number of Connections:
- Early Termination: No
- Return Subsidy On Early Termination: No
- Contract Period: 12
- Frequency: Monthly
- Factor: 1
- Start Date: 11/02/2021
- End Date:
- Version Change Note:

Buttons: Cancel, Submit

Figure 189 Modify Contract Details Screen

Note: While modifying the contract, the start date should be higher than the previous version start date but not less than the current date.

3. Modify the necessary details and click the **Submit** button. Refer to the following screen.

The 'View Contract' form contains the following fields:

- ID:** 1
- Contract Name:** 1 year Contract
- Expiry Method:** Auto
- Last Month Included:** No
- Customer Type:** Select
- Contract Type:** Service Contract
- Contract Level:** Service Level
- Maximum Ended Times:**
- Quantity:**
- Subsidy:**
- Subsidy Type:**
- Minimum Number of Connections:**
- Early Termination:** No
- Return Subsidy On Early Termination:** No
- Contract Period:** 12
- Frequency:** Monthly
- Factor:** 1
- Start Date:** 11/02/2021
- End Date:**
- Version Change Note:**

Buttons: Cancel, Submit (highlighted with a red box and arrow).

Figure 190 Modify Contract Submit Button

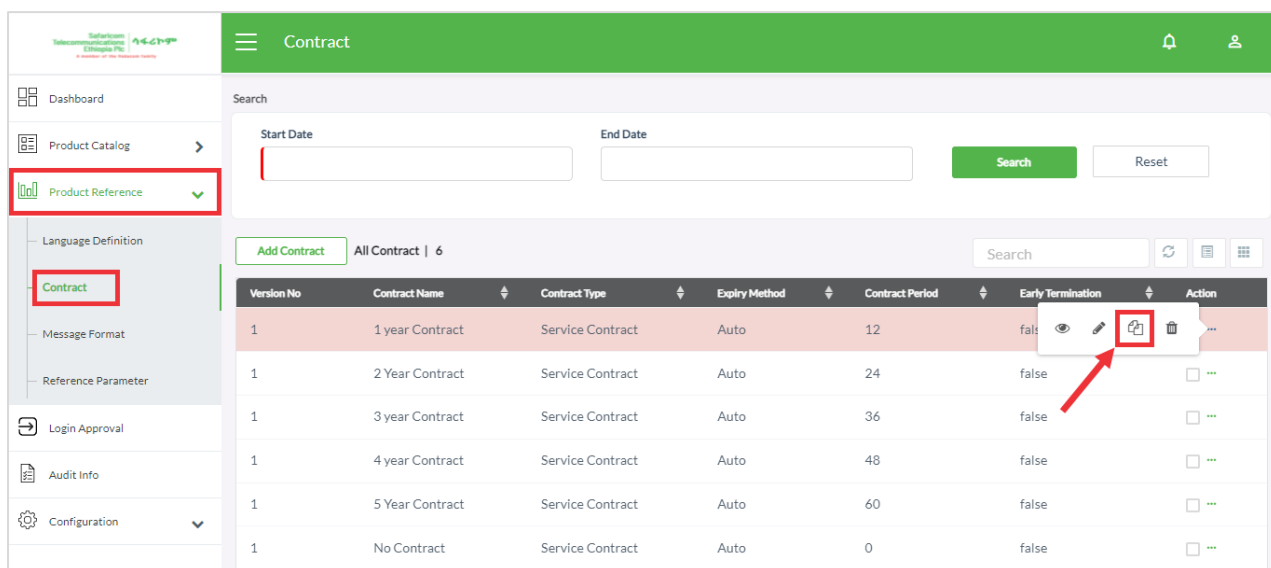

A success message will be displayed, indicating that the Data is submitted successfully.

8.2.4 Copy Contract

Using this copy option, you can copy the existing contract details.

To copy the Contract:

1. On the **Contract** screen, click the **Copy** button  to copy the existing contract details. Refer to the following screen.

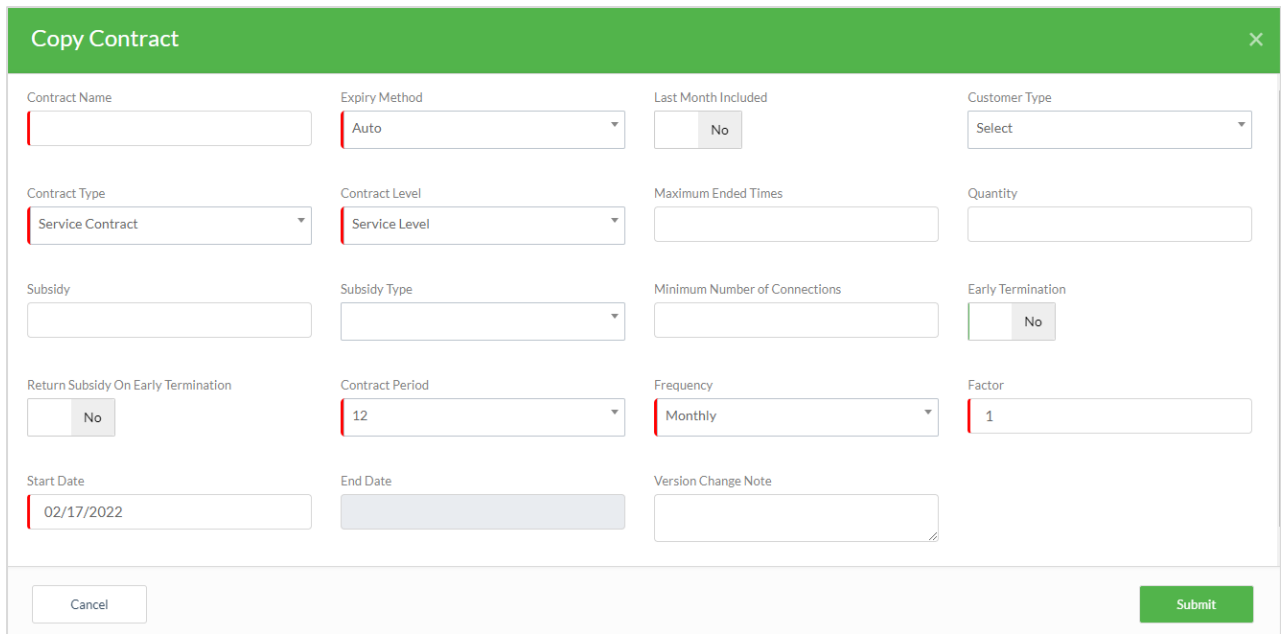

The 'Contract' screen shows a list of contracts. The 'Product Reference' menu item is highlighted in the sidebar. The 'Contract' menu item is also highlighted. The table below shows the contract details.

Version No	Contract Name	Contract Type	Expiry Method	Contract Period	Early Termination	Action
1	1 year Contract	Service Contract	Auto	12	false	
1	2 Year Contract	Service Contract	Auto	24	false	
1	3 year Contract	Service Contract	Auto	36	false	
1	4 year Contract	Service Contract	Auto	48	false	
1	5 Year Contract	Service Contract	Auto	60	false	
1	No Contract	Service Contract	Auto	0	false	

Figure 191 Contract Copy Button

2. After clicking the **Copy** button, the following screen will be displayed.

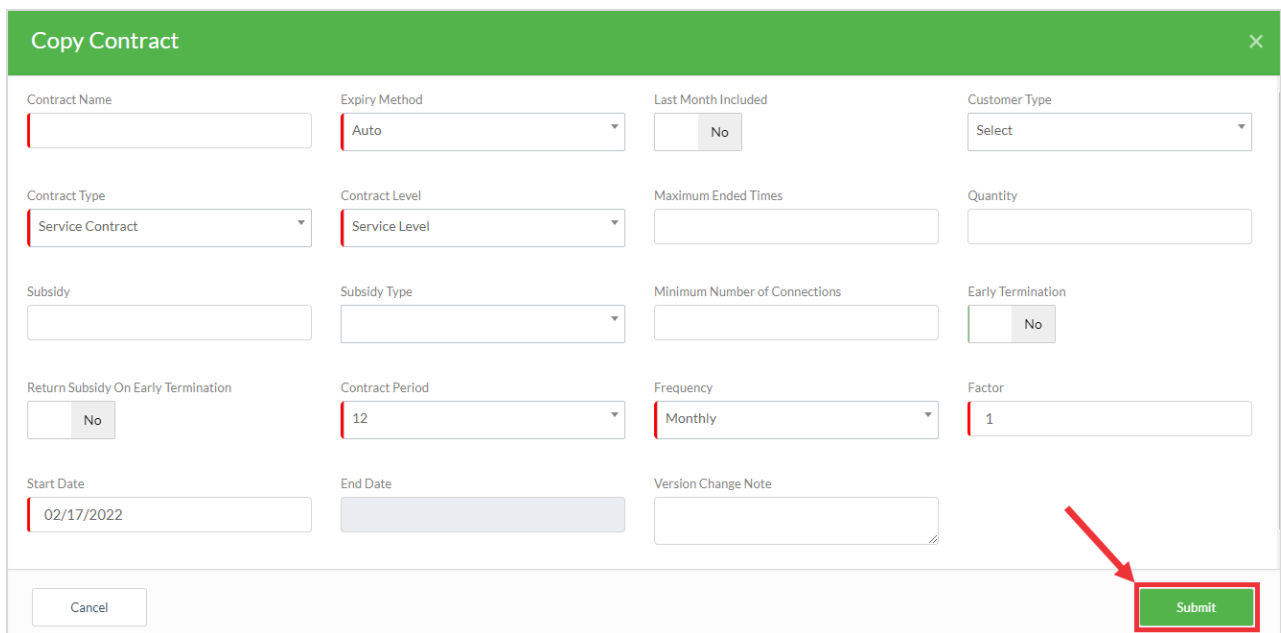

The 'Copy Contract' screen displays a form with the following fields and controls:

- Contract Name:** Text input field.
- Expiry Method:** Dropdown menu with 'Auto' selected.
- Last Month Included:** Toggle switch set to 'No'.
- Customer Type:** Dropdown menu with 'Select' chosen.
- Contract Type:** Dropdown menu with 'Service Contract' selected.
- Contract Level:** Dropdown menu with 'Service Level' selected.
- Maximum Ended Times:** Text input field.
- Quantity:** Text input field.
- Subsidy:** Text input field.
- Subsidy Type:** Dropdown menu.
- Minimum Number of Connections:** Text input field.
- Early Termination:** Toggle switch set to 'No'.
- Return Subsidy On Early Termination:** Toggle switch set to 'No'.
- Contract Period:** Dropdown menu with '12' selected.
- Frequency:** Dropdown menu with 'Monthly' selected.
- Factor:** Text input field with '1' entered.
- Start Date:** Text input field with '02/17/2022' entered.
- End Date:** Disabled text input field.
- Version Change Note:** Text area.

At the bottom, there are 'Cancel' and 'Submit' buttons.

Figure 192 Copy Contract Details Screen

3. Copy the required contract details and click the **Submit** button. Refer to the following screen.

This screen is identical to Figure 192, but a red arrow points to the **Submit** button, which is highlighted with a red rectangular box.

Figure 193 Copy Contract Submit Button

A success message will be displayed, indicating that the Data is submitted successfully.

8.2.5 Delete Contract

Using this delete option, you can delete the existing contract.

To delete the Contract:

1. On the **Contract** screen, click the **Delete** button  to delete the existing contract. Refer to the following screen.

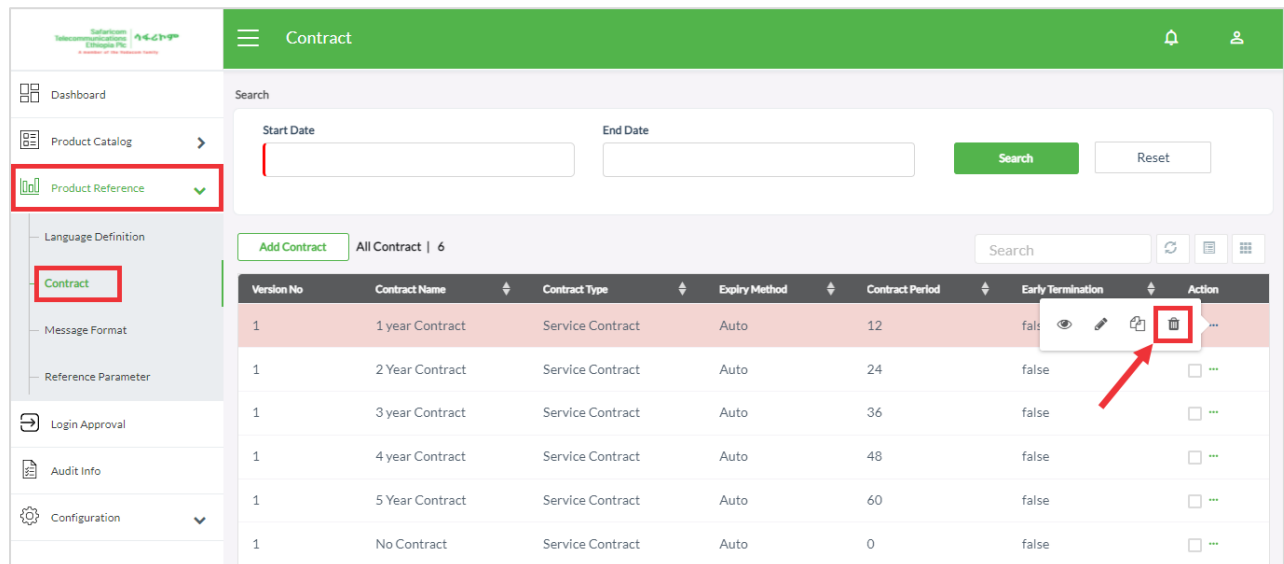

Figure 194 Contract - Delete Button

2. After clicking the **Delete** button, the following End Date screen will be displayed.

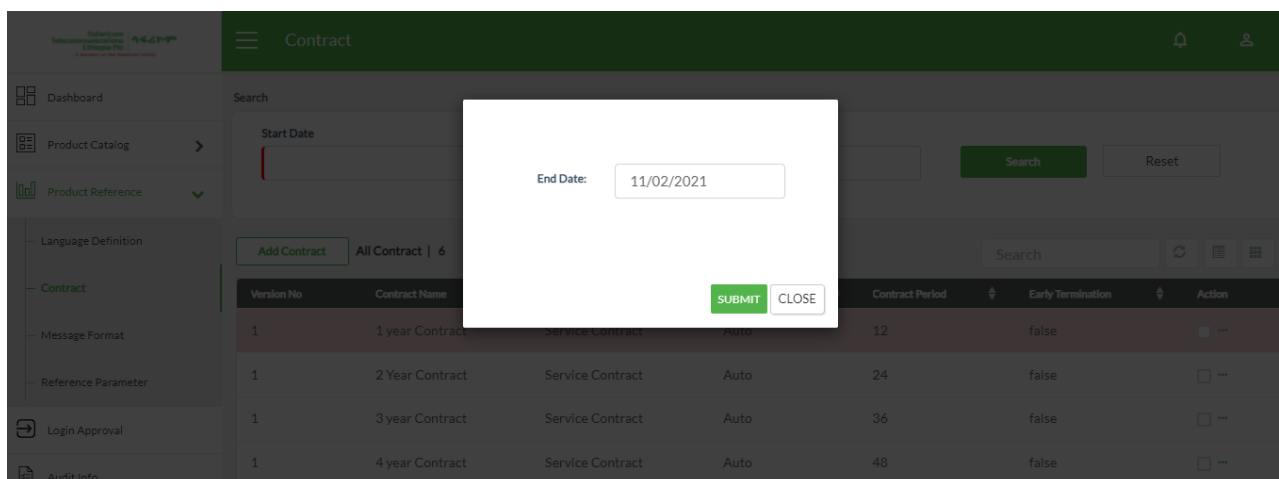

Figure 195 Delete Contract End Date Details Screen

3. Select the End Date from the calendar and click the **Submit** button. Refer to the following screen.

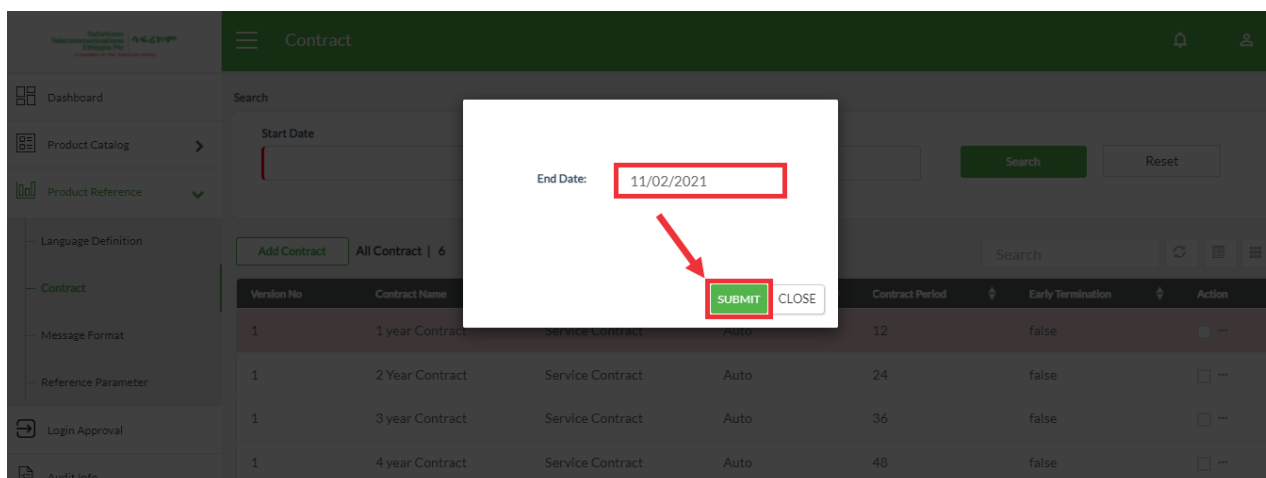

Figure 196 Delete Language Definition Submit Button

Note: While deleting the Language Definition, the end date should be higher than the previous version start date but not less than the current date.

A success message will be displayed, indicating that the data is submitted successfully.

8.3 Message Format

Using this option, you can manage and configure the message format and content of messages used with SMS, USSD, or batch files. The message consists of several text formats that are concatenated and sent as a series of messages. You can also view, copy, modify, and delete the existing message format details.

To manage the Message Format:

1. On the side menu, click the **Product Reference >> Message Format** to view the message format menu details. Refer to the following screen.

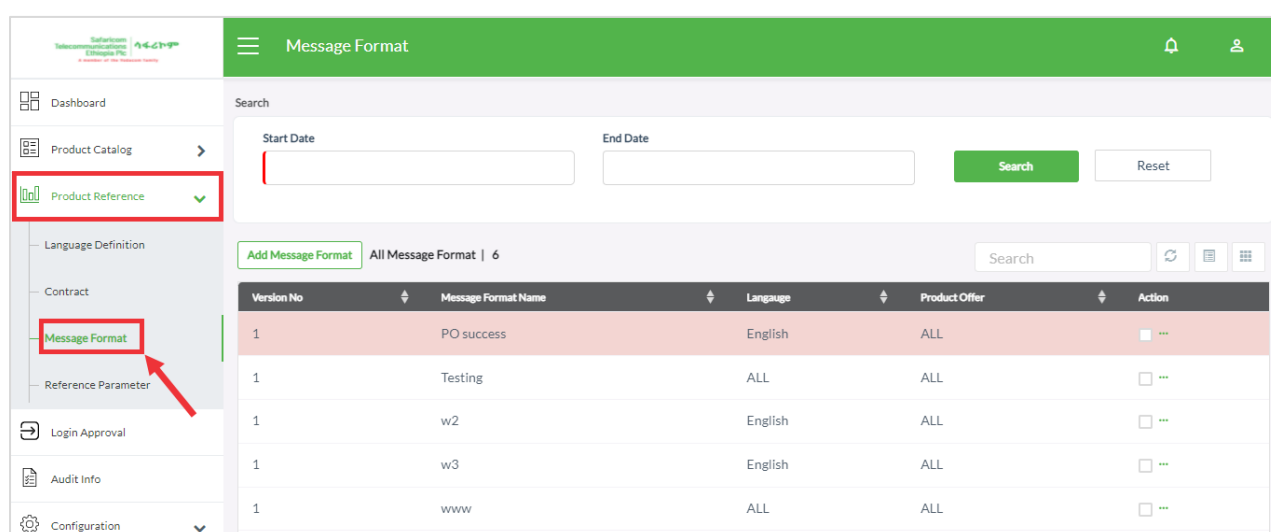

Figure 197 Product Reference - Message Format Screen

8.3.1 Add Message Format

Using this add option, you can add the new message format.

To add the Message Format:

1. On the **Message Format** screen, click the **Add Message Format** button to add the message format. Refer to the following screen.

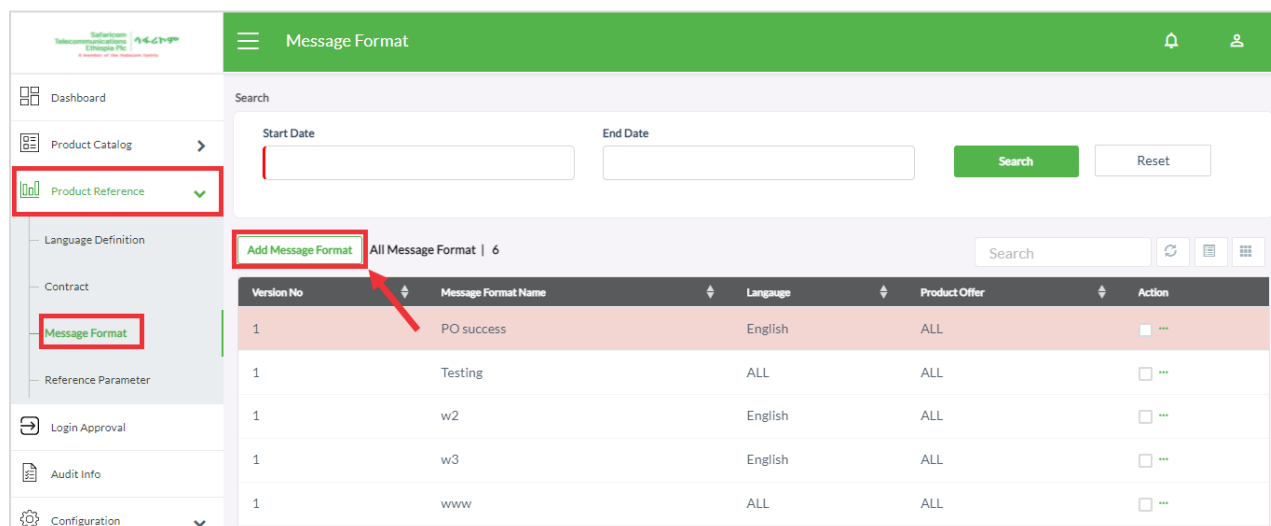

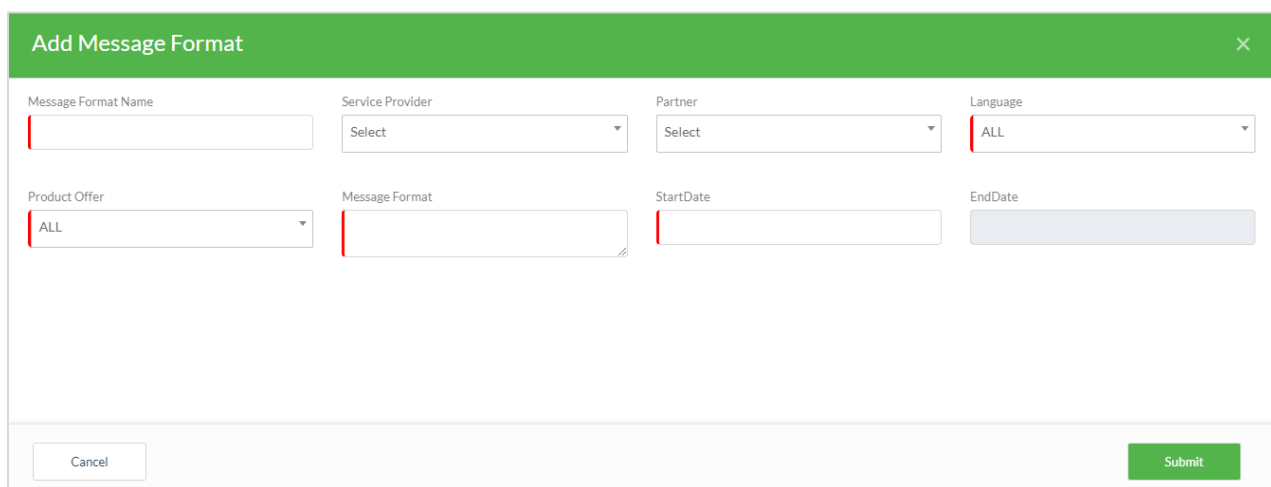

Figure 198 Add Message Format Button

2. After clicking the **Add Message Format** button, the following screen will be displayed.

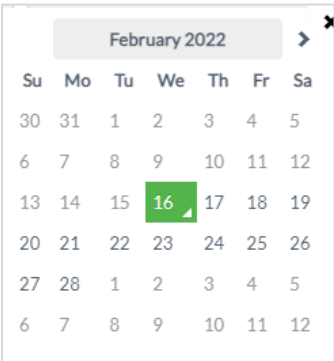

The screenshot shows the 'Add Message Format' details screen. It has a green header with the title 'Add Message Format' and a close button. The form contains several fields:

- Message Format Name: Text input field.
- Service Provider: Dropdown menu with 'Select' as the current value.
- Partner: Dropdown menu with 'Select' as the current value.
- Language: Dropdown menu with 'ALL' as the current value.
- Product Offer: Dropdown menu with 'ALL' as the current value.
- Message Format: Text input field.
- StartDate: Text input field.
- EndDate: Text input field.

At the bottom, there are two buttons: 'Cancel' and 'Submit'.

Figure 199 Add Message Format Details Screen

- Enter/Select the following details in the corresponding fields. If the fields are marked with "!" is mandatory.

Field	Description
Message Format Name	Enter the name of the message format.
Service Provider Name	Select the service provider name in the drop-down list. For example, Safaricom.
Partner	Select the partner name in the drop-down list. For example, Safaricom.
Language	Select the language in the drop-down list. For example, English.
Product Offer	Select the product offer in the drop-down list. For example, Data Base, Child Base Offer, and so on.
Message Format	Enter the message format in this field.
Start Date	Select the start date from the calendar. 
End Date	End date will be selected by default based on the selected start date.

- After entering all the required details, click the **Submit** button. Refer to the following screen.

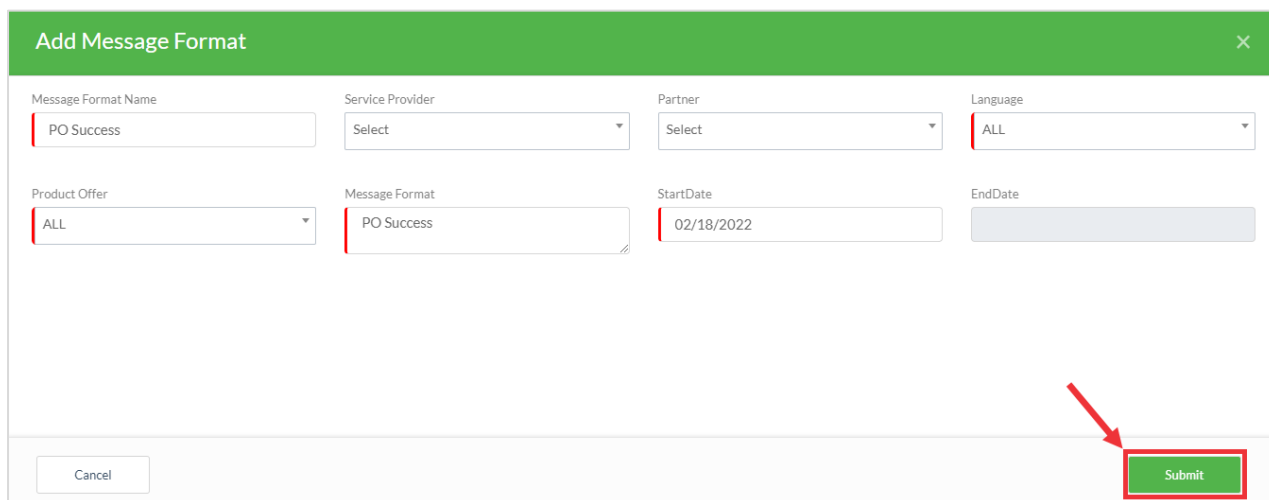

Figure 200 Add Message Format Submit Button

A success message will be displayed, indicating that the Data is submitted successfully.

8.3.2 View Message Format

Using this option, you can view the existing message format details.

To view the Message Format:

1. On the **Message Format** screen, click the **View** button  to view the existing message format details. Refer to the following screen.

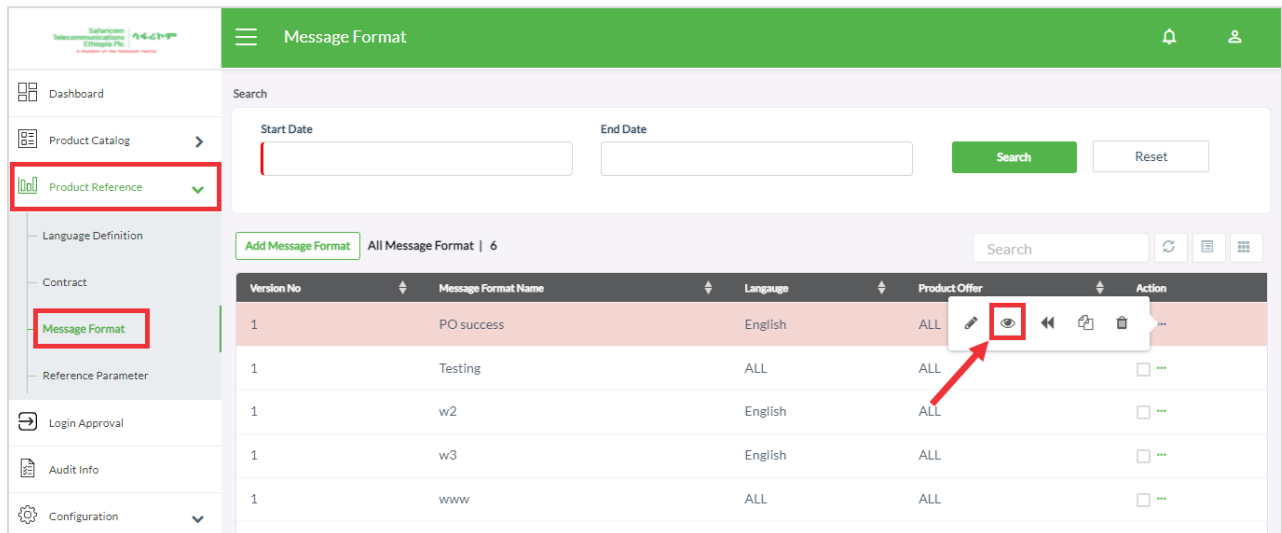

Figure 201 Message Format - View Button

2. After clicking the **View** button, the following screen will be displayed.

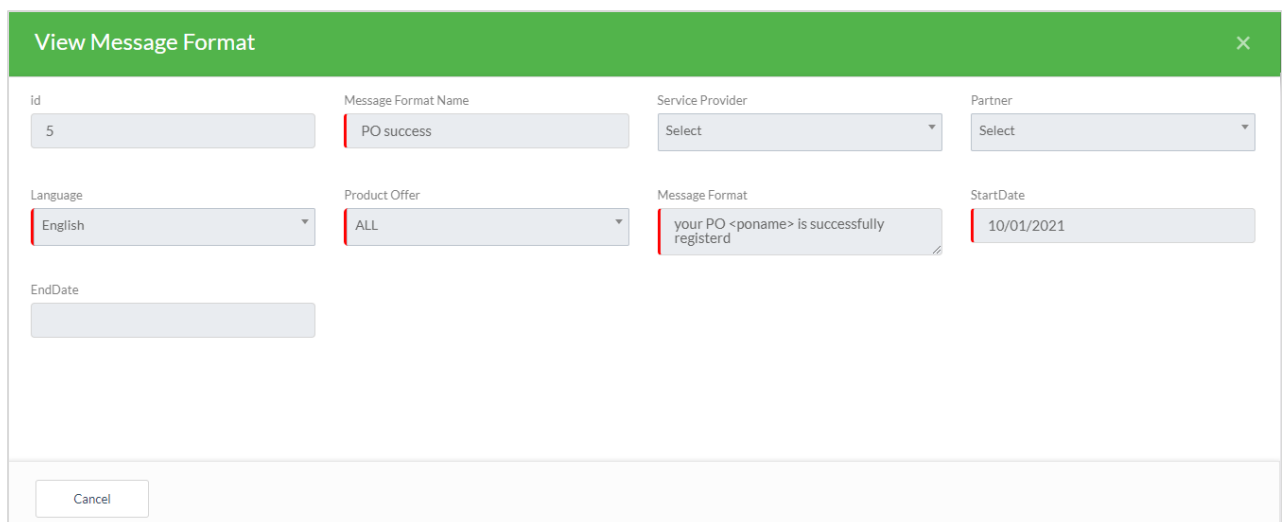

Figure 202 View Message Format Details Screen

8.3.3 Modify Message Format

Using this modify option, you can modify the existing message format details.

To modify the Message Format:

1. On the **Message Format** screen, click the **Modify** button  to modify the existing message format details. Refer to the following screen.

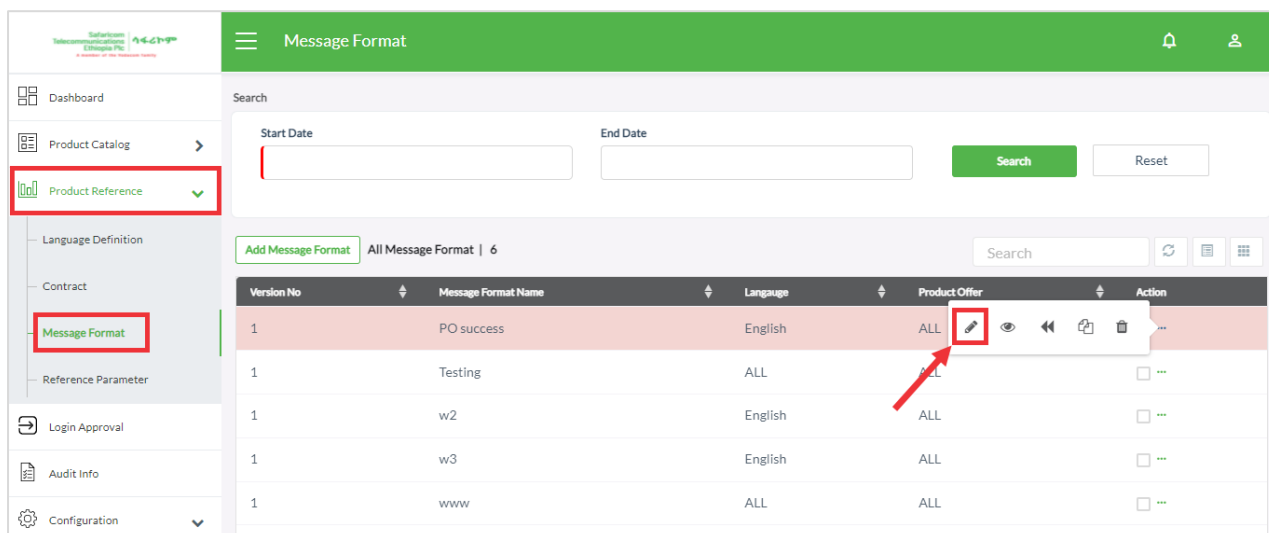

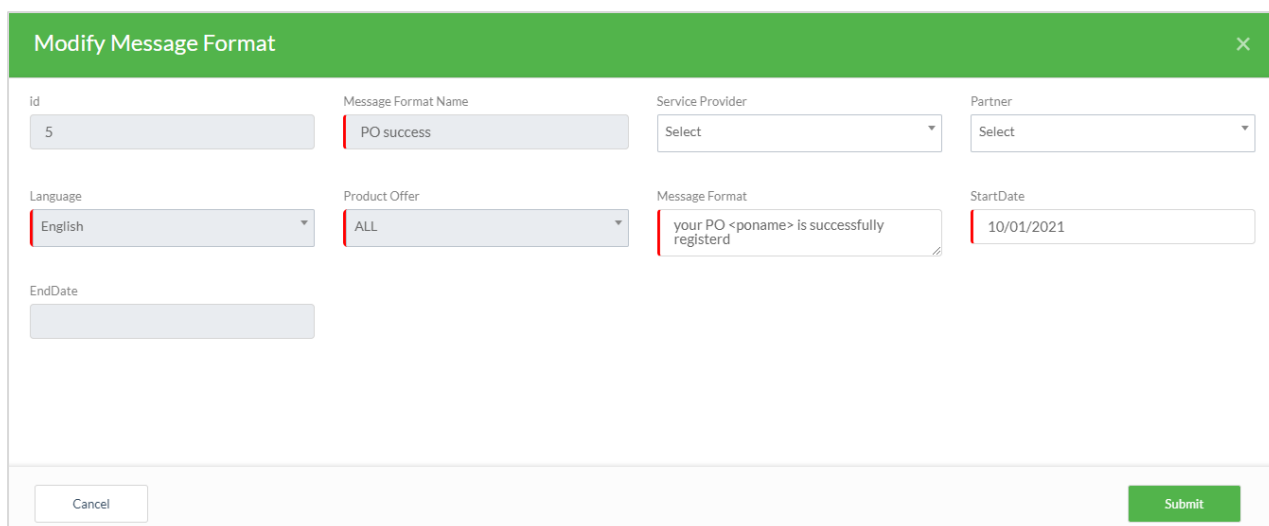

Figure 203 Message Format - Modify Button

2. After clicking the **Modify** button, the following screen will be displayed.

The screenshot shows the 'Modify Message Format' screen. It contains the following fields:

- id:** 5
- Message Format Name:** PO success
- Service Provider:** Select
- Partner:** Select
- Language:** English
- Product Offer:** ALL
- Message Format:** your PO <poname> is successfully registerd
- StartDate:** 10/01/2021
- EndDate:** (empty)

At the bottom, there are 'Cancel' and 'Submit' buttons.

Figure 204 Modify Message Format Details Screen

Note: While modifying the Message Format, the start date should be higher than the previous version start date but not less than the current date.

3. Modify the necessary editable fields and click the **Submit** button. Refer to the following screen.

Figure 205 Modify Message Format Submit Button

A success message will be displayed, indicating that the Data is submitted successfully.

8.3.4 Copy Message Format

Using this option, you can copy the existing message format details.

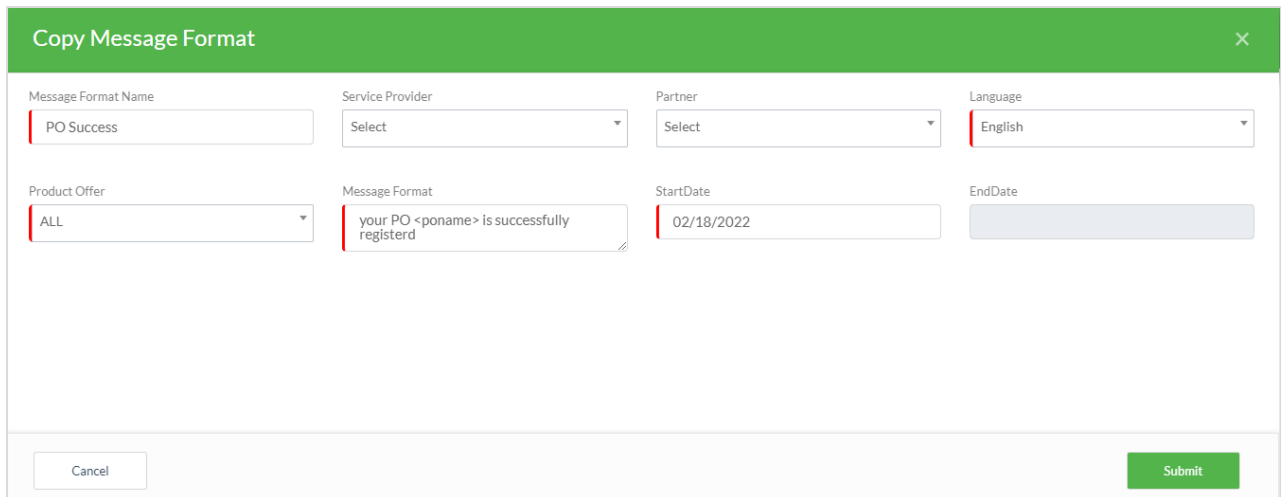

To copy the Message Format:

1. On the **Message Format** screen, click the **Copy** button  to copy the existing message format details. Refer to the following screen.

Version No	Message Format Name	Language	Product Offer	Action
1	PO success	English	ALL	
1	Testing	ALL	ALL	
1	w2	English	ALL	
1	w3	English	ALL	
1	www	ALL	ALL	

Figure 206 Message Format - Copy Button

2. After clicking the **Copy** button, the following screen will be displayed.

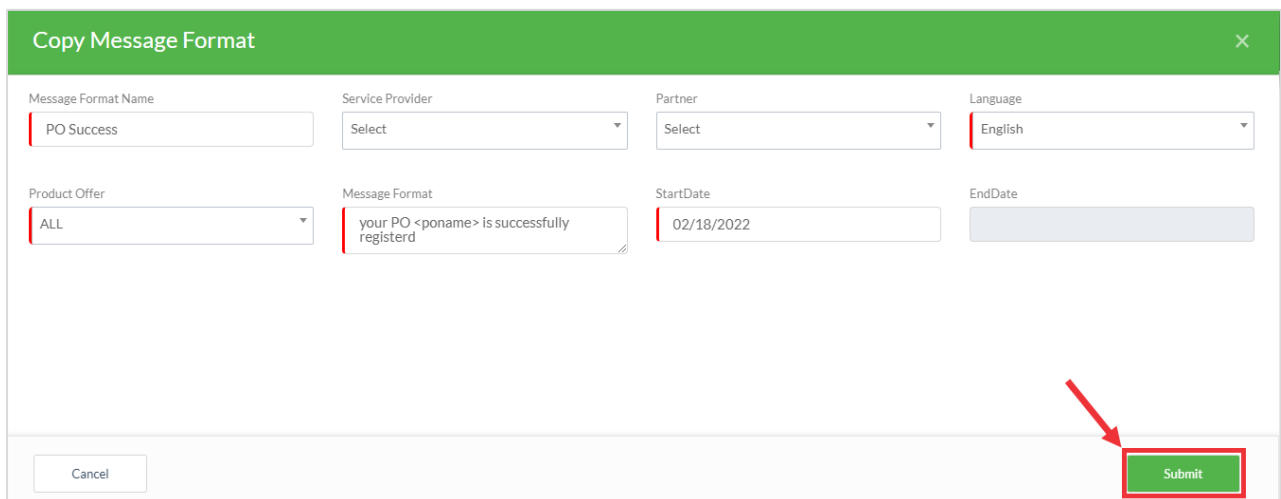

The screenshot shows a web form titled "Copy Message Format" with a green header bar. The form contains several input fields and dropdown menus:

- Message Format Name:** A text input field containing "PO Success".
- Service Provider:** A dropdown menu with "Select" as the current selection.
- Partner:** A dropdown menu with "Select" as the current selection.
- Language:** A dropdown menu with "English" as the current selection.
- Product Offer:** A dropdown menu with "ALL" as the current selection.
- Message Format:** A text area containing the text "your PO <poname> is successfully registerd".
- StartDate:** A text input field containing "02/18/2022".
- EndDate:** An empty text input field.

At the bottom of the form, there are two buttons: a "Cancel" button on the left and a green "Submit" button on the right.

Figure 207 Copy Message Format Details Screen

3. Copy the required message format details and click the **Submit** button. Refer to the following screen.

This screenshot is identical to Figure 207, showing the "Copy Message Format" screen. However, a red arrow points to the green "Submit" button at the bottom right, which is also enclosed in a red rectangular box to highlight it.

Figure 208 Copy Message Format Submit Button

A success message will be displayed, indicating that the Data is submitted successfully.

8.3.5 Delete Message Format

Using this option, you can delete the existing message format.

To delete the Message Format:

1. On the **Message Format** screen, click the **Delete** button  to delete the existing message format. Refer to the following screen.

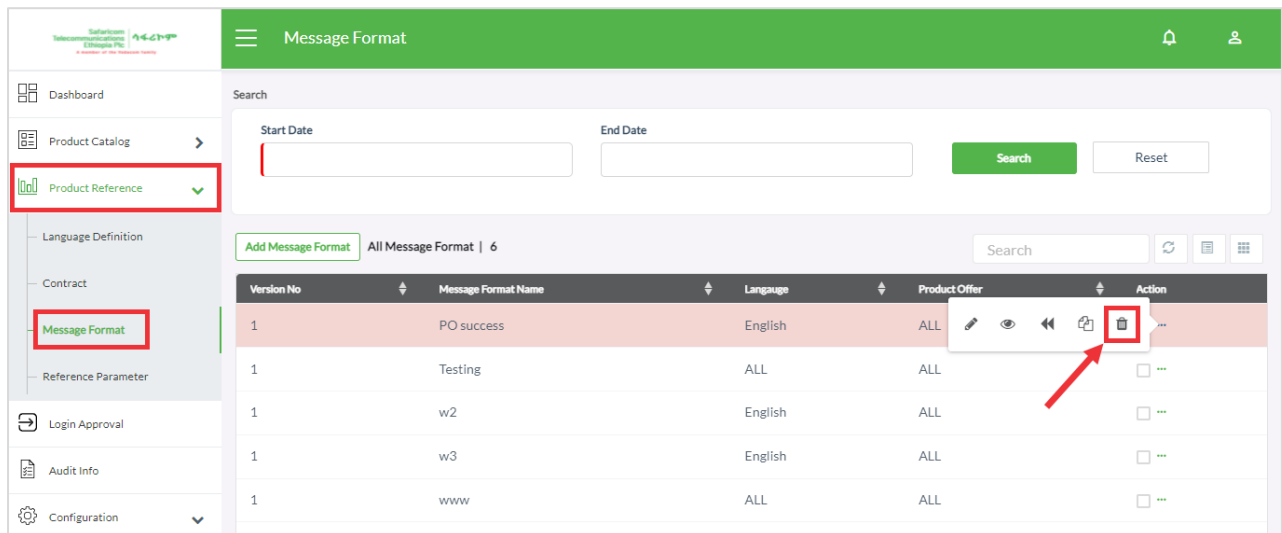

Figure 209 Message Format - Delete Button

2. After clicking the **Delete** button, the following End Date screen will be displayed.

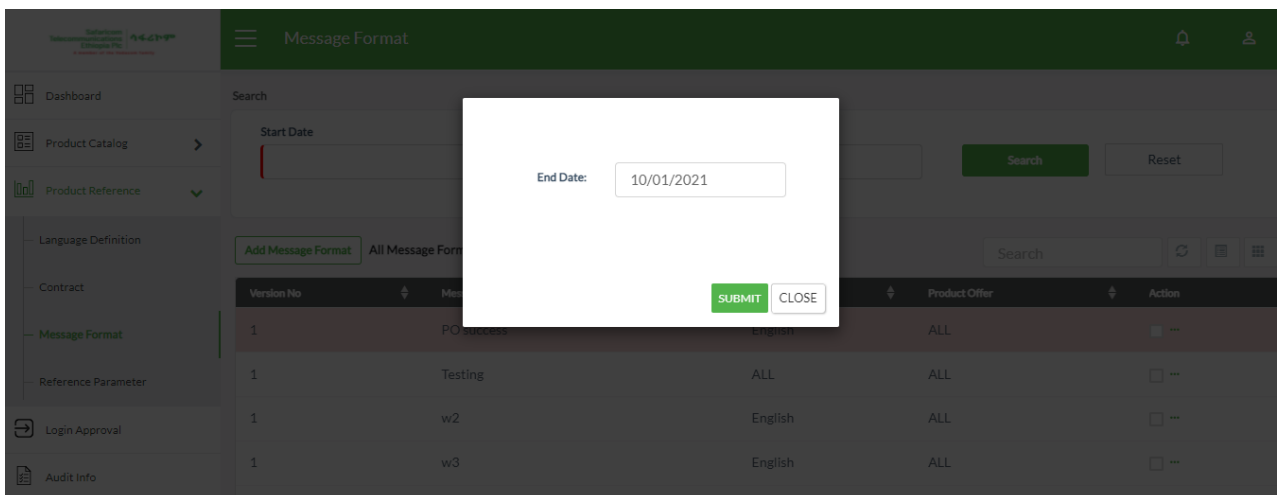

Figure 210 Delete Message Format End Date Details Screen

3. Select the End Date from the calendar and click the **Submit** button. Refer to the following screen.

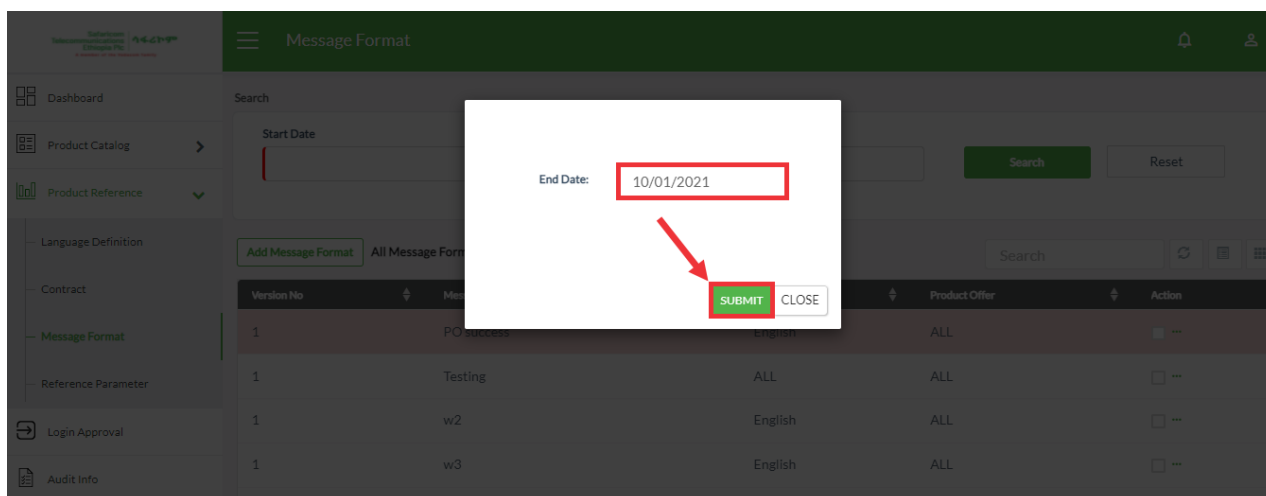

Figure 211 Delete Message Format Submit Button

Note: While deleting the Message Format, the end date should be higher than the previous version start date but not less than the current date.

A success message will be displayed, indicating that the data is submitted successfully.

8.4 Reference Parameter

Using this option, you can manage and add the Reference Parameter. You can also modify, copy, and delete the existing reference parameters.

To manage the Reference Parameter:

1. On the side menu, click the **Product Reference >> Reference Parameter** to view the reference parameter menu. Refer to the following screen.

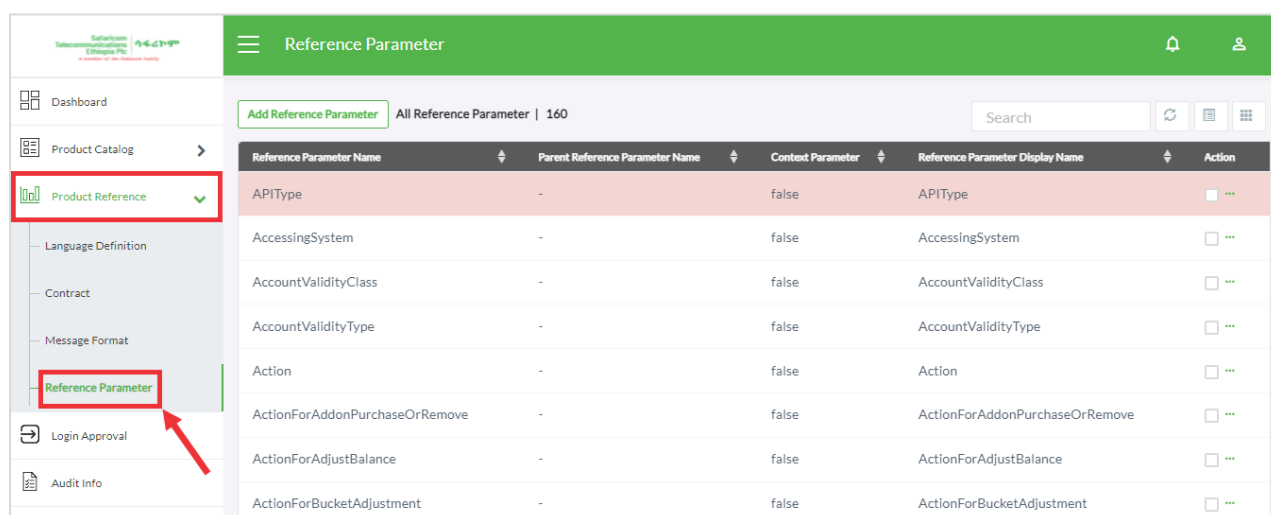

Figure 212 Product Reference - Reference Parameter Screen

8.4.1 Add Reference Parameter

Using this option, you can add the reference parameter.

To add the Reference Parameter:

1. On the **Reference Parameter** screen, click the **Add Reference Parameter** button to add the reference parameter. Refer to the following screen.

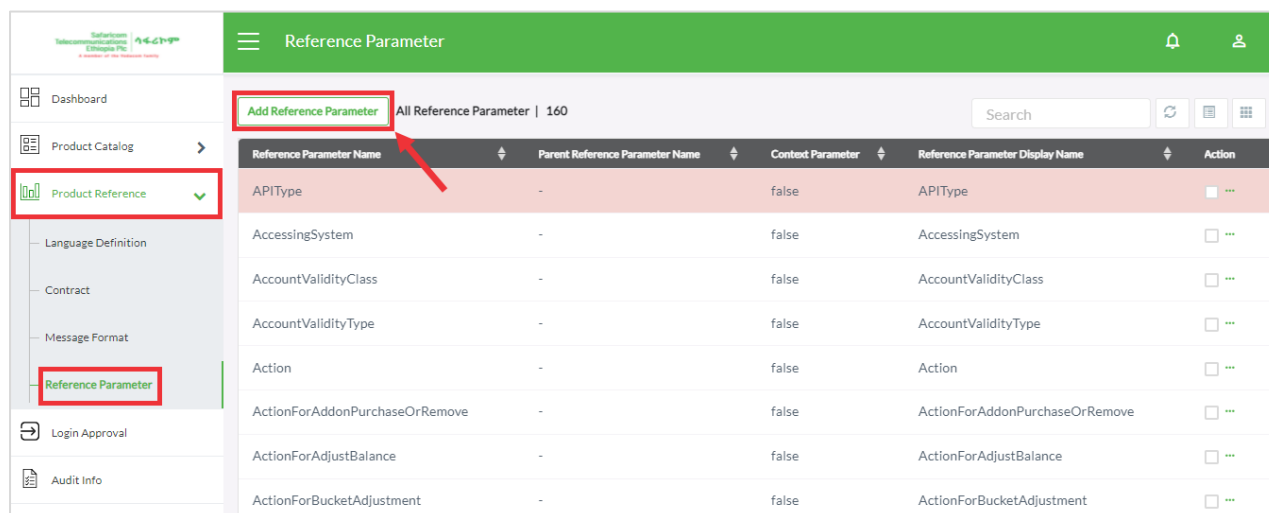

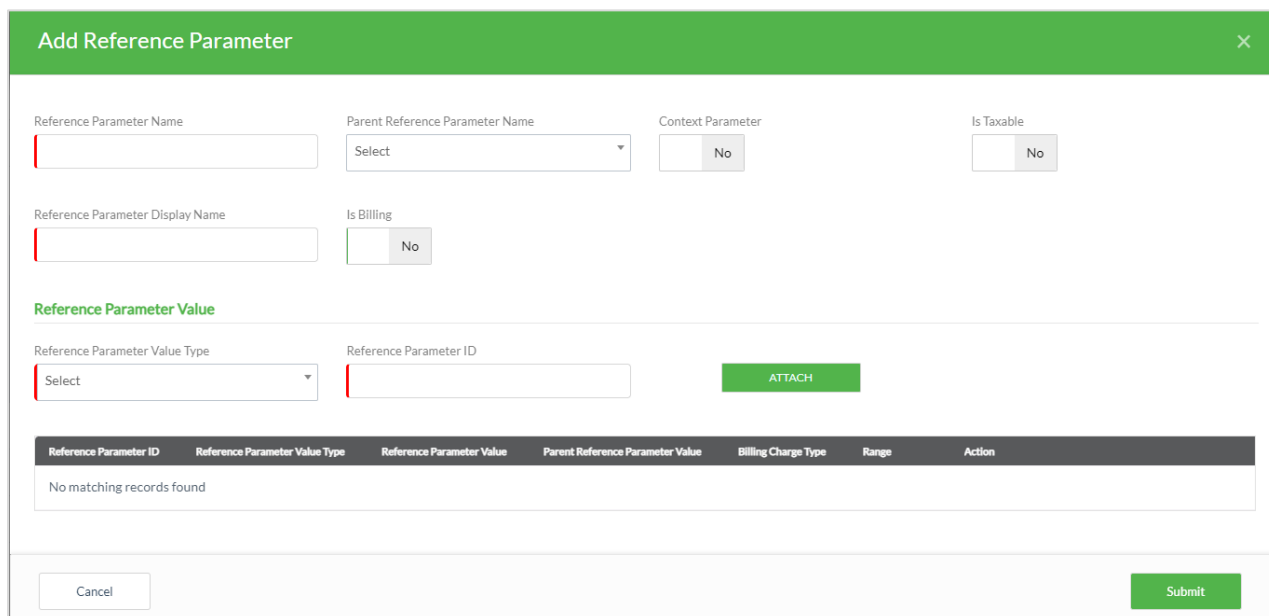

Figure 213 Reference Parameter – Add Reference Parameter Button

2. After clicking the **Add Reference Parameter** button, the following screen will be displayed.

The 'Add Reference Parameter' details screen contains the following fields and controls:

- Reference Parameter Name:** Text input field.
- Parent Reference Parameter Name:** Dropdown menu with 'Select' as the current value.
- Context Parameter:** Toggle switch set to 'No'.
- Is Taxable:** Toggle switch set to 'No'.
- Reference Parameter Display Name:** Text input field.
- Is Billing:** Toggle switch set to 'No'.
- Reference Parameter Value:** Section containing:
 - Reference Parameter Value Type:** Dropdown menu with 'Select' as the current value.
 - Reference Parameter ID:** Text input field.
 - ATTACH:** Green button.
- Table:** A table with columns: Reference Parameter ID, Reference Parameter Value Type, Reference Parameter Value, Parent Reference Parameter Value, Billing Charge Type, Range, and Action. It currently shows 'No matching records found'.
- Buttons:** 'Cancel' and 'Submit' buttons at the bottom.

Figure 214 Add Reference Parameter Details Screen

3. Enter/Select the following details in the corresponding fields. If the fields are marked with "**|**" is mandatory.

Field	Description
Reference Parameter Name	Enter the name of the Reference Parameter.
Parent Reference Parameter Name	Select the Parent Reference Parameter Name in the drop-down list. For example, Accessing System, Action, and so on.
Context Parameter	Click " Yes " if it is a Context Parameter. Or Click " No ". Note: This field will be displayed when the Is Taxable is selected as " No ".
Is Taxable	Click " Yes " if it is an Is Taxable. Or Click " No ".
Reference Parameter Display Name	Enter the Reference Parameter Display Name.
Is Billing	Click " Yes " if it is an Is Billing. Or Click " No ".
Reference Parameter Value	
Note: This Reference Parameter Value details will be displayed when the Is Taxable is selected as " No ".	
Reference Parameter Value Type	Select the Reference Parameter Value Type in the drop-down list. For example, Range or Fixed.
Reference Parameter ID	Enter the unique ID of the Reference Parameter.
Reference Parameter Value	Enter the value of the Reference Parameter. Note: This field will be displayed when the Is Reference Parameter Value Type is selected as " Fixed ".
Start Range	Enter the Start Range of the reference parameter value. Note: This field will be displayed when the Is Reference Parameter Value Type is selected as " Range ".
End Range	Enter the End Range of the reference parameter value. Note: This field will be displayed when the Is Reference Parameter Value Type is selected as " Range ".

Field	Description
Parent Reference Parameter Value	Enter the Value of the Parent Reference Parameter.
Billing Charge Type	Select the Billing Charge Type in the drop-down list. For example, Rental, Advance Rental, and so on.
	Note: This field will be displayed when the Is Billing is selected as "Yes" .

- On the **Add Reference Parameter** screen, click the **Attach** button to add the reference parameter value. Refer to the following screen.

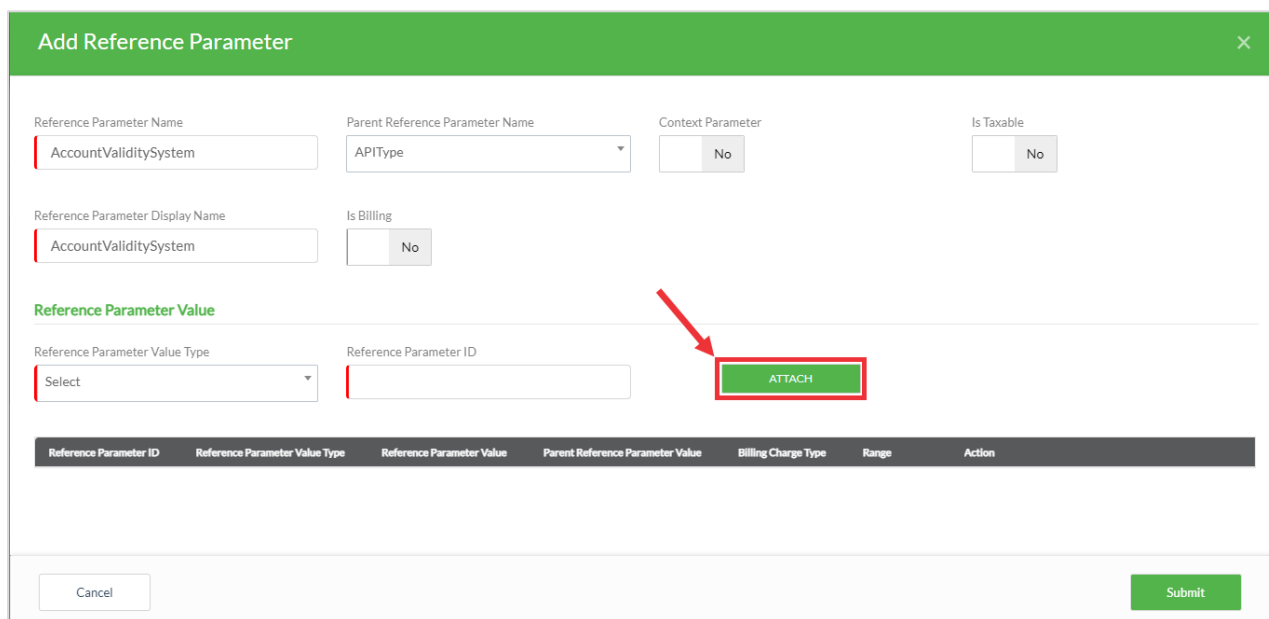

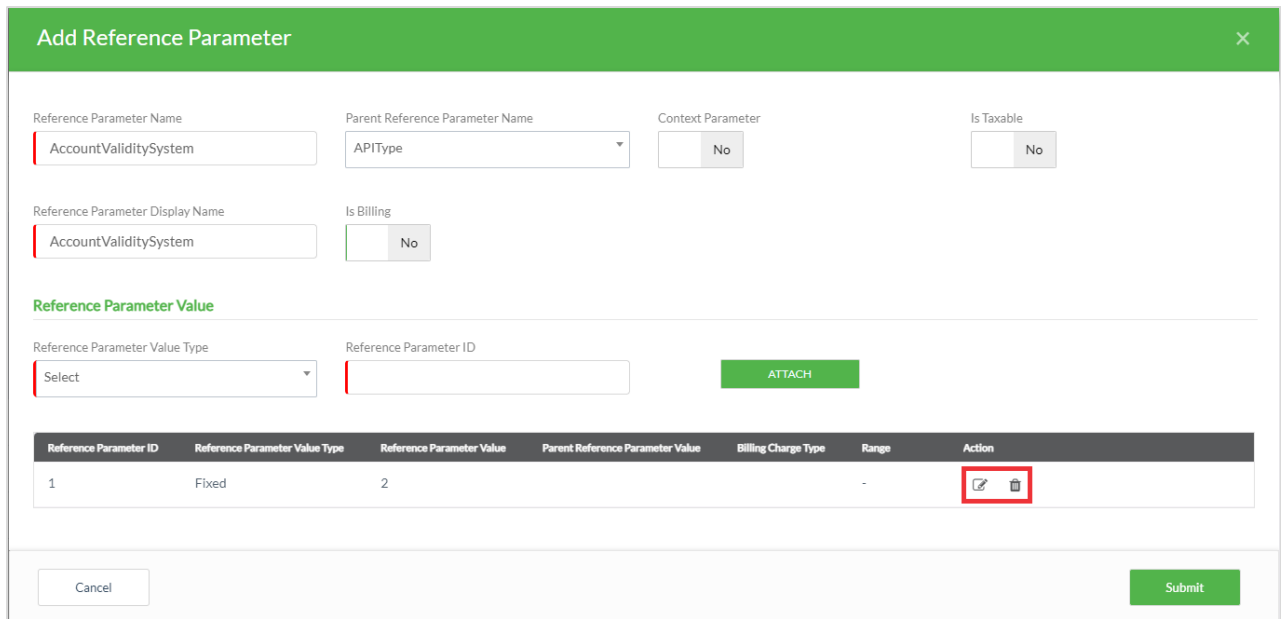

Figure 215 Add Reference Parameter - Attach Button

5. After clicking the **Attach** button, the following screen will be displayed.

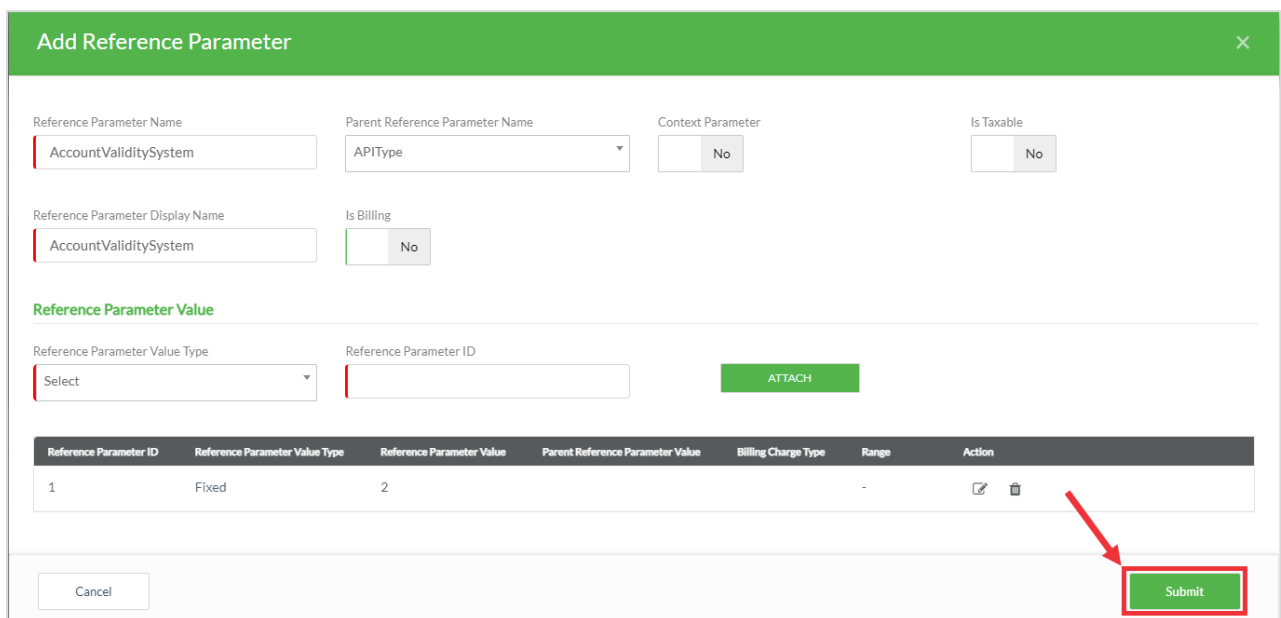

The screenshot shows the 'Add Reference Parameter' form. It includes fields for 'Reference Parameter Name' (AccountValiditySystem), 'Parent Reference Parameter Name' (APIType), 'Context Parameter' (No), 'Is Taxable' (No), 'Reference Parameter Display Name' (AccountValiditySystem), and 'Is Billing' (No). Below these is the 'Reference Parameter Value' section with a 'Reference Parameter Value Type' dropdown (Select) and a 'Reference Parameter ID' field. An 'ATTACH' button is next to the ID field. At the bottom is a table with one row: Reference Parameter ID 1, Reference Parameter Value Type Fixed, Reference Parameter Value 2, Parent Reference Parameter Value, Billing Charge Type, Range, and Action. The Action column contains 'Modify' and 'Delete' icons. At the very bottom are 'Cancel' and 'Submit' buttons.

Reference Parameter ID	Reference Parameter Value Type	Reference Parameter Value	Parent Reference Parameter Value	Billing Charge Type	Range	Action
1	Fixed	2			-	 

Figure 216 Add Reference Parameter Details Screen

- On the **Add reference Parameter** screen, click the **Modify** and **Delete** buttons  and  to modify and delete the reference parameter value.

6. After entering all the required details, click the **Submit** button. Refer to the following screen.

This screenshot is identical to Figure 216, but with a red arrow pointing to the 'Submit' button at the bottom right, which is also highlighted with a red box.

Figure 217 Add Reference Parameter Submit Button

A success message will be displayed, indicating that the Data is submitted successfully.

8.4.2 Modify Reference Parameter

Using this modify option, you can modify the existing reference parameter details.

To modify the Reference Parameter:

1. On the **Reference Parameter** screen, click the **Modify** button  to modify the existing reference parameter details. Refer to the following screen.

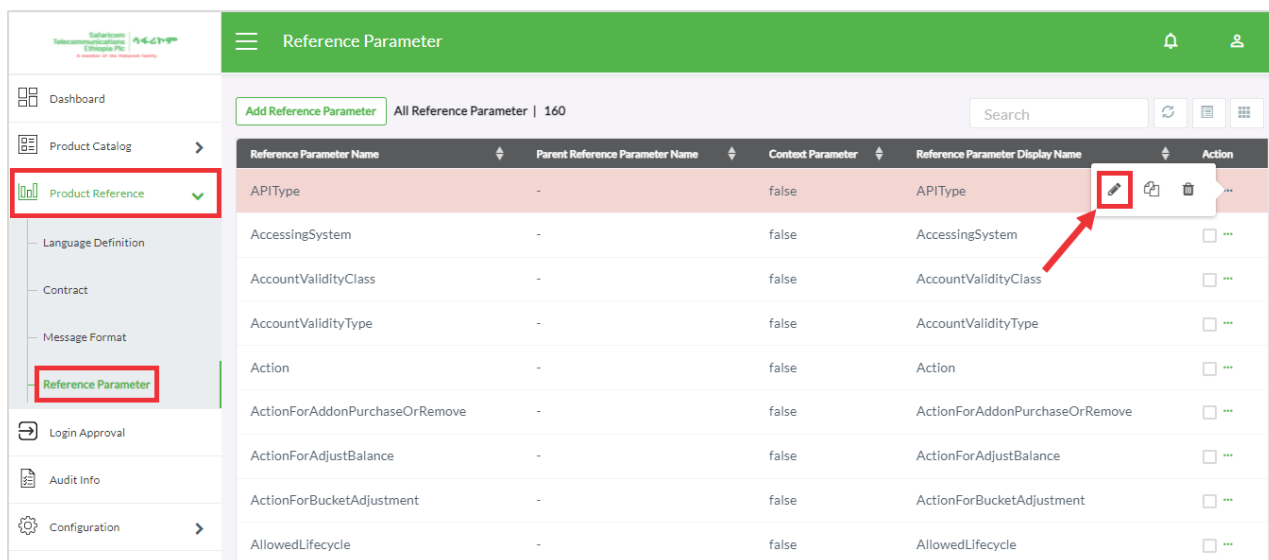

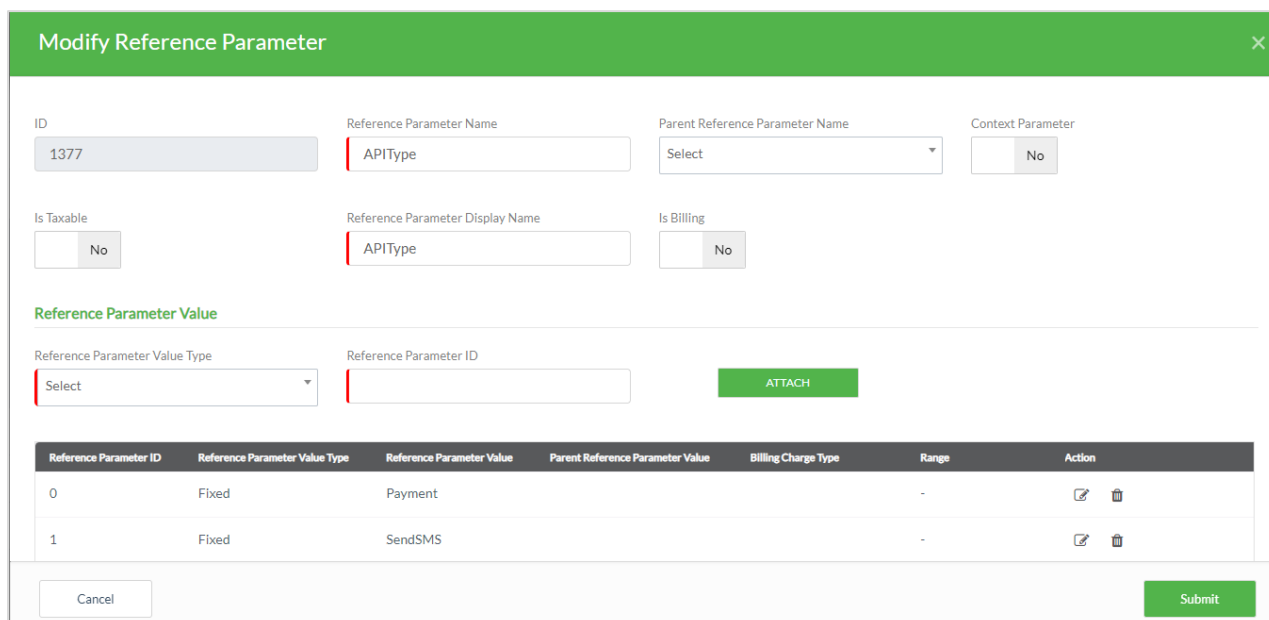

Figure 218 Reference Parameter Modify Button

2. After clicking the **Modify** button, the following screen will be displayed.

The screenshot shows the 'Modify Reference Parameter' screen. It contains the following fields:

- ID:** 1377
- Reference Parameter Name:** APIType
- Parent Reference Parameter Name:** Select
- Context Parameter:** No
- Is Taxable:** No
- Reference Parameter Display Name:** APIType
- Is Billing:** No

Below these fields is a section titled 'Reference Parameter Value' with a dropdown menu set to 'Select' and a 'Reference Parameter ID' field. An 'ATTACH' button is next to the ID field.

Reference Parameter ID	Reference Parameter Value Type	Reference Parameter Value	Parent Reference Parameter Value	Billing Charge Type	Range	Action
0	Fixed	Payment			-	[Edit] [Delete]
1	Fixed	SendSMS			-	[Edit] [Delete]

At the bottom are 'Cancel' and 'Submit' buttons.

Figure 219 Modify Reference Parameter Details Screen

3. Modify the necessary details and click the **Submit** button. Refer to the following screen.

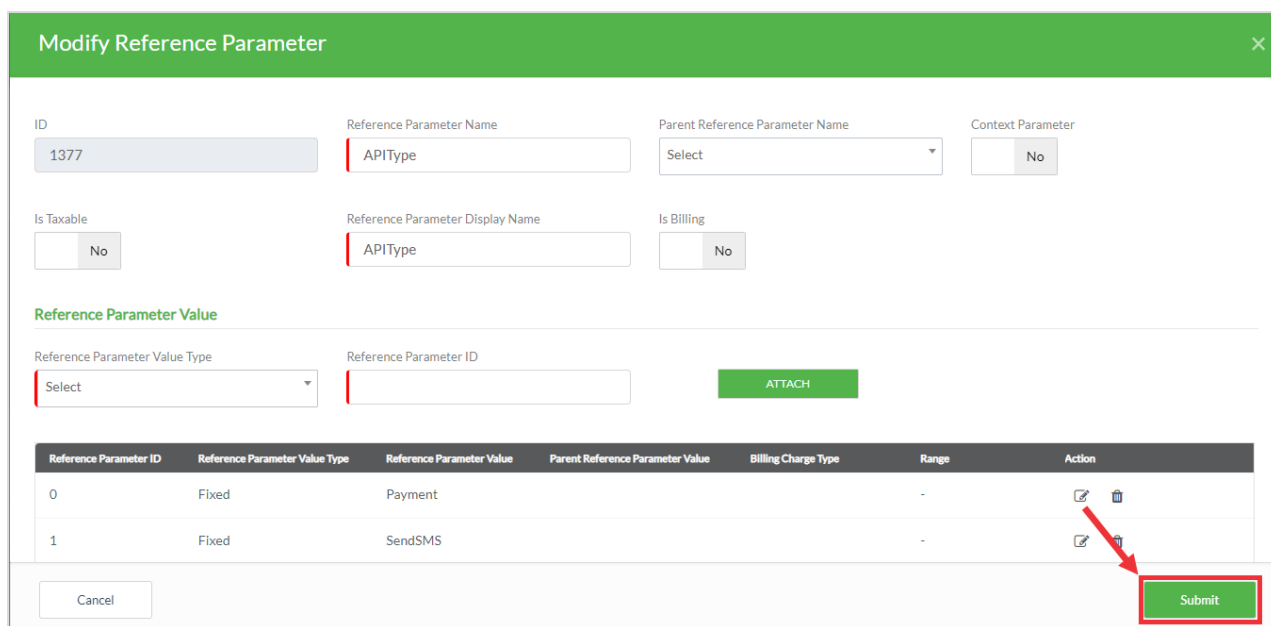

Figure 220 Modify Reference Parameter Submit Button

A success message will be displayed indicating that the Data is submitted successfully.

8.4.3 Copy Reference Parameter

Using this option, you can copy the existing reference parameter details.

To copy the Reference Parameter:

1. On the **Reference Parameter** screen, click the **Copy** button  to copy the existing reference parameter details. Refer to the following screen.

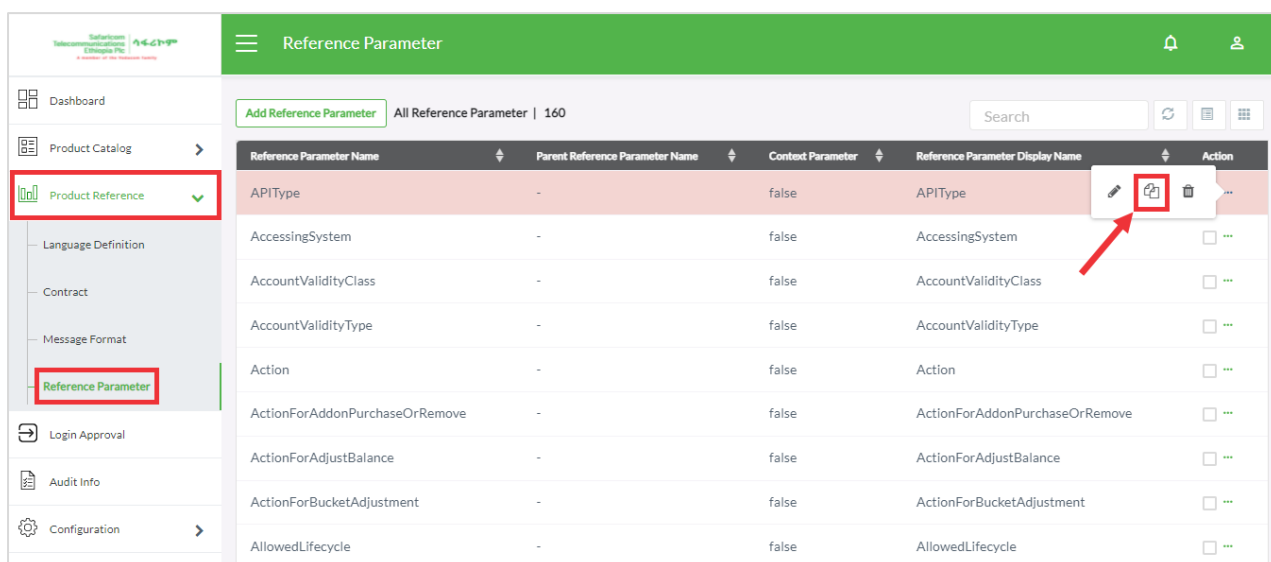

Figure 221 Reference Parameter Copy Button

2. After clicking the **Copy** button, the following screens will be displayed.

Figure 222 Copy Reference Parameter Details Screen

3. Copy the required reference parameter details and click the **Submit** button. Refer to the following screen.

Figure 223 Copy Reference Parameter Submit Button

A success message will be displayed, indicating that the Data is submitted successfully.

8.4.4 Delete Reference Parameter

Using this option, you can delete the existing reference parameter.

To delete the Reference Parameter:

1. On the **Reference Parameter** screen, click the **Delete** button  to delete the existing reference parameter. Refer to the following screen.

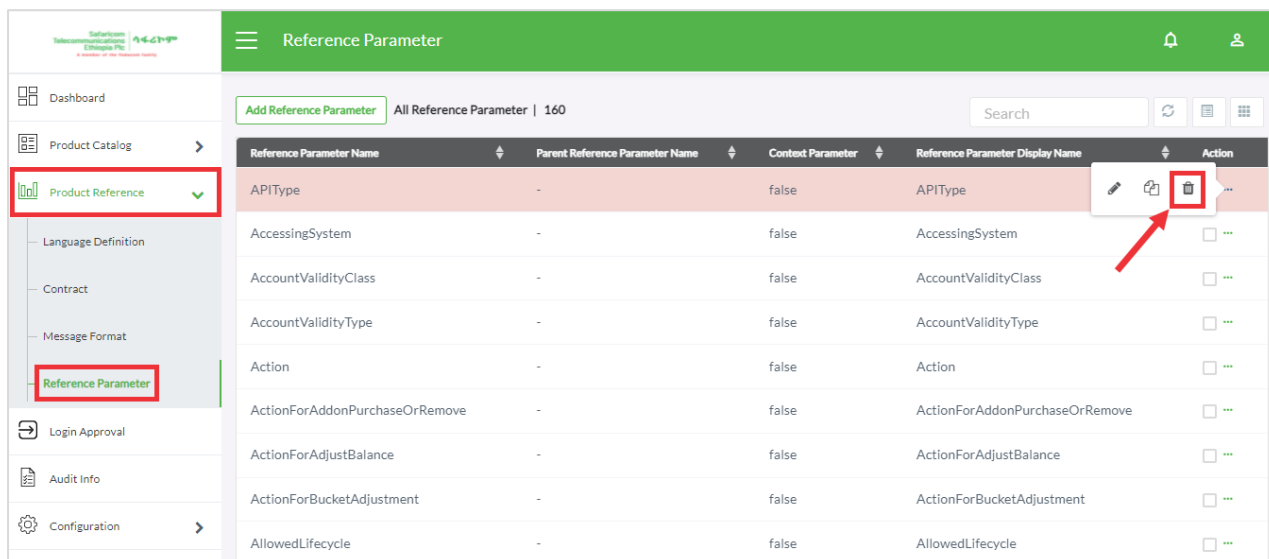

Figure 224 Reference Parameter Delete Button

2. After clicking the **Delete** button, the following confirmation message will be displayed.

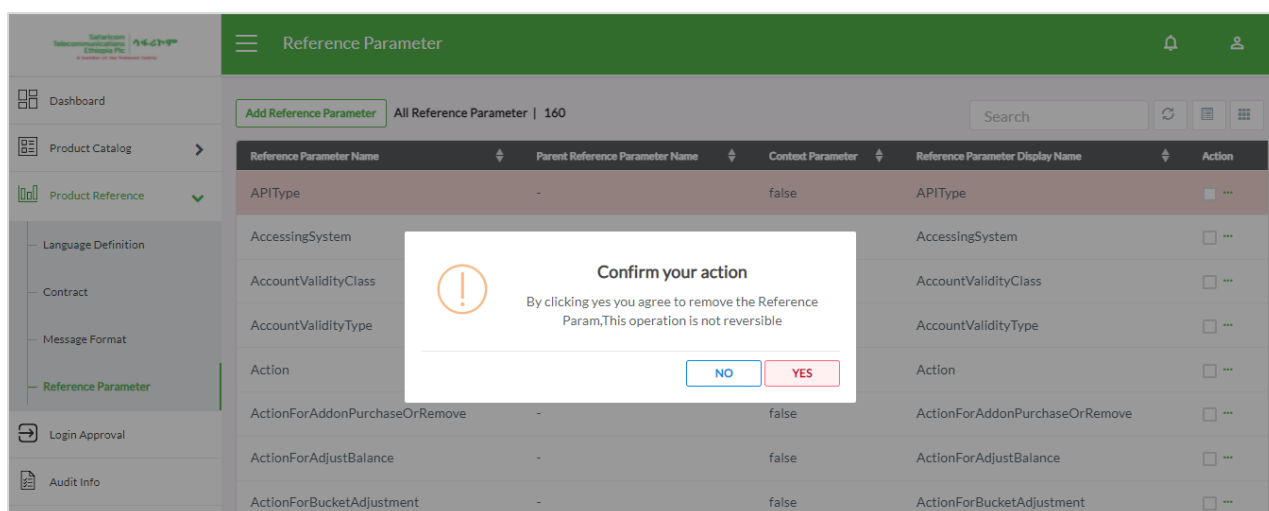

Figure 225 Confirmation Message

3. If you receive the confirmation message, **“By clicking yes you agree to remove the Reference Param. This operation is not reversible”**. Click **“Yes”** to confirm the action.

A success message will be displayed indicating that the selected **Reference Parameter** is deleted successfully.

Or

Click **“No”** to discard the action.

8.5 Notification Class

The notifications for a subscriber are determined from the Notification Class associated with the subscriber.

The Notification Class is an aggregation of various notification rules defined based on the notification's events. The notification scenario and methods are configured in the Notification Class. Message Formats for SMS and USSD are associated with the notification's rules configured in the Notification Class.

The Notification Class can be associated with the subscriber in the below-mentioned ways.

Service Class – If Notification Class is associated with the Service Class, then the notifications are triggered irrespective of any plan associated with the subscriber.

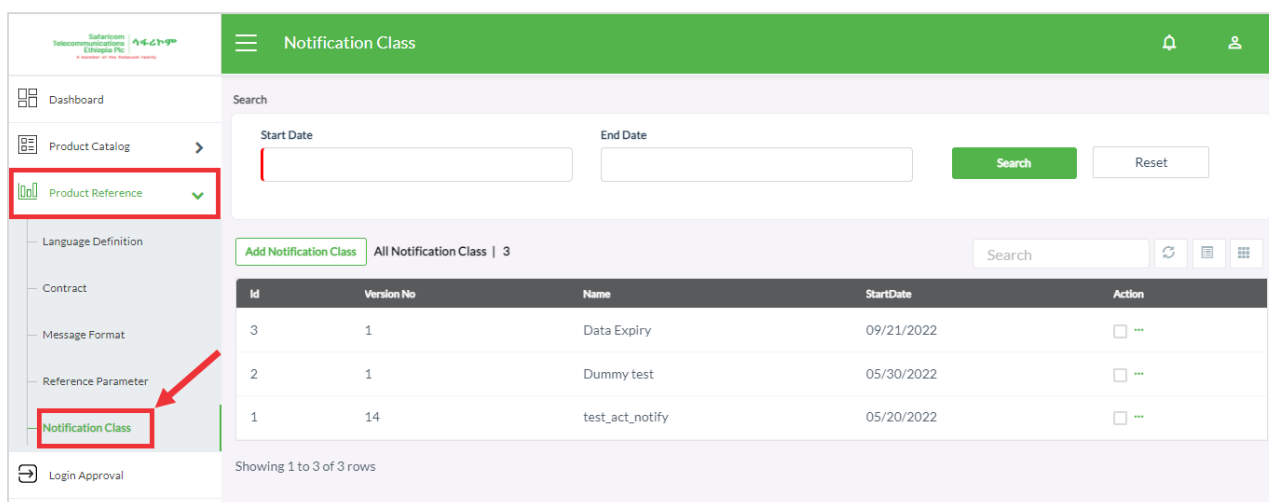

Rate Plan – If associated with the Rate Plan, then subscribers to get notified as per the plan subscribed.

You can also view, copy, modify, versioning and delete the existing message format details.

You can also view, copy, modify, and delete the existing notification class details.

To manage the Notification Class:

1. On the side menu, click the **Product Reference >> Notification Class** to view the notification class menu details. Refer to the following screen.

The screenshot shows the 'Notification Class' management interface. The left sidebar contains the following menu items: Dashboard, Product Catalog, Product Reference (highlighted with a red box and a green checkmark), Language Definition, Contract, Message Format, Reference Parameter, Notification Class (highlighted with a red box and a red arrow), and Login Approval. The main content area has a green header 'Notification Class' and a search bar with 'Start Date' and 'End Date' filters. Below the search bar, there is a table titled 'All Notification Class | 3' with the following data:

Id	Version No	Name	StartDate	Action
3	1	Data Expiry	09/21/2022	☐ ...
2	1	Dummy test	05/30/2022	☐ ...
1	14	test_act_notify	05/20/2022	☐ ...

At the bottom of the table, it says 'Showing 1 to 3 of 3 rows'.

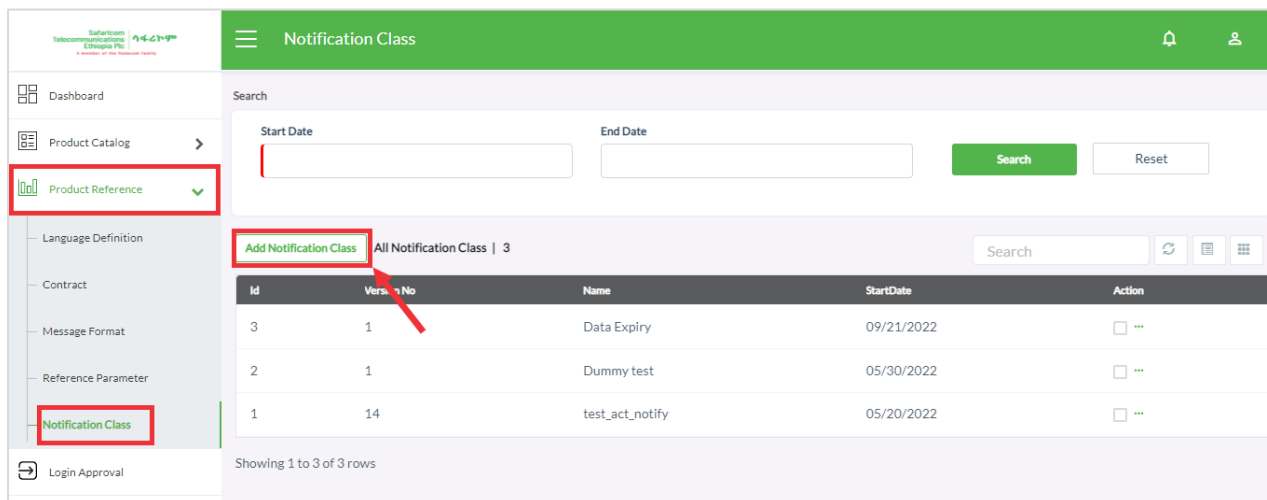

Figure 226 Product Reference - Notification Class Screen

8.5.1 Add Notification Class

Using this option, you can add the new notification class.

To add the Notification Class:

1. On the **Notification Class** screen, click the **Add Notification Class** button to add the notification class. Refer to the following screen.

The screenshot shows the 'Notification Class' management interface. The left sidebar contains a menu with items: Dashboard, Product Catalog, Product Reference, Language Definition, Contract, Message Format, Reference Parameter, Notification Class, and Login Approval. The 'Notification Class' item is highlighted. The main area has a green header with the title 'Notification Class'. Below the header is a search bar with 'Start Date' and 'End Date' fields, a 'Search' button, and a 'Reset' button. Below the search bar is a table with 3 rows of notification classes. The table has columns: Id, Version No, Name, StartDate, and Action. The rows are: 3, 1, Data Expiry, 09/21/2022; 2, 1, Dummy test, 05/30/2022; and 1, 14, test_act_notify, 05/20/2022. A red box highlights the 'Add Notification Class' button in the sidebar, and a red arrow points to it from the 'Add Notification Class' button in the sidebar.

Id	Version No	Name	StartDate	Action
3	1	Data Expiry	09/21/2022	☐ ...
2	1	Dummy test	05/30/2022	☐ ...
1	14	test_act_notify	05/20/2022	☐ ...

Showing 1 to 3 of 3 rows

Figure 227 Add Notification Class Button

2. After clicking the **Add Notification Class** button, the following screen will be displayed.

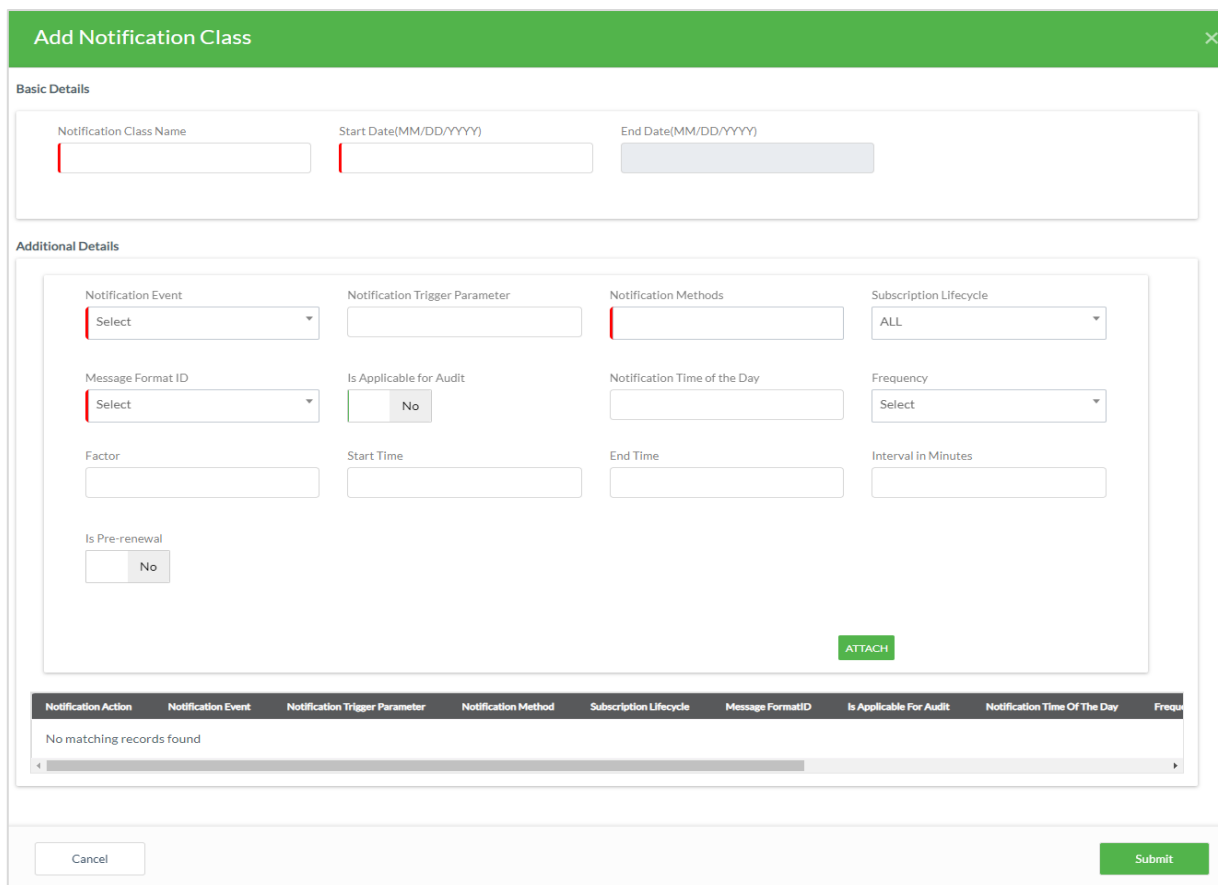

Figure 228 Add Notification Class Details Screen

3. Enter/Select the following details in the corresponding fields. If the fields are marked with “|” is mandatory.

Field	Description
Notification Class Name	Enter the name of the notification class.
Start Date	Select the start date from the calendar.
End Date	End date will be selected by default based on the selected start date.
Notification Event	Select the notification event in the drop-down list. For example, First Activation, E-Recharge Success, and so on.
Notification Trigger Parameter	Enter the notification trigger parameter in this field.
Notification Methods	Select the notification methods in the drop-down list. For example, Announcement, SMS, and so on.

Field	Description
Is Applicable for Audit	Click "Yes" if it is applicable for audit. Or Click "No" .
Notification Time of the Day	Select the notification time of the day in the time picker.
Frequency	Select the notification frequency in the drop-down list. For example, Every Time or Once Per Day.
Factor	Enter the notification class factor in this field.
Start Time	Select the start time.
End Time	Select the end time.
Interval in Minutes	Enter the interval time in minutes.
Is Pre-renewal	Click "Yes" to enable the pre-renewal. Or Click "No" .

4. After entering all the required details, click the **Attach** button.

10. After clicking the **Attach** button, the following screen will be displayed.

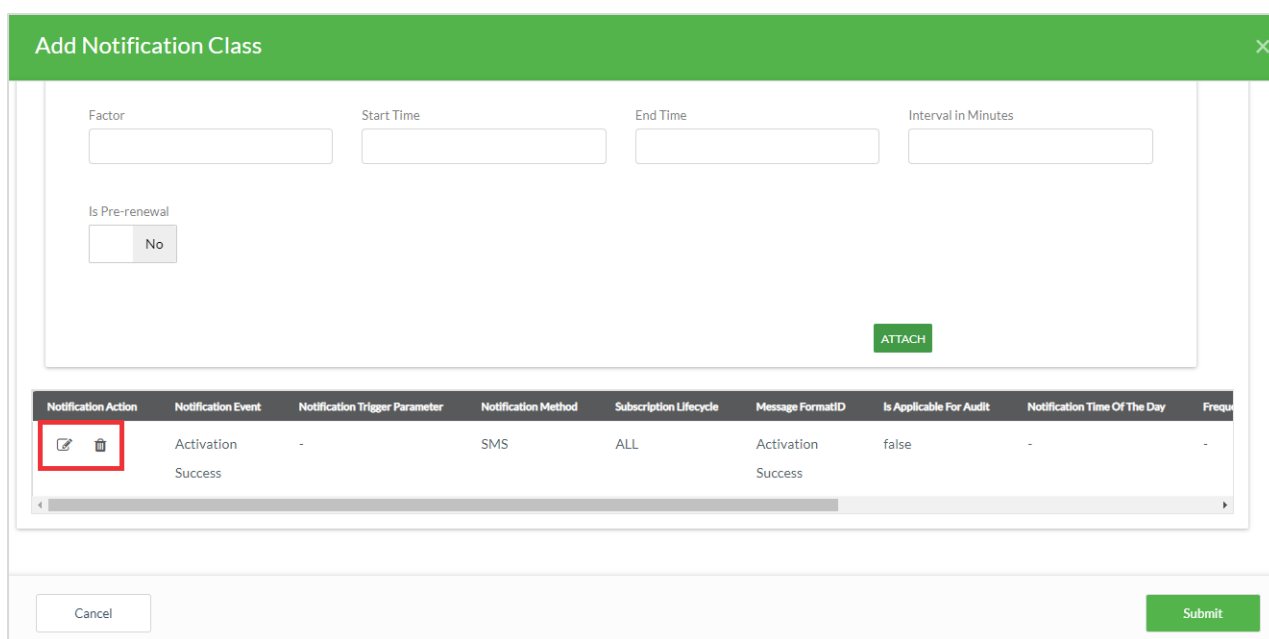

Figure 229 Add Notification Class Details Screen

- On the **Add Notification Class** screen, click the **Modify** and **Delete** buttons  and  to modify and delete the existing notification class details. Refer to the above screen.

11. After entering all the required details, click the **Submit** button.

A success message is displayed, indicating that the Data is submitted successfully.

8.5.2 View Notification Class

Using this option, you can view the existing notification class details.

To view the Notification Class:

1. On the **Notification Class** screen, click the **View** button  to view the existing recharge details. Refer to the following screen.

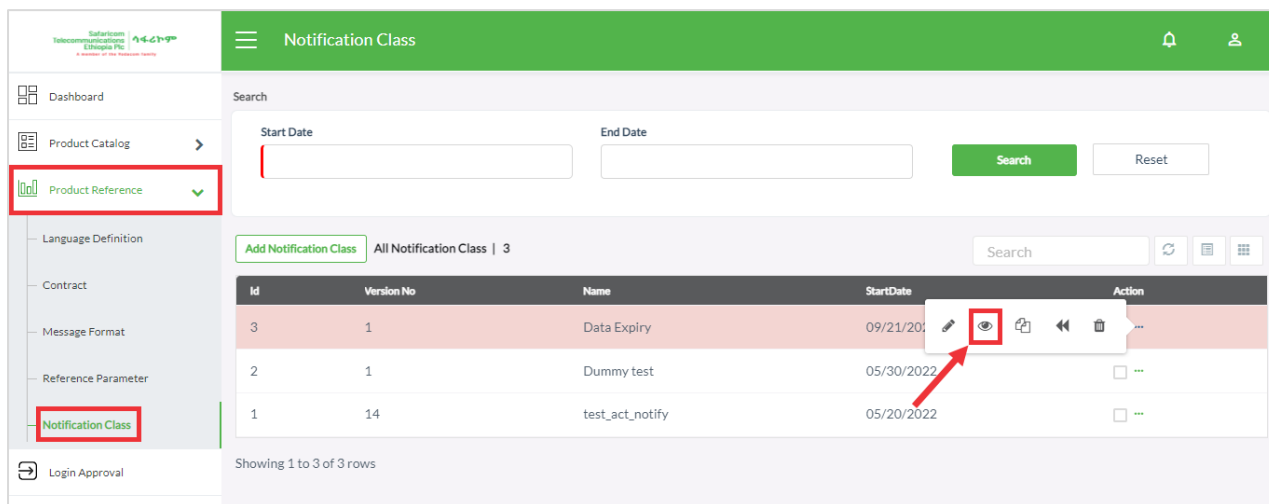

Figure 230 Notification Class - View Button

2. After clicking the **View** button, the following screen will be displayed.

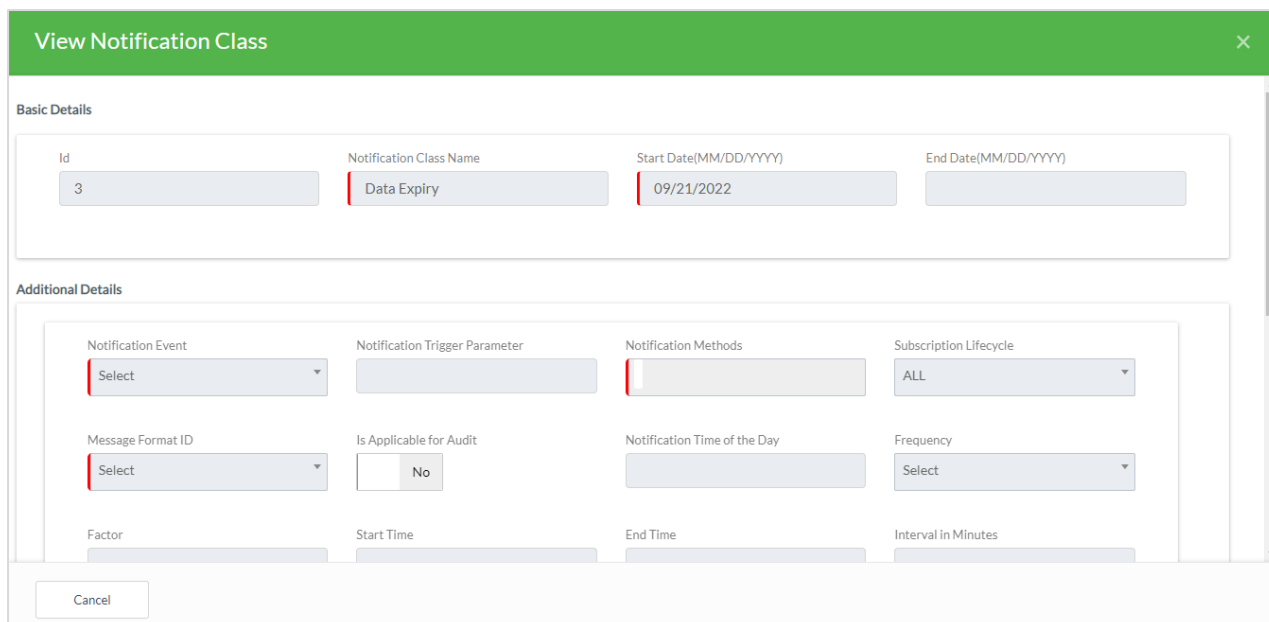

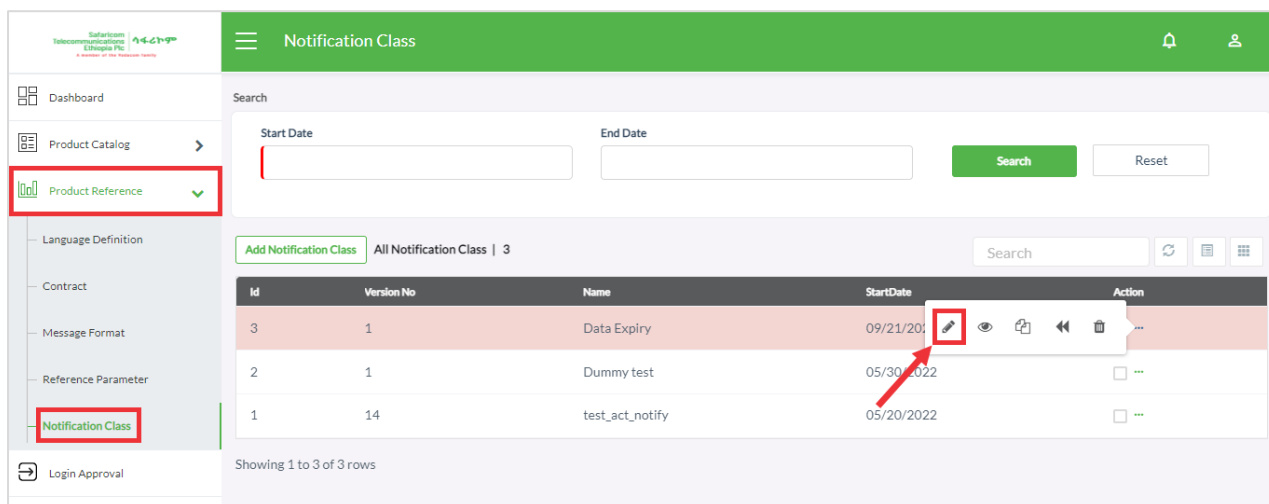

Figure 231 View Notification Class Details Screen

8.5.3 Modify Notification Class

Using this option, you can modify the existing notification class details.

To modify the Notification Class:

1. On the **Notification Class** screen, click the **Modify** button  to modify the existing notification class details. Refer to the following screen.

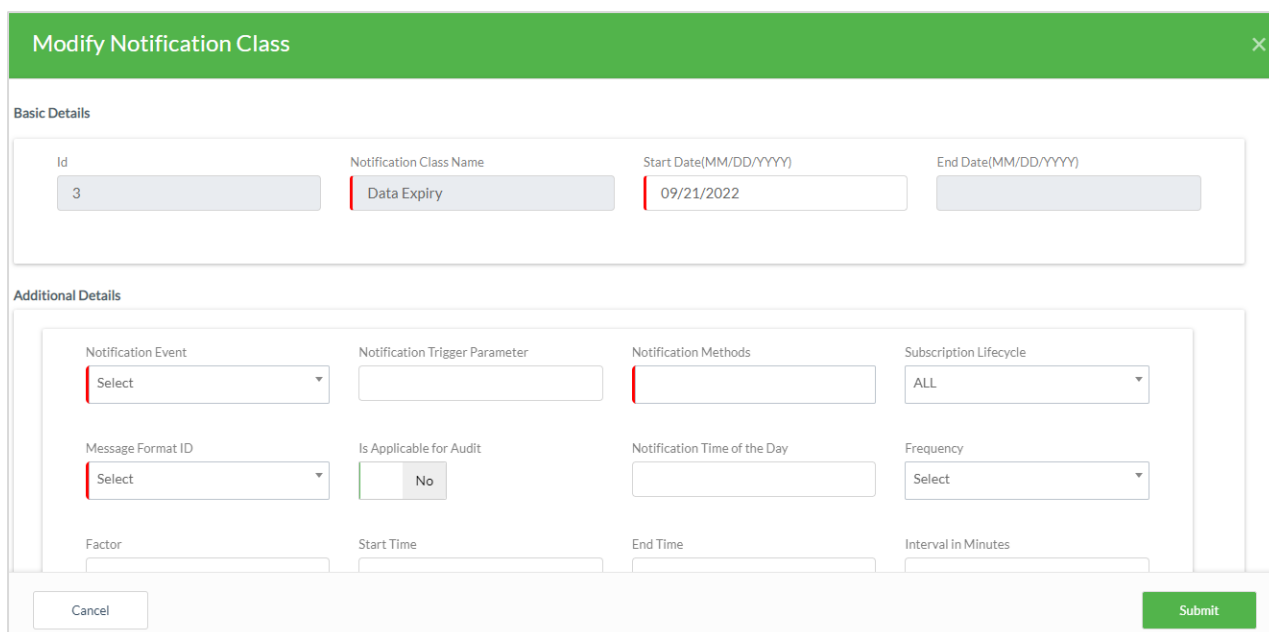

The screenshot shows the 'Notification Class' screen. On the left is a sidebar with navigation items: Dashboard, Product Catalog, Product Reference (highlighted with a red box), Language Definition, Contract, Message Format, Reference Parameter, Notification Class (highlighted with a red box), and Login Approval. The main area has a search bar and a table of notification classes. The table has columns: Id, Version No, Name, StartDate, and Action. The first row (Id: 3, Name: Data Expiry) has its 'Action' cell highlighted with a red box, containing a pencil icon (Modify), an eye icon, a document icon, and a trash icon. A red arrow points to the pencil icon.

Id	Version No	Name	StartDate	Action
3	1	Data Expiry	09/21/2022	   
2	1	Dummy test	05/30/2022	 ...
1	14	test_act_notify	05/20/2022	 ...

Figure 232 Notification Class - Modify Button

2. After clicking the **Modify** button, the following screen will be displayed.

The screenshot shows the 'Modify Notification Class' screen. It has a green header bar with the title 'Modify Notification Class' and a close button. Below the header are two sections: 'Basic Details' and 'Additional Details'. The 'Basic Details' section contains fields for Id (3), Notification Class Name (Data Expiry), Start Date (MM/DD/YYYY) (09/21/2022), and End Date (MM/DD/YYYY). The 'Additional Details' section contains several fields: Notification Event (Select), Notification Trigger Parameter, Notification Methods, Subscription Lifecycle (ALL), Message Format ID (Select), Is Applicable for Audit (No), Notification Time of the Day, Frequency (Select), Factor, Start Time, End Time, and Interval in Minutes. At the bottom are 'Cancel' and 'Submit' buttons.

Figure 233 Modify Notification Class Details Screen

Note: While modifying the Notification Class, the start date should be higher than the previous version start date but not less than the current date.

3. Modify the necessary details and click the **Submit** button.

A success message is displayed, indicating that the Data is submitted successfully.

8.5.4 Copy Notification Class

Using this option, you can copy the existing notification class details.

To copy the Notification Class:

1. On the **Notification Class** screen, click the **Copy** button  to copy the existing notification class details. Refer to the following screen.

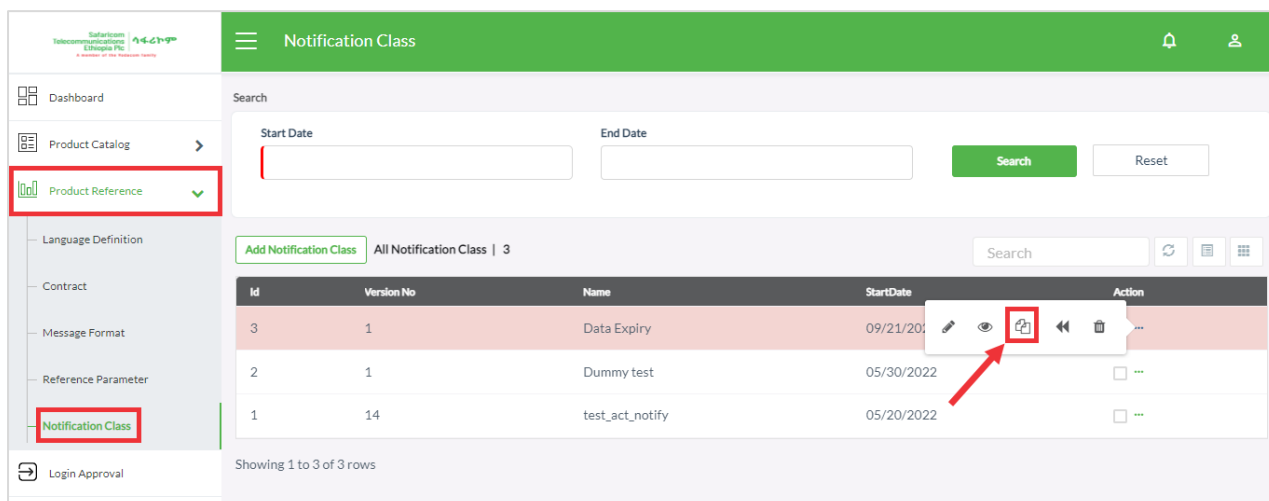

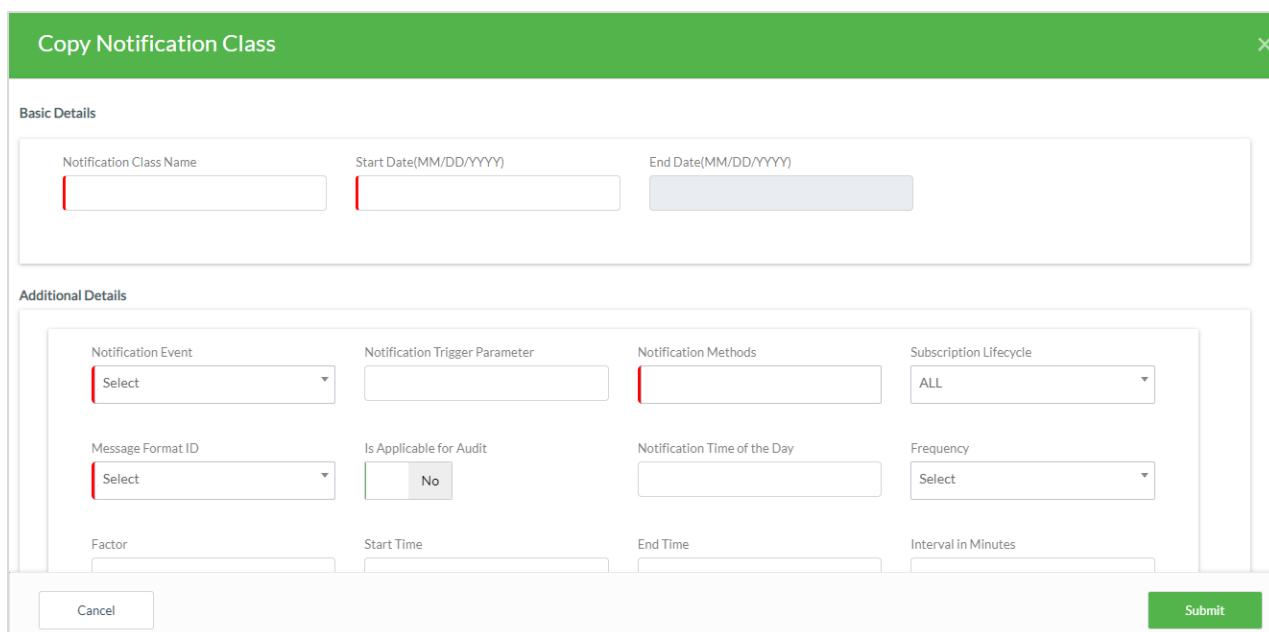

Figure 234 Notification Class - Copy Button

2. After clicking the **Copy** button, the following screen will be displayed.

The screenshot shows the 'Copy Notification Class' screen. It has a green header bar with the title 'Copy Notification Class'. Below the header, there are two sections: 'Basic Details' and 'Additional Details'. The 'Basic Details' section has three input fields: 'Notification Class Name', 'Start Date(MM/DD/YYYY)', and 'End Date(MM/DD/YYYY)'. The 'Additional Details' section has several fields: 'Notification Event' (dropdown), 'Notification Trigger Parameter' (input), 'Notification Methods' (input), 'Subscription Lifecycle' (dropdown), 'Message Format ID' (dropdown), 'Is Applicable for Audit' (checkbox), 'Notification Time of the Day' (input), 'Frequency' (dropdown), 'Factor' (input), 'Start Time' (input), 'End Time' (input), and 'Interval in Minutes' (input). At the bottom, there are 'Cancel' and 'Submit' buttons.

Figure 235 Copy Notification Class Details Screen

3. Copy the required notification class details and click the **Submit** button.

A success message will be displayed, indicating that the Data is submitted successfully.

8.5.5 Delete Notification Class

Using this option, you can delete the existing notification class.

To delete the Notification Class:

1. On the **Notification Class** screen, click the **Delete** button  to delete the existing notification class. Refer to the following screen.

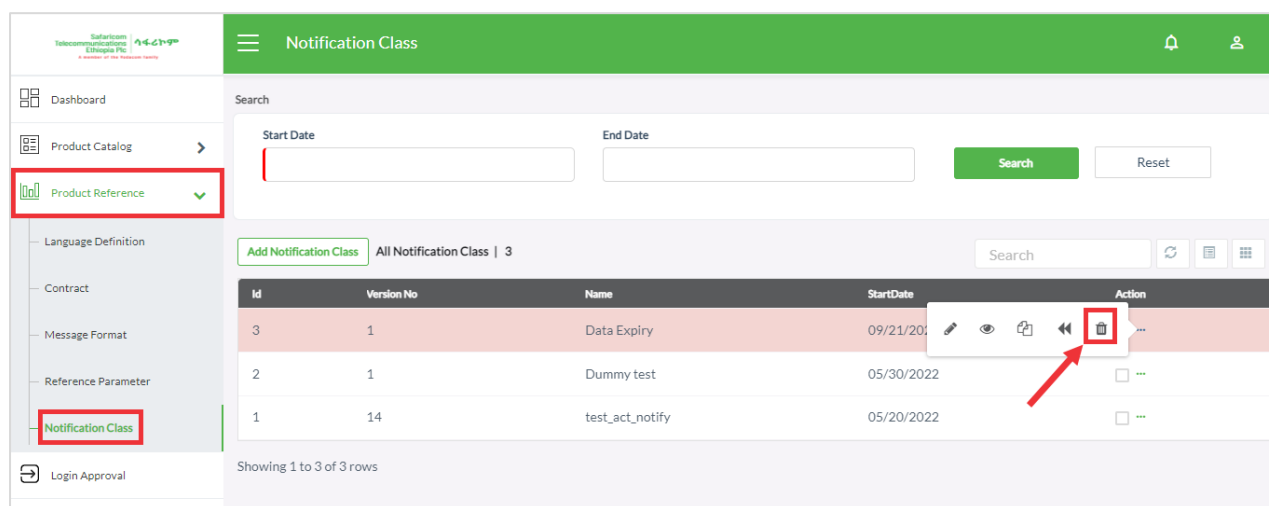

Figure 236 Notification Class - Delete Button

2. After clicking the **Delete** button, the following End Date screen will be displayed.

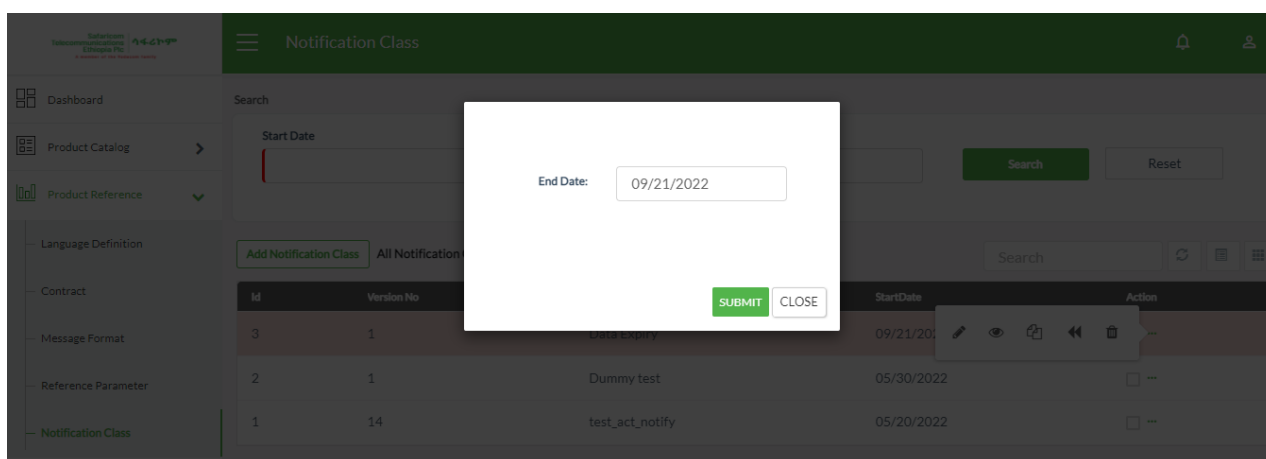

Figure 237 Delete Notification Class End Date Details Screen

3. Select the End Date from the calendar and click the **Submit** button.

Note: While deleting the Notification Class, the end date should be higher than the previous version start date but not less than the current date.

A success message is displayed, indicating that the data is submitted successfully.

9 Login Approval

Using this login approval option, you can approve or reject the user login request to create the user in the application.

Note: You can approve or reject the user login request when it is in pending state only.

To manage the Login Approval:

1. On the side menu, click the **Login Approval** menu to view the login approval details. Refer to the following screen.

USER NAME	EMAIL	FULL NAME	REALM	STATUS	ACTION

Figure 239 Login Approval - Approve Button

3. After clicking the **Approve** button, the following screen will be displayed.

The screenshot displays a 'Attach User Details' screen. On the left, a table titled 'All Records | 12' lists users with columns for USER NAME, EMAIL, and another EMAIL column. The records include users like unni.krishnan@6dtech.co.in, admin6d@6dtech.co.in, and billing_engineer3.mis@tashicell.com. On the right, there is a form with fields for 'User Name' and 'Email Address', both containing the value 'billing_engineer3.mis@tashicell.com'. At the bottom right, there are 'Cancel' and 'Submit' buttons.

Figure 240 Attach User Details Screen

4. Click the **Submit** button.

A success message will be displayed indicating that the user is created successfully.

5. On the **Login Approval** screen, click the **Reject** button  to reject the user login request. Refer to the following screen.

The screenshot shows the 'Login Approval' screen. The left sidebar has a menu with 'Login Approval' highlighted. The main area shows a table titled 'All Records | 10' with columns: USER NAME, EMAIL, FULL NAME, REALM, STATUS, and ACTION. The table contains several rows of login requests. The 'ACTION' column has 'Approve' and 'Reject' buttons. A red arrow points to the 'Reject' button for the user '6dadmin@6dtech.co.in'.

Figure 248 Audit Information

7. After clicking the button, the following screen will be displayed.

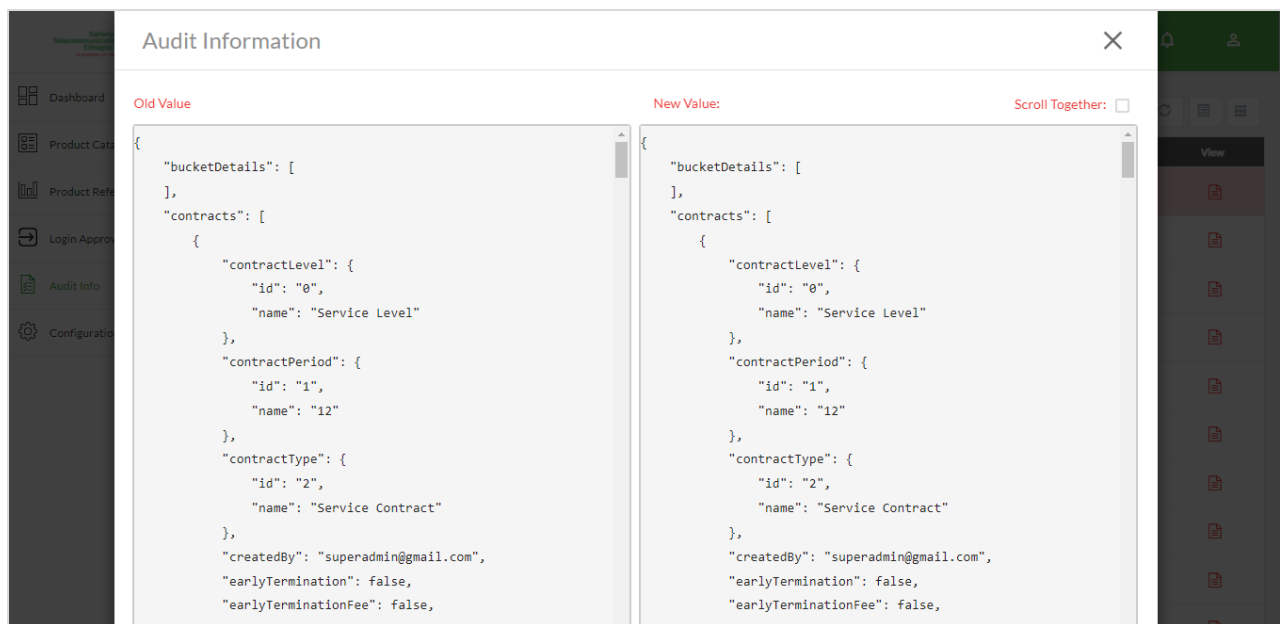

Figure 249 Audit Information Details Screen

- A comparison of the old value and new value parameters are shown.
- Click **Close** to close the window.

Note: Select the **Scroll Together** checkbox to scroll the Old Value and New Value at the same time.

The results will be displayed based on the search parameters.

11 Configurations

Using this configurations option, the following operations can be configured.

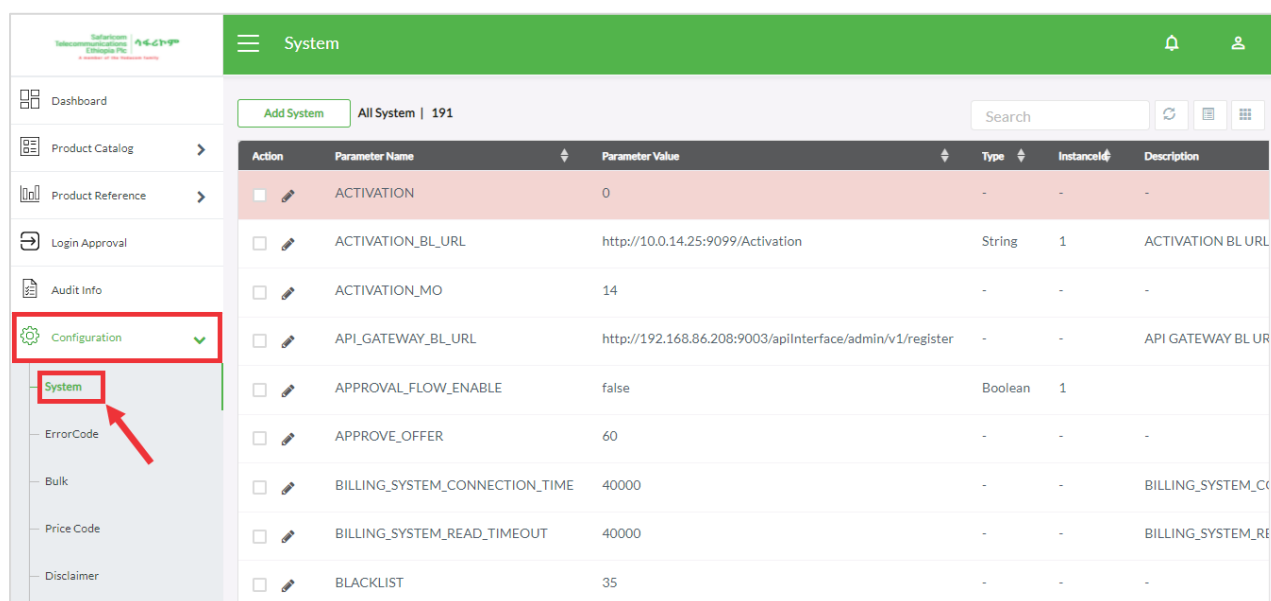

- System
- Error Code
- Bulk
- Price Code
- Disclaimer
- PO Language Map
- POP Category
- Context Parameter
- CFSS

11.1 System

Using this system option, you can configure the system related parameters. You can also modify the existing system parameters.

To manage the System:

1. On the side menu, click the **Configurations >> System** to view the system screen. Refer to the following screen.

Action	Parameter Name	Parameter Value	Type	Instance	Description
☐	ACTIVATION	0	-	-	-
☐	ACTIVATION_BL_URL	http://10.0.14.25:9099/Activation	String	1	ACTIVATION BL URL
☐	ACTIVATION_MO	14	-	-	-
☐	API_GATEWAY_BL_URL	http://192.168.86.208:9003/apiInterface/admin/v1/register	-	-	API GATEWAY BL UR
☐	APPROVAL_FLOW_ENABLE	false	Boolean	1	-
☐	APPROVE_OFFER	60	-	-	-
☐	BILLING_SYSTEM_CONNECTION_TIME	40000	-	-	BILLING_SYSTEM_CC
☐	BILLING_SYSTEM_READ_TIMEOUT	40000	-	-	BILLING_SYSTEM_RE
☐	BLACKLIST	35	-	-	-

Figure 250 Configurations - System Screen

11.1.1 Add System

Using this option, you can add the new system.

To add a new System:

1. On the **System** screen, click the **Add System** button to add the new system. Refer to the following screen.

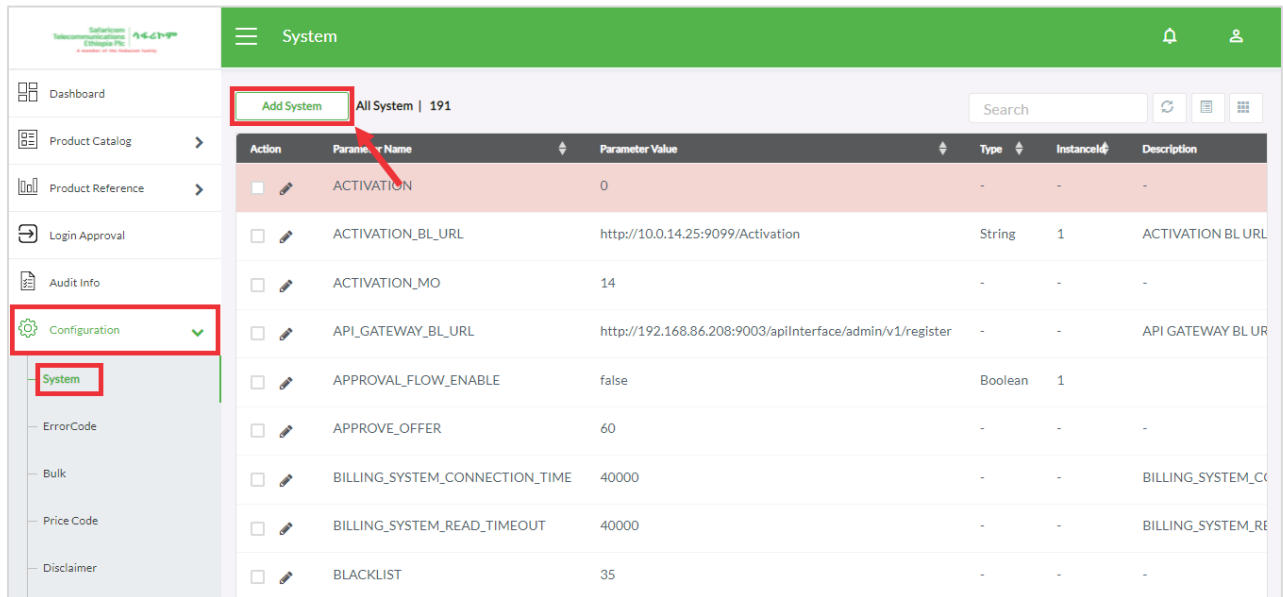

Figure 251 Add System Button

2. After clicking the **Add System** button, the following screen will be displayed.

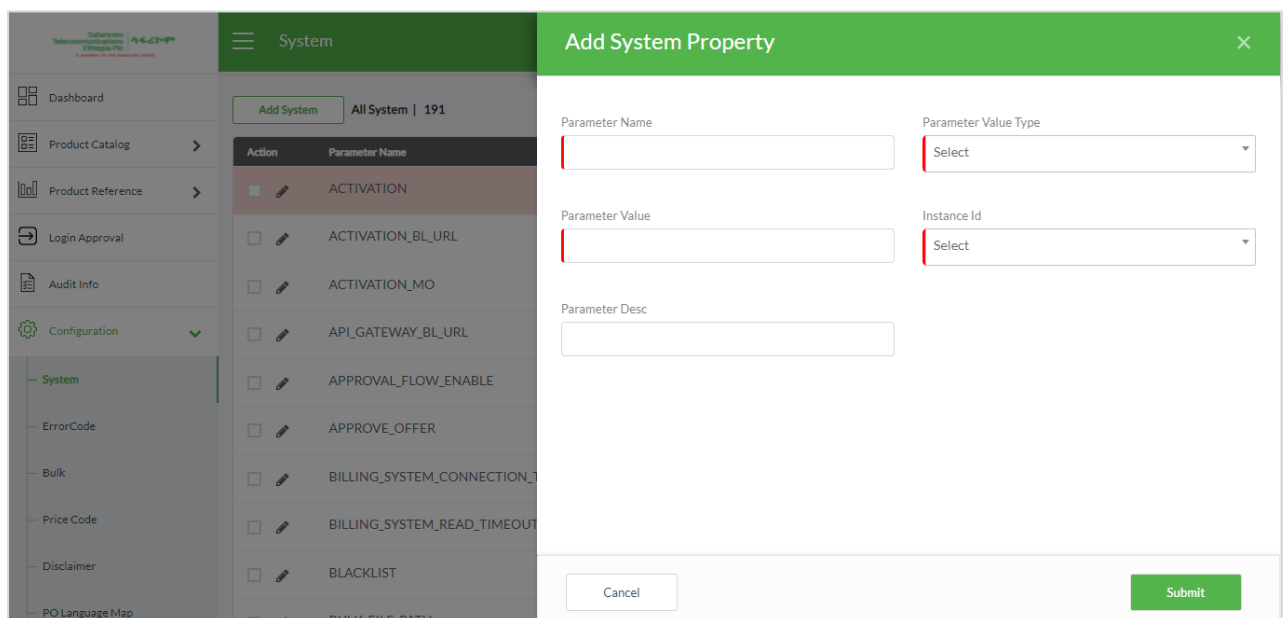

Figure 252 Add System Property Details Screen

- Enter/Select the following details in the corresponding fields. If the fields are marked with "!" is mandatory.

Field	Description
Parameter Name	Enter the name of the Parameter.
Parameter Value Type	Select the Parameter value type in the drop-down list. For example, String, Integer, and so on.
Parameter Value	Enter the Parameter value details.
Instance Id	Select the unique reference ID of the Instance in the drop-down list.
Parameter Desc	Enter a description of the Parameter.

- After entering all the required details, click the **Submit** button. Refer to the following screen.

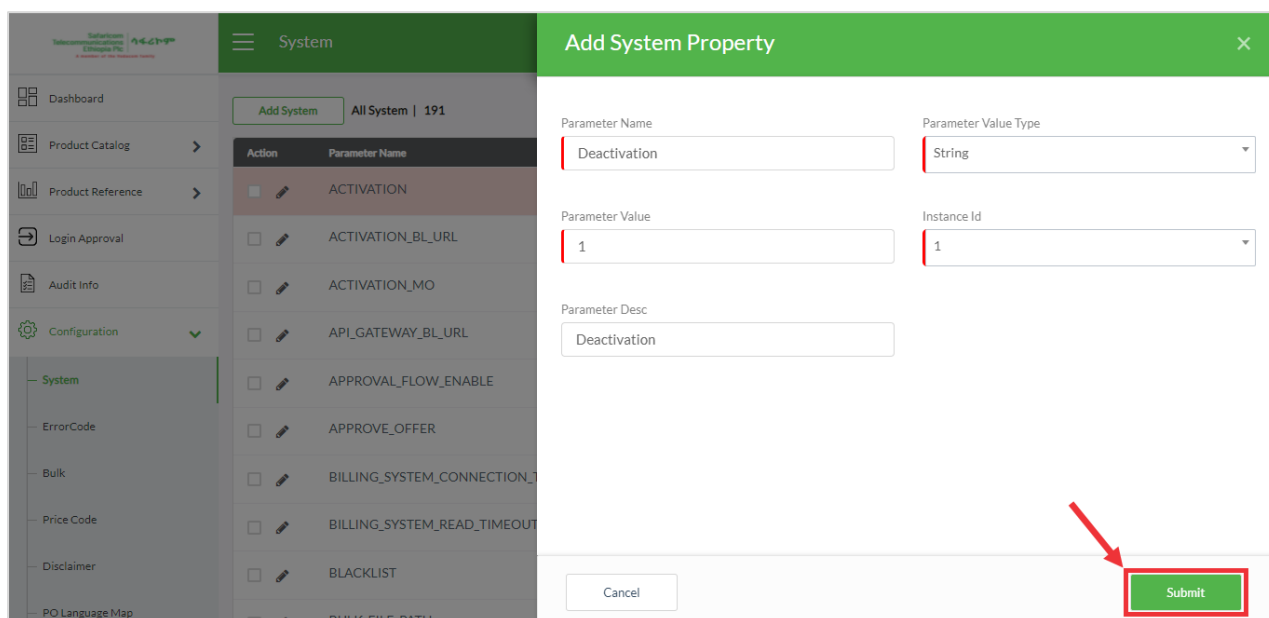

Figure 253 Add System Submit Button

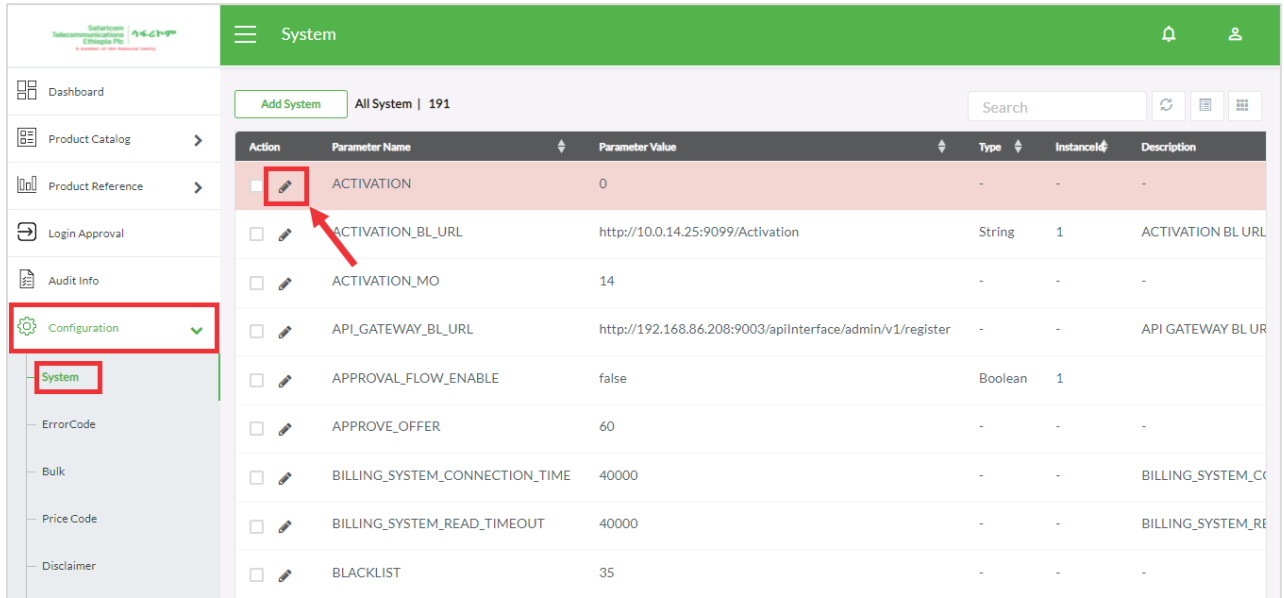

A success message will be displayed, indicating that the Data is submitted successfully.

11.1.2 Modify System

Using this option, you can modify the existing lifecycle system details.

To modify the System:

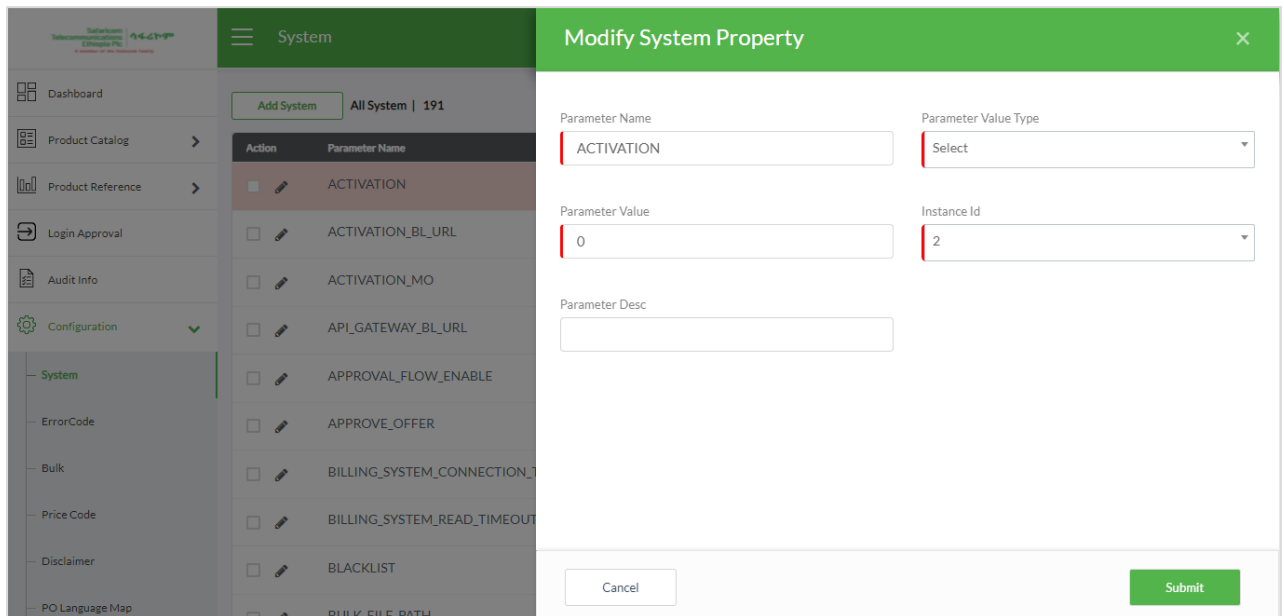

1. On the **System** screen, click the **Modify** button  to modify the existing system details. Refer to the following screen.

Action	Parameter Name	Parameter Value	Type	Instance Id	Description
	ACTIVATION	0	-	-	-
	ACTIVATION_BL_URL	http://10.0.14.25:9099/Activation	String	1	ACTIVATION BL URL

Bulk_File_Has_Send_For_Process	Bulk_File_Has_Send_For_Processing	☐ ☐ ☐
Bulk_keyword_Missing	Bulk_keyword_Missing	☐ ☐ ☐
Data_Already_Migrated	Data Already Migrated	☐ ☐ ☐
Date Validation Failed	Date Validation Failed	☐ ☐ ☐

Figure 257 Configurations - Error Codes Screen

11.2.1 Add Error Code

Using this option, you can add the new error code.

To add a new Error Code:

1. On the **Error Code** screen, click the **Add Error Code** button to add the new error code. Refer to the following screen.

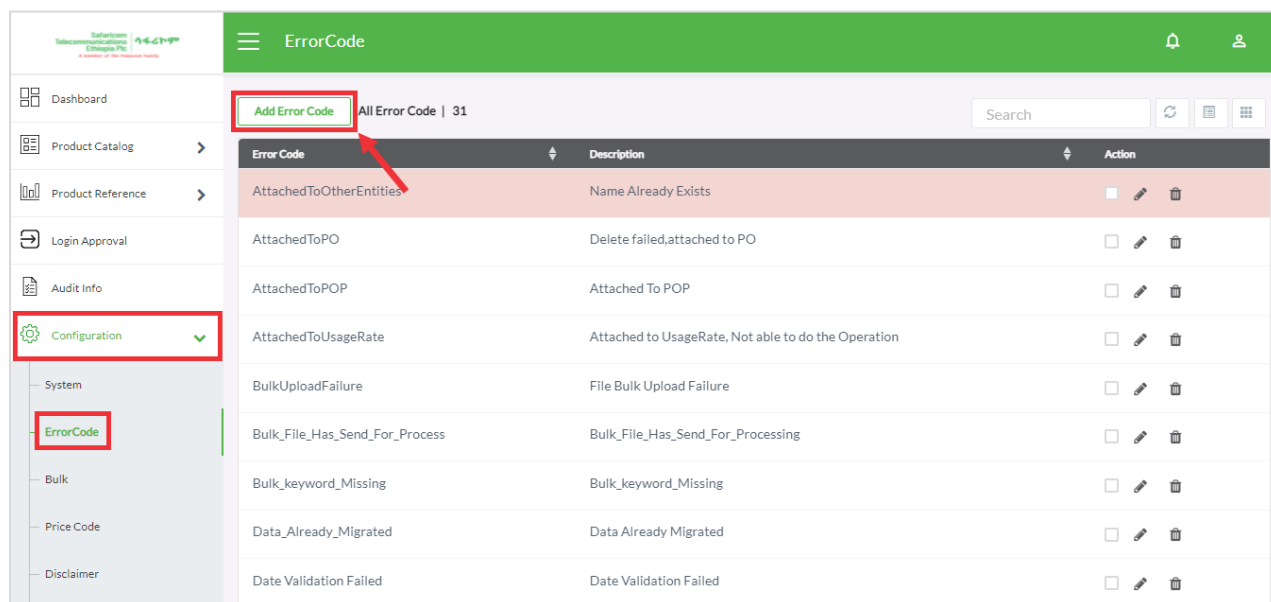

Figure 258 Add Error Code Button

2. After clicking the **Error Code** button, the following screen will be displayed.

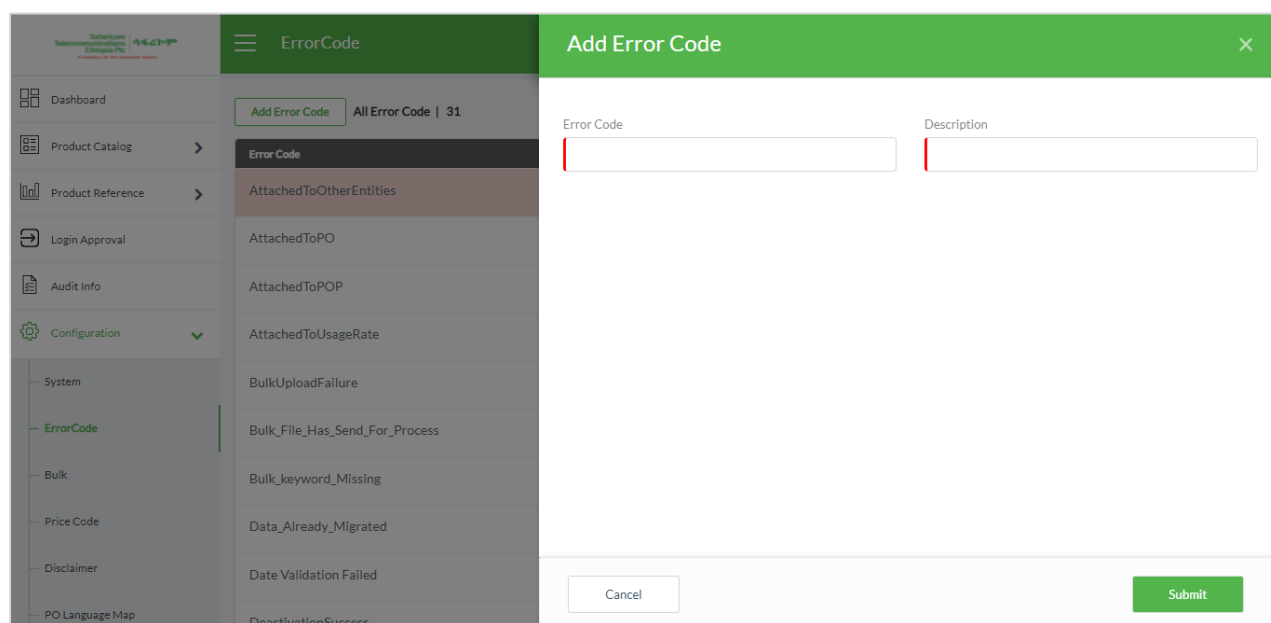

Figure 259 Add Error Code Details Screen

- Enter/Select the following details in the corresponding fields. If the fields are marked with "!" is mandatory.

Field	Description
Error Code	Enter the unique reference error code.
Description	Enter a description of the error

- After entering all the required details, click the **Submit** button. Refer to the following screen.

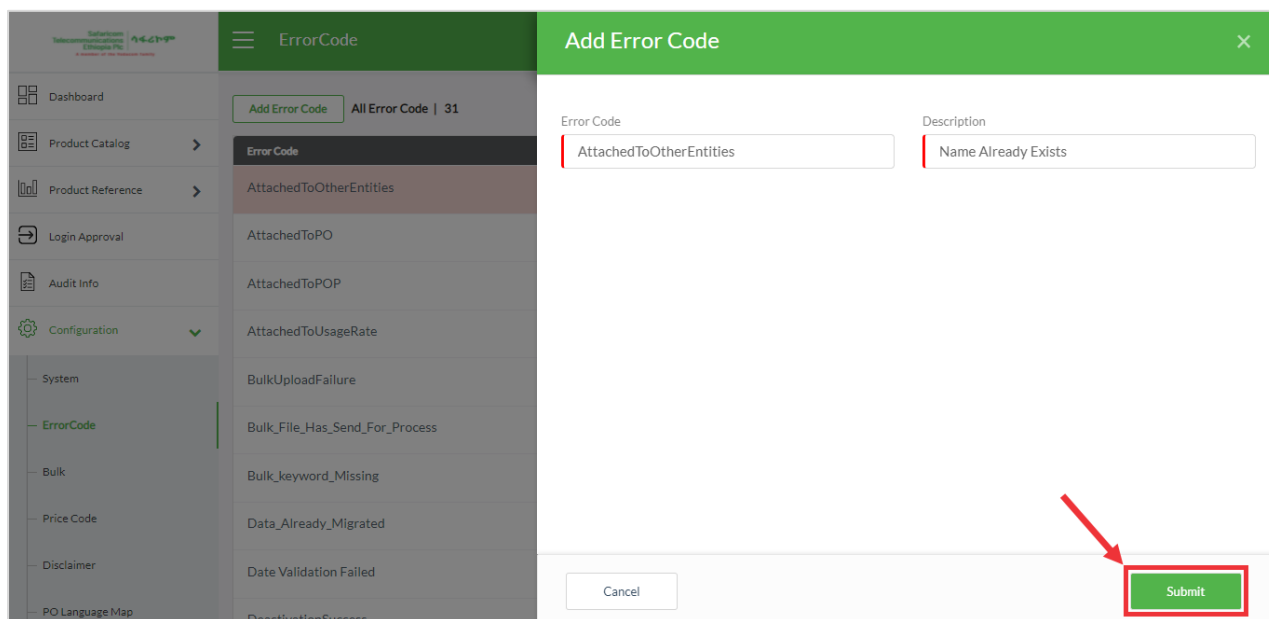

Figure 260 Add Error Code Submit Button

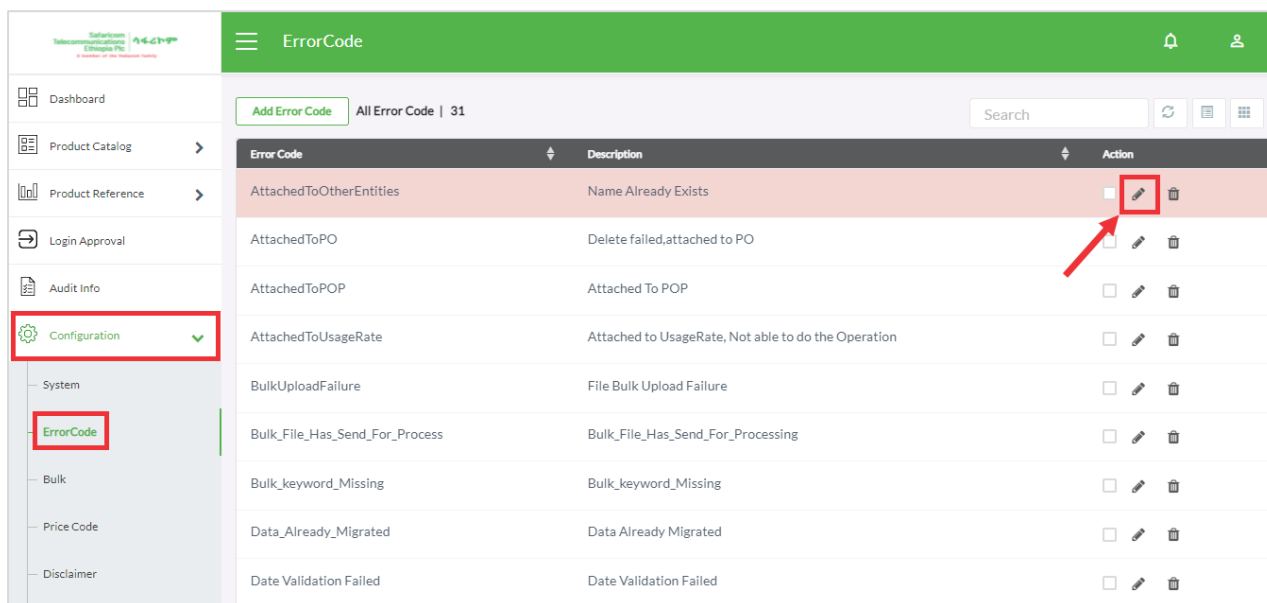

A success message will be displayed, indicating that the Data is submitted successfully.

11.2.2 Modify Error Code

Using this option, you can modify the existing error code details.

To modify the Error Code:

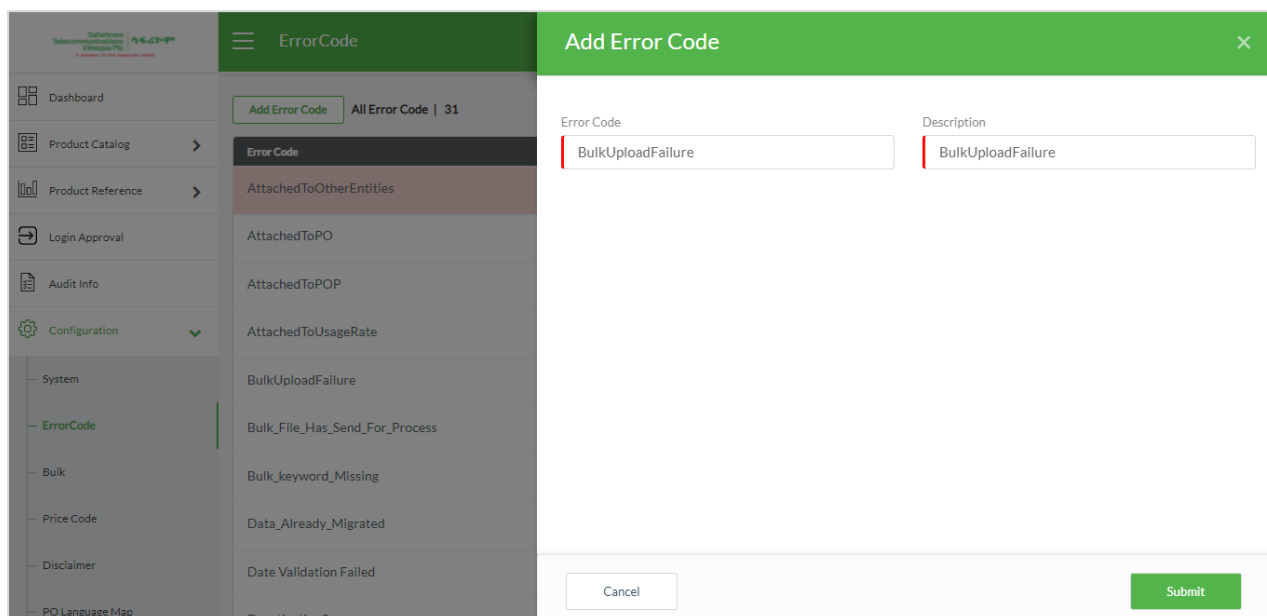

1. On the **Error Code** screen, click the **Modify** button  to modify the existing error code details. Refer to the following screen.

Error Code	Description	Action
AttachedToOtherEntities	Name Already Exists	 
AttachedToPO	Delete failed, attached to PO

A confirmation message will be displayed indicating that the selected **Error Code** is deleted successfully.

Or

Click **“No”** to discard the action.

11.3 Bulk

Using this bulk option, you upload the bulk offer files.

To manage the bulk upload:

1. On the side menu, click the **Configurations >> Bulk** to view the bulk details. Refer to the following screen.

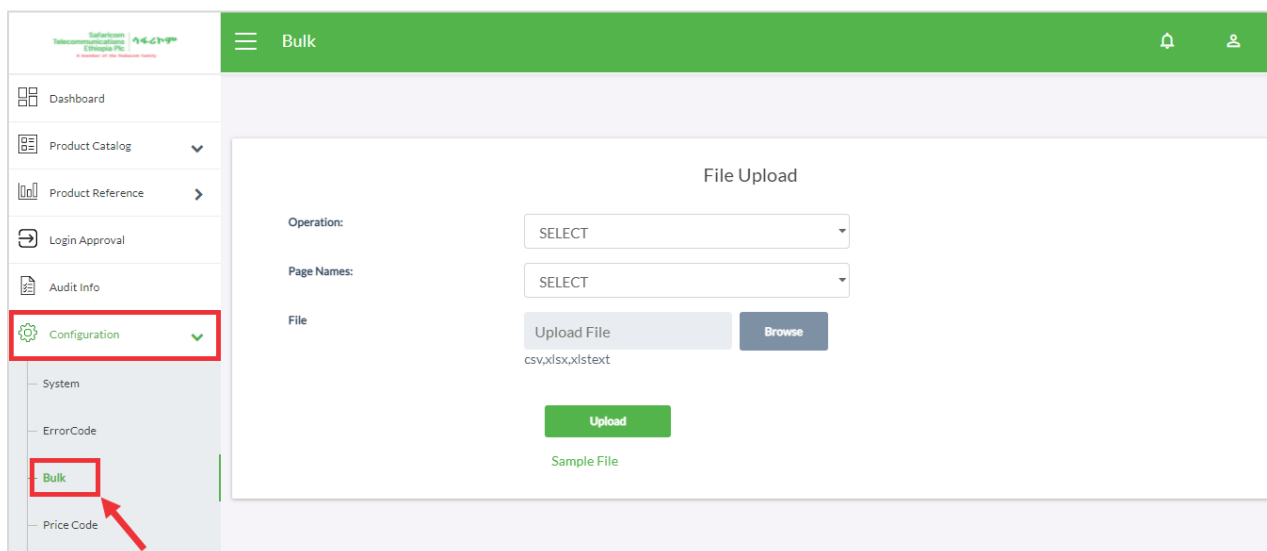

Figure 266 Configurations - Bulk Screen

2. Enter/Select the following details in the corresponding fields.

Field	Description
Operation	Select the operation in the drop-down list. For example, Create, Modify, and so on.
Page Names	Select the page names in the drop-down list. For example, PO.
File	Click the Browse button to upload the bulk file. Note: Only csv,xlsx,xltext format files are supported to upload.

- After selecting the required details, click the **Upload** button to upload the details. Refer to the following screen.

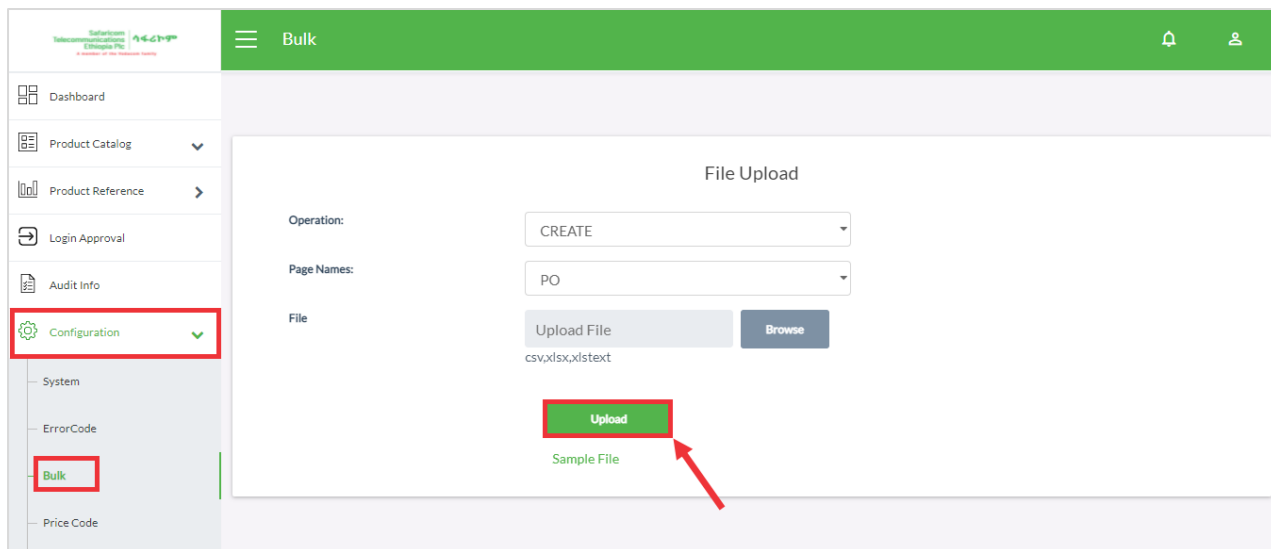

Figure 267 Bulk - Upload Button

A success message will be displayed, indicating that the file is uploaded successfully.

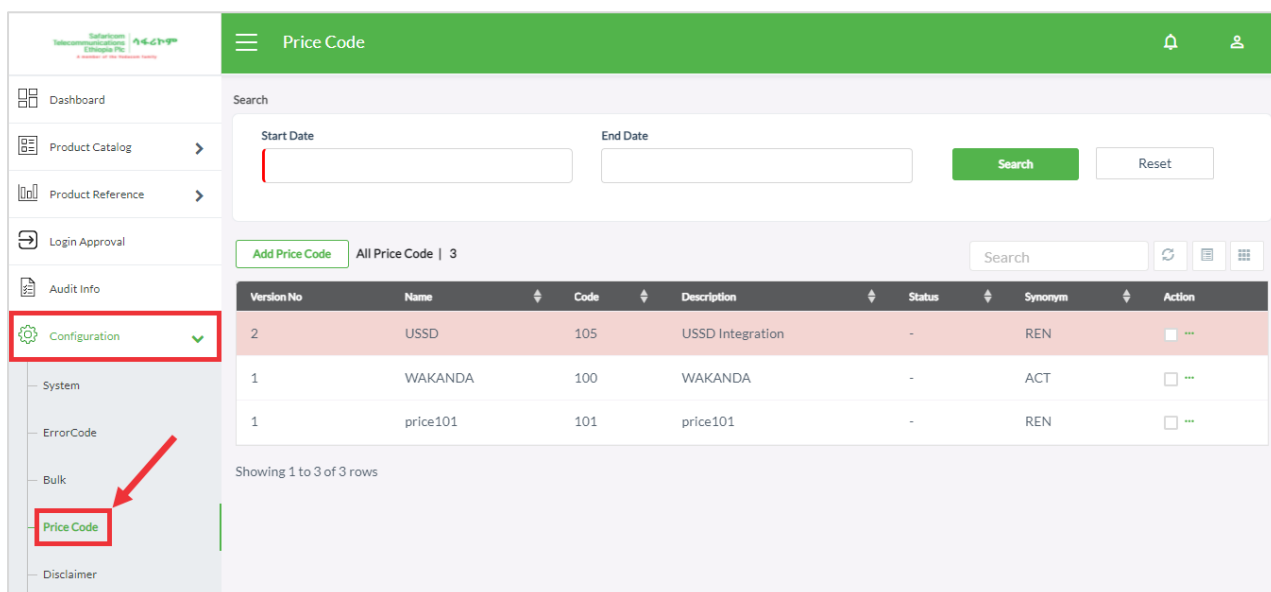

- Click the **Sample File** button to view the sample files.

11.4 Price Code

Using this option, you can add and manage the price code for specific products. You can also view, modify, copy, and delete the existing price codes.

To manage the Price Code:

- On the side menu, click the **Configurations >> Price Code** to view the price code screen. Refer to the following screen.

Version No	Name	Code	Description	Status	Synonym	Action
2	USSD	105	USSD Integration	-	REN	 
1	WAKANDA	100	WAKANDA	-	ACT	 
1	price101	101	price101	-	REN	 

Showing 1 to 3 of 3 rows

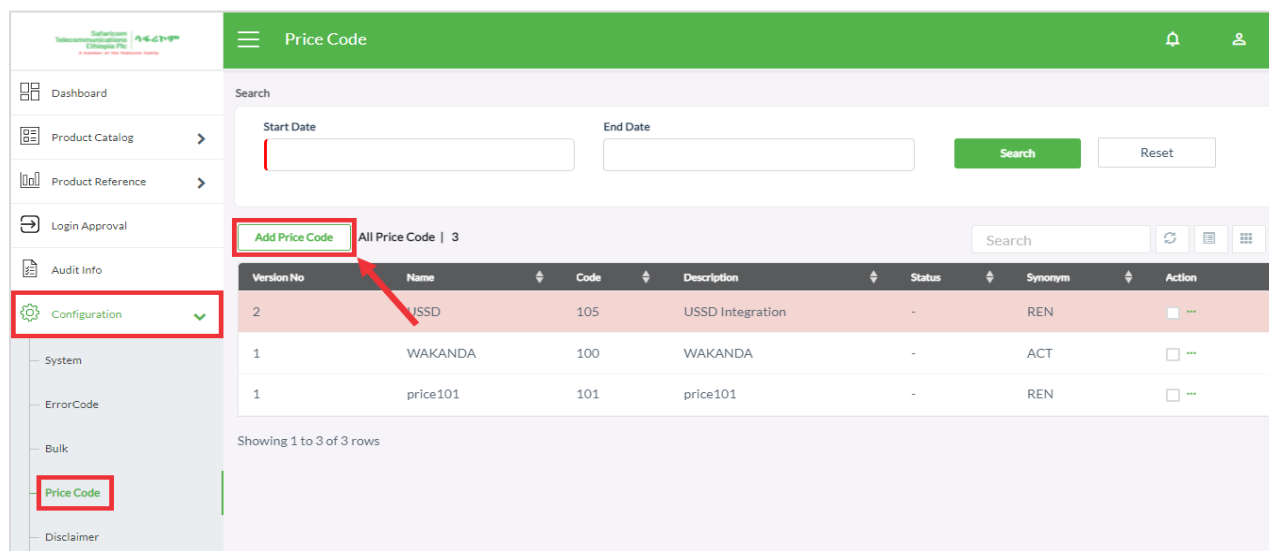

Figure 268 Configurations Price Code Screen

11.4.1 Add Price Code

Using this option, you can add the new price code.

To add a new Price Code:

1. On the **Price Code** screen, click the **Add Price Code** button to add the new price code. Refer to the following screen.

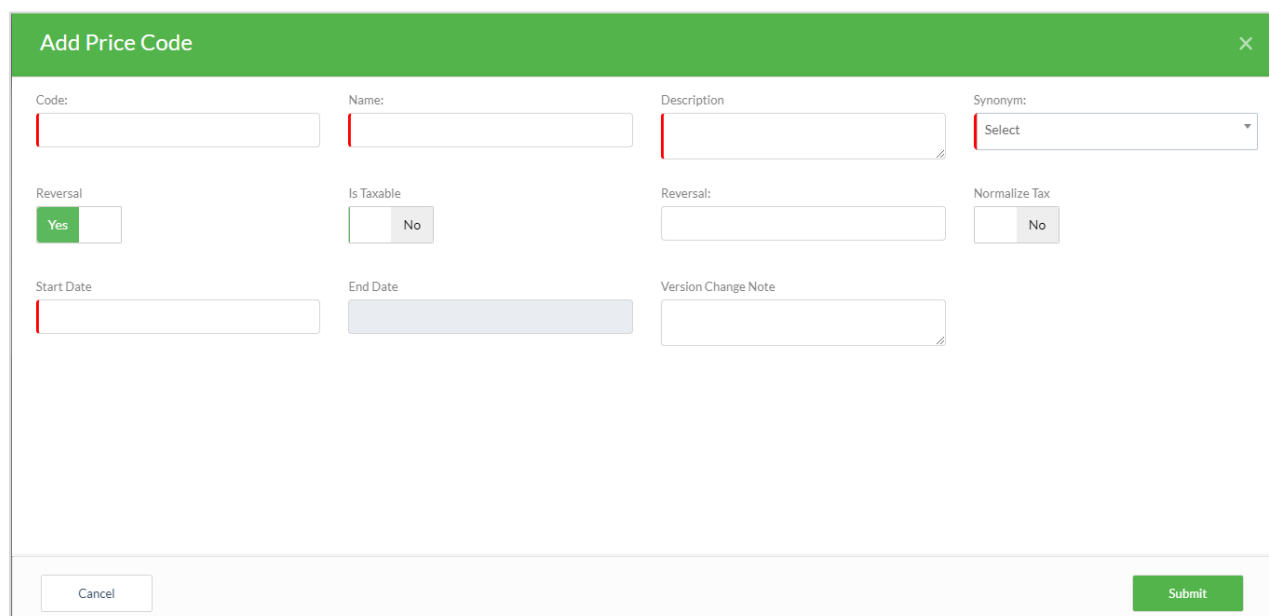

The screenshot shows the 'Price Code' management interface. On the left sidebar, 'Configuration' and 'Price Code' are highlighted. The main area displays a table of existing price codes. The 'Add Price Code' button is highlighted in the top left of the main area.

Version No	Name	Code	Description	Status	Synonym	Action
2	USSD	105	USSD Integration	-	REN	☐ ...
1	WAKANDA	100	WAKANDA	-	ACT	☐ ...
1	price101	101	price101	-	REN	☐ ...

Showing 1 to 3 of 3 rows

Figure 269 Add Price Code Button

2. After clicking the **Price Code** button, the following screen will be displayed.

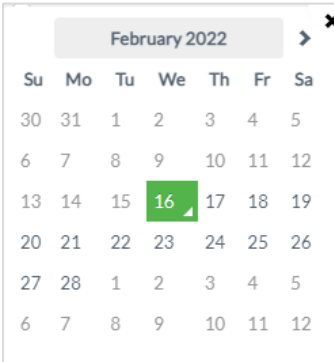

The screenshot shows the 'Add Price Code' details form. The form contains the following fields:

- Code:
- Name:
- Description:
- Synonym:
- Reversal: ☐ Yes ☐ No
- Is Taxable: ☐ Yes ☐ No
- Start Date:
- End Date:
- Version Change Note:

Buttons: Cancel, Submit

Figure 270 Add Price Code Details Screen

3. Enter/Select the following details in the corresponding fields. If the fields are marked with "!" is mandatory.

Field	Description
Code	Enter the unique reference code of the price.
Name	Enter the name of the price.
Description	Enter the description of the price.
Synonym	Select the synonym of the price code. For example, REN or SCT .
Reversal	Click "Yes" if it is a Reversal. Or Click "No" .
Is Taxable	Click "Yes" if it is an Is Taxable. Or Click "No" .
Reversal	Enter the Reversal of the Price. Note: This field will be selected when the Reversal is selected as "Yes" .
Normalize Tax	Click "Yes" if it is a Normalize Tax. Or Click "No" .
Charge Group Id	Select the Charge Group ID in the drop-down list.
Start Date	Select the Start Date from the calendar. 
End Date	End date will be selected by default based on the selected start date.
Version Change Note	Enter the version change note of the price code.

4. After entering all the required details, click the **Submit** button. Refer to the following screen.

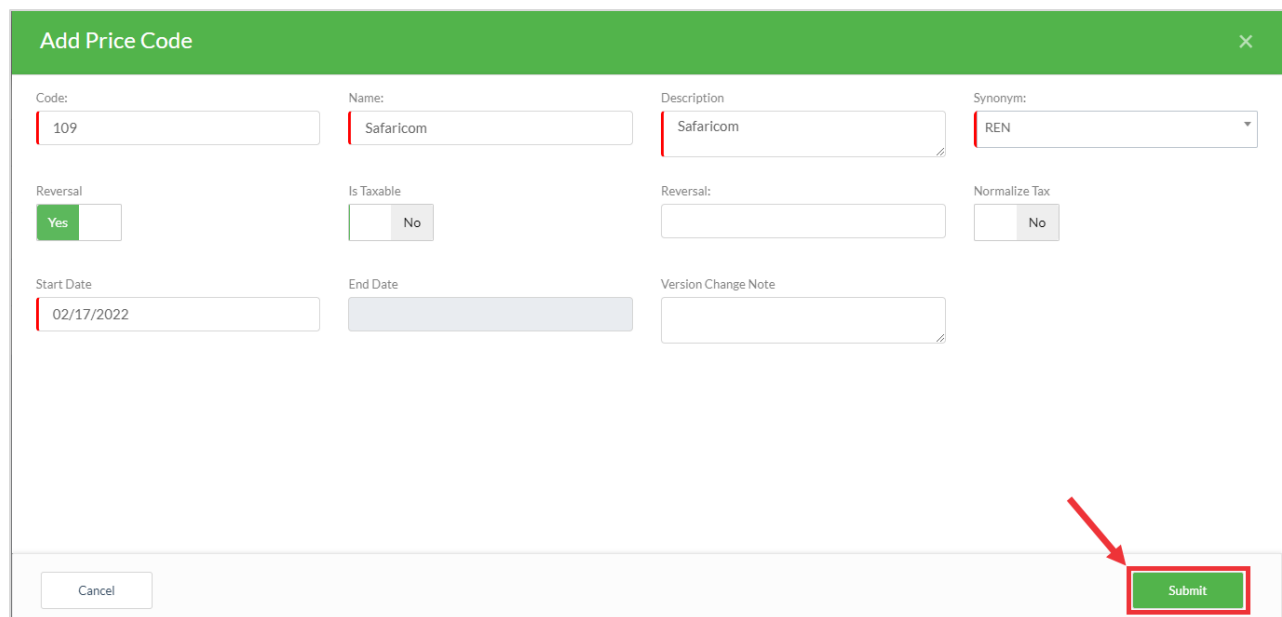

Figure 271 Add Price Code Submit Button

A success message will be displayed, indicating that the Data is submitted successfully.

11.4.2 View Price Code

Using this option, you can view the existing price code details.

To view the Price Code:

1. On the **Price Code** screen, click the **View** button  to view the existing price code details. Refer to the following screen.

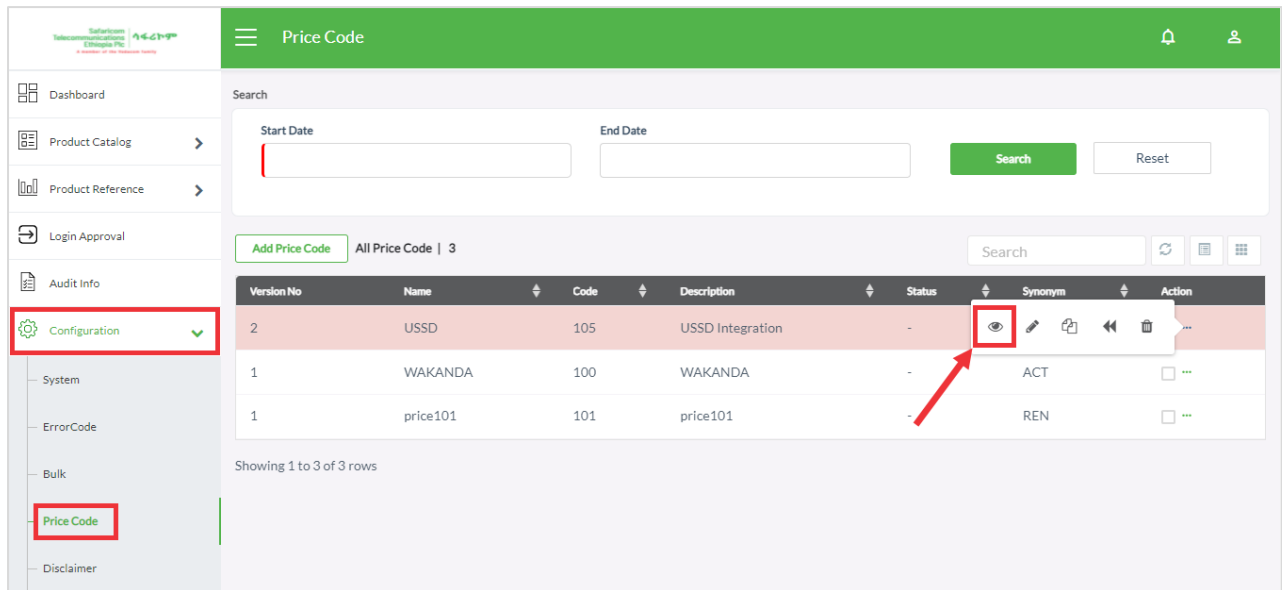

Figure 272 Price Code - View Button

2. After clicking the **View** button, the following screen will be displayed.

Start Date: 11/19/2021 | End Date: | Version Change Note:

Cancel | Submit

Figure 275 Modify Price Code Details Screen

Note: While modifying the Price Code, the start date should be higher than the previous version start date but not less than the current date.

3. Modify the necessary details and click the **Submit** button. Refer to the following screen.

Figure 276 Modify Price Code Submit Button

A success message will be displayed, indicating that the Data is submitted successfully.

11.4.4 Copy Price Code

Using this option, you can copy the existing price code details.

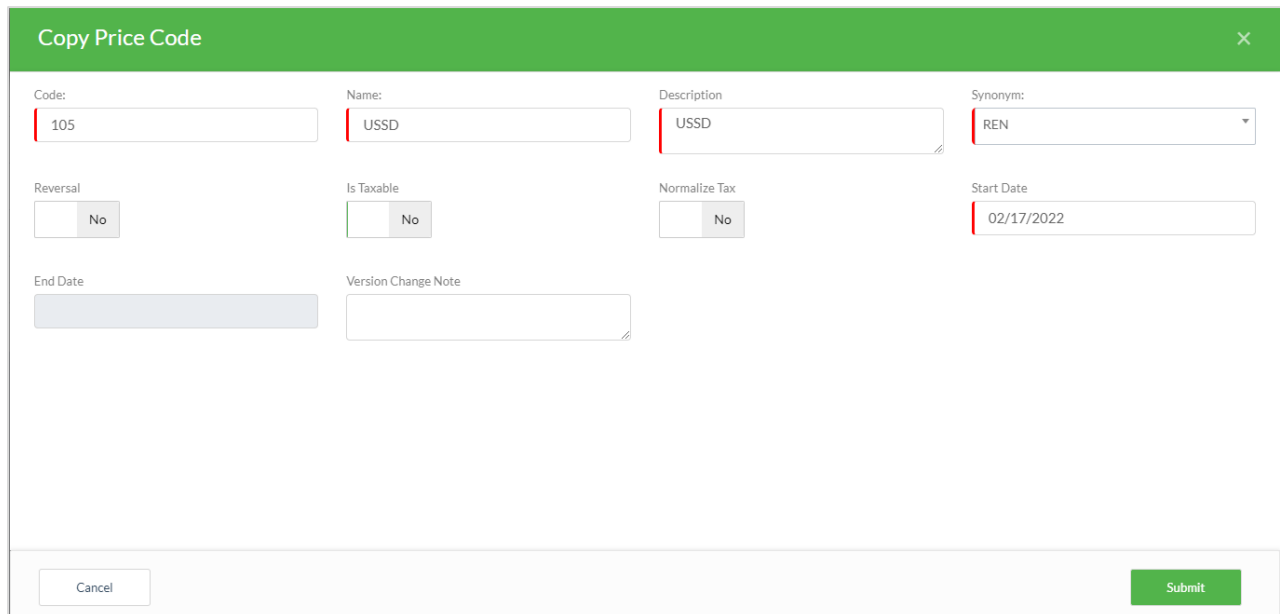

To copy the Product Price Code:

1. On the **Price Code** screen, click the **Copy** button  to copy the existing price code details. Refer to the following screen.

Version No	Name	Code	Description	Status	Synonym	Action
2	USSD	105	USSD Integration	-		
1	WAKANDA	100	WAKANDA	-	ACT	
1	price101	101	price101	-	REN	

Figure 277 Price Code Copy Button

2. After clicking the **Copy** button, the following screen will be displayed.

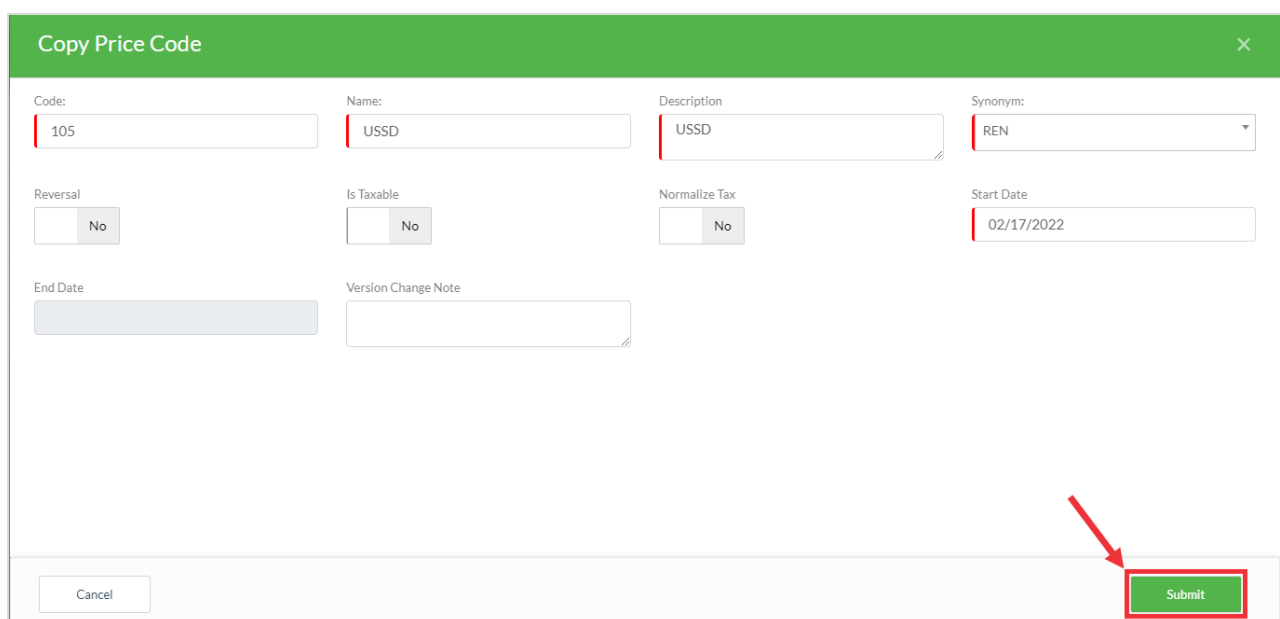

The screenshot shows a 'Copy Price Code' dialog box with a green header and a close button (X) in the top right corner. The form contains the following fields and controls:

- Code:** Text input field containing '105'.
- Name:** Text input field containing 'USSD'.
- Description:** Text input field containing 'USSD'.
- Synonym:** Dropdown menu with 'REN' selected.
- Reversal:** Toggle switch set to 'No'.
- Is Taxable:** Toggle switch set to 'No'.
- Normalize Tax:** Toggle switch set to 'No'.
- Start Date:** Text input field containing '02/17/2022'.
- End Date:** Empty text input field.
- Version Change Note:** Empty text area.

At the bottom of the dialog, there is a 'Cancel' button on the left and a green 'Submit' button on the right.

Figure 278 Copy Price Code Details Screen

- Copy the required price code details and click the **Submit** button. Refer to the following screen.

This screenshot is identical to Figure 278, showing the 'Copy Price Code' dialog box. A red arrow points to the green 'Submit' button at the bottom right, which is also enclosed in a red rectangular box to highlight it.

Figure 279 Copy Price Code Submit Button

A confirmation message will be displayed indicating that the Data is submitted successfully.

11.4.5 Delete Price Code

Using this option, you can delete the existing price code.

To delete the Price Code:

1. On the **Price Code** screen, click the **Delete** button  to delete the existing price code. Refer to the following screen.

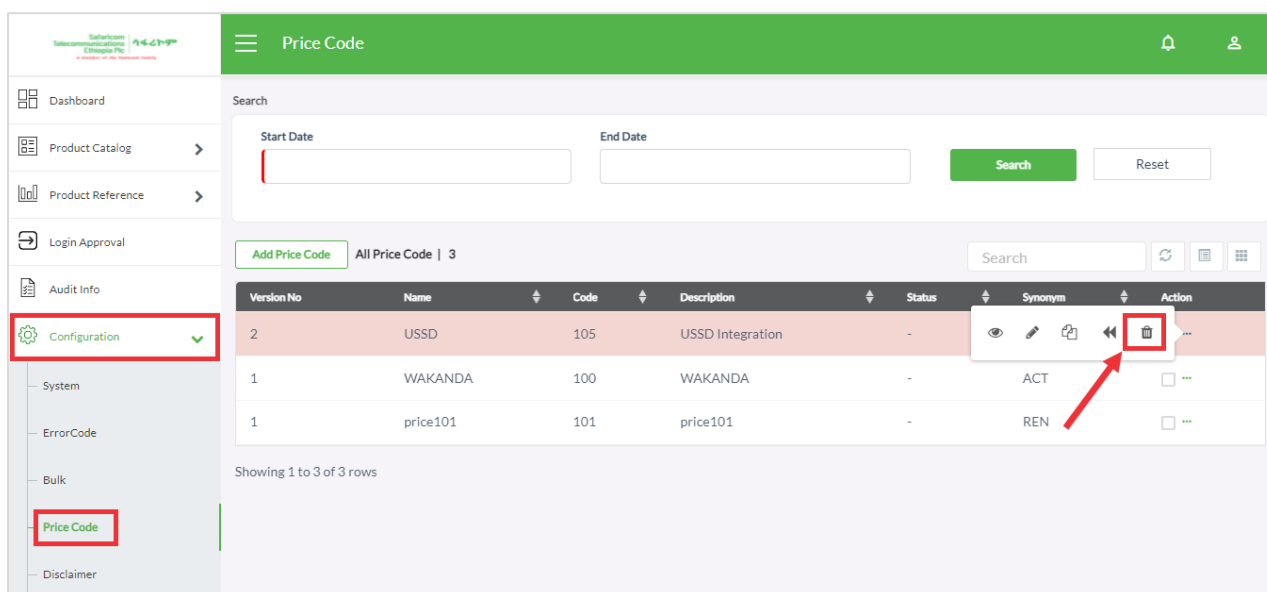

Figure 280 Price Code Delete Button

2. After clicking the **Delete** button, the following End Date screen will be displayed.

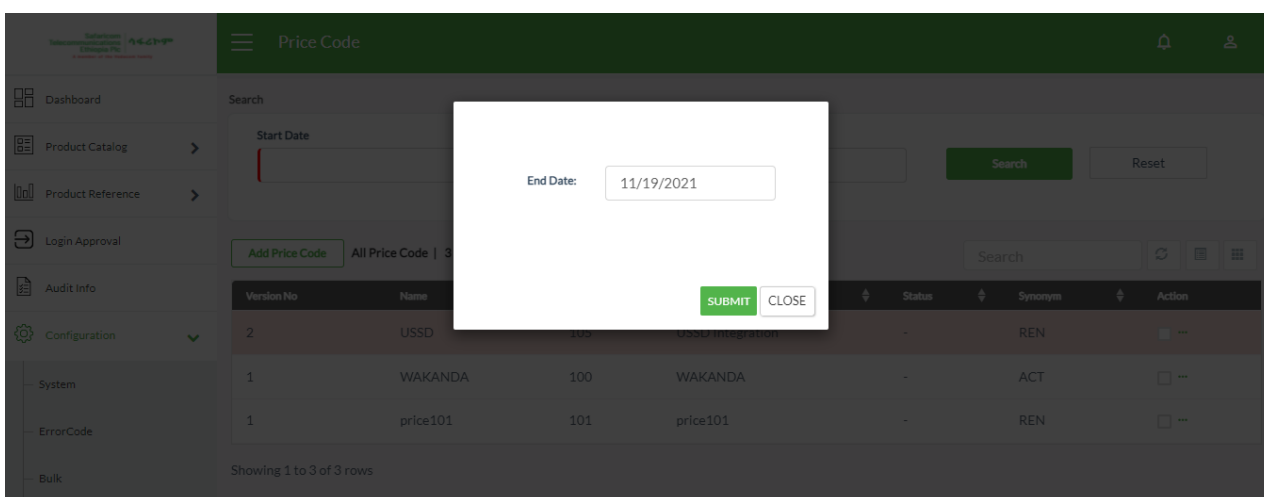

Figure 281 Delete Price Code End Date Details Screen

3. Select the End Date from the calendar and click the **Submit** button. Refer to the following screen.

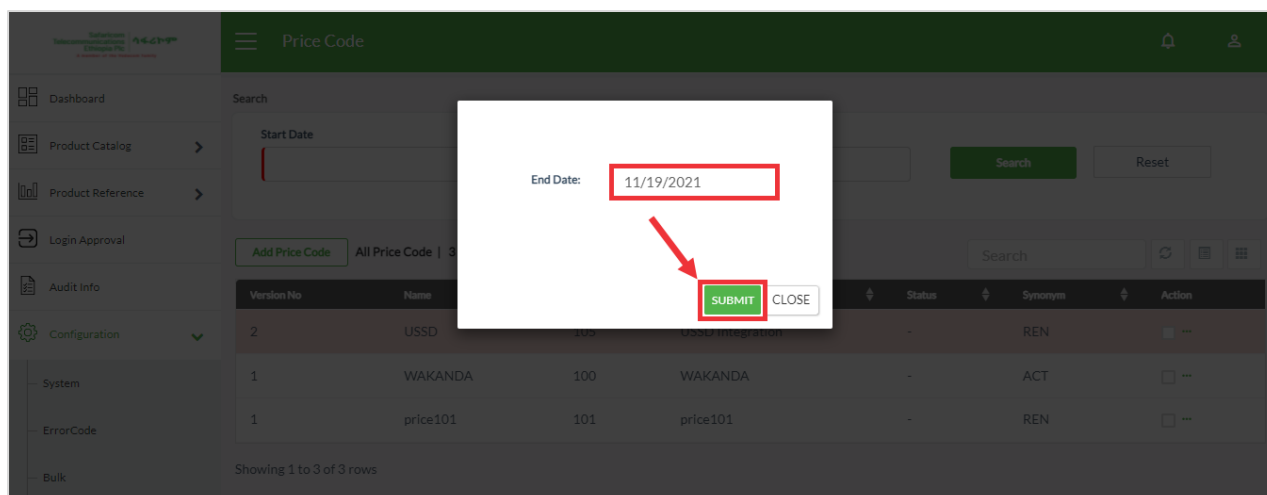

Figure 282 Delete Price Code Submit Button

Note: While deleting the Price Code, the end date should be higher than the previous version start date but not less than the current date.

A success message will be displayed, indicating that the data is submitted successfully.

11.5 Disclaimer

Using this option, you can add the disclaimer information about the product offers. You can also view, modify, copy, and delete the existing disclaimer details.

To manage the Disclaimer:

1. On the side menu, click the **Configurations >> Disclaimer** to view the disclaimer screen. Refer to the following screen.

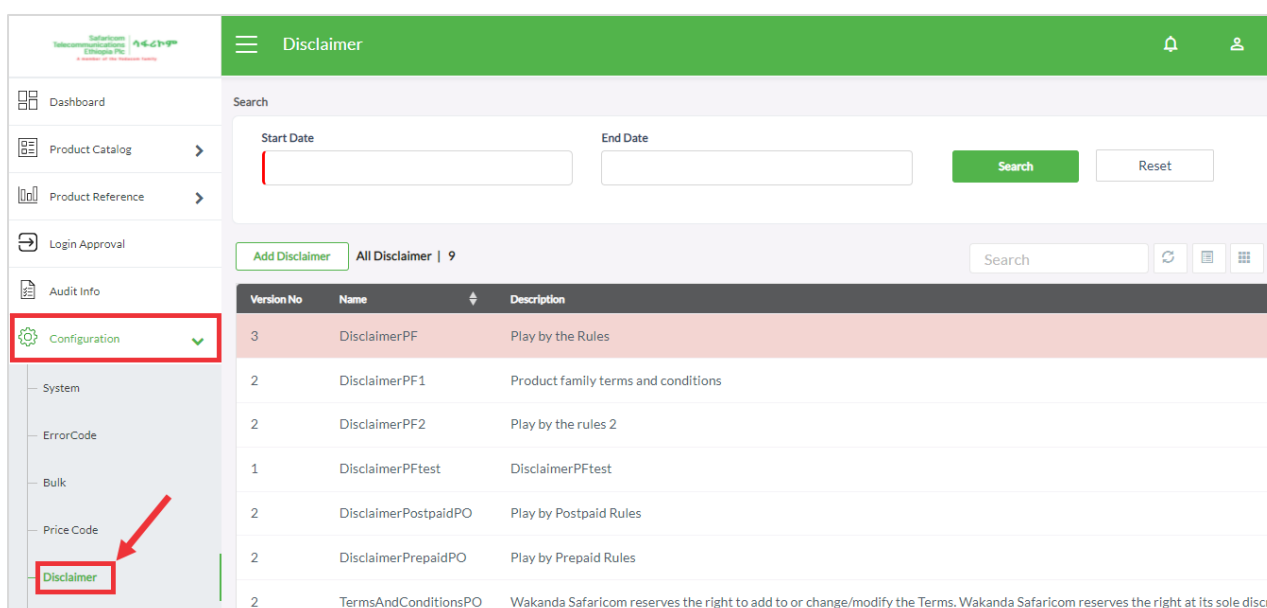

Figure 283 Configuration - Disclaimer Screen

11.5.1 Add Disclaimer

Using this option, you can add the new disclaimer.

To add a new Disclaimer:

1. On the **Disclaimer** screen, click the **Add Disclaimer** button to add the new disclaimer. Refer to the following screen.

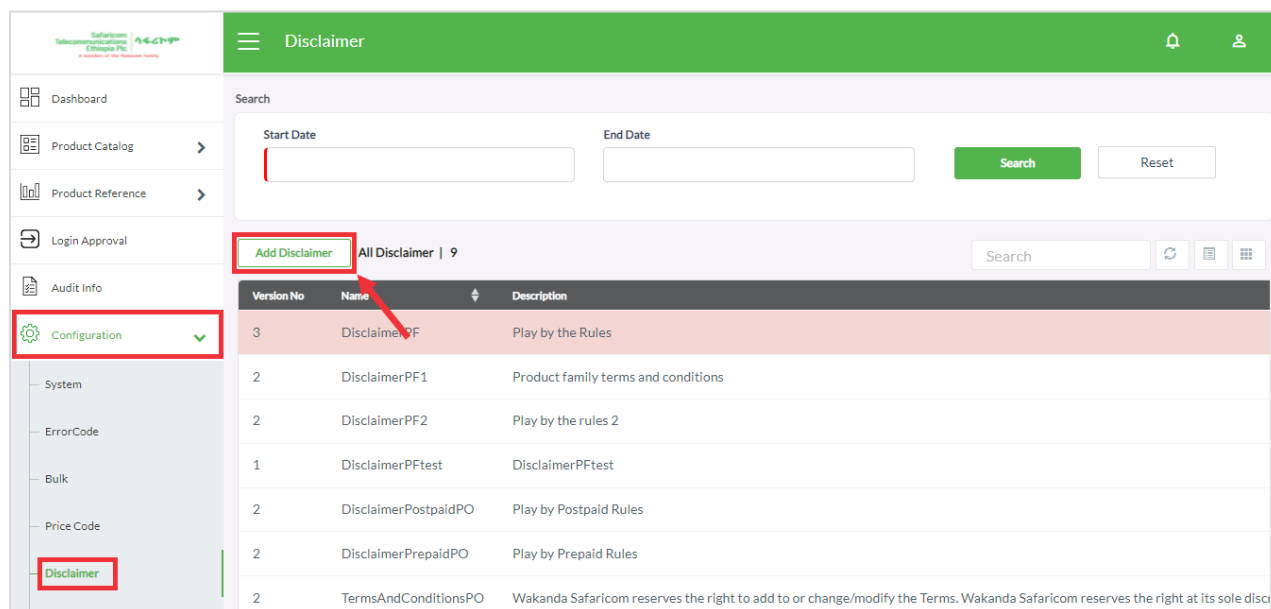

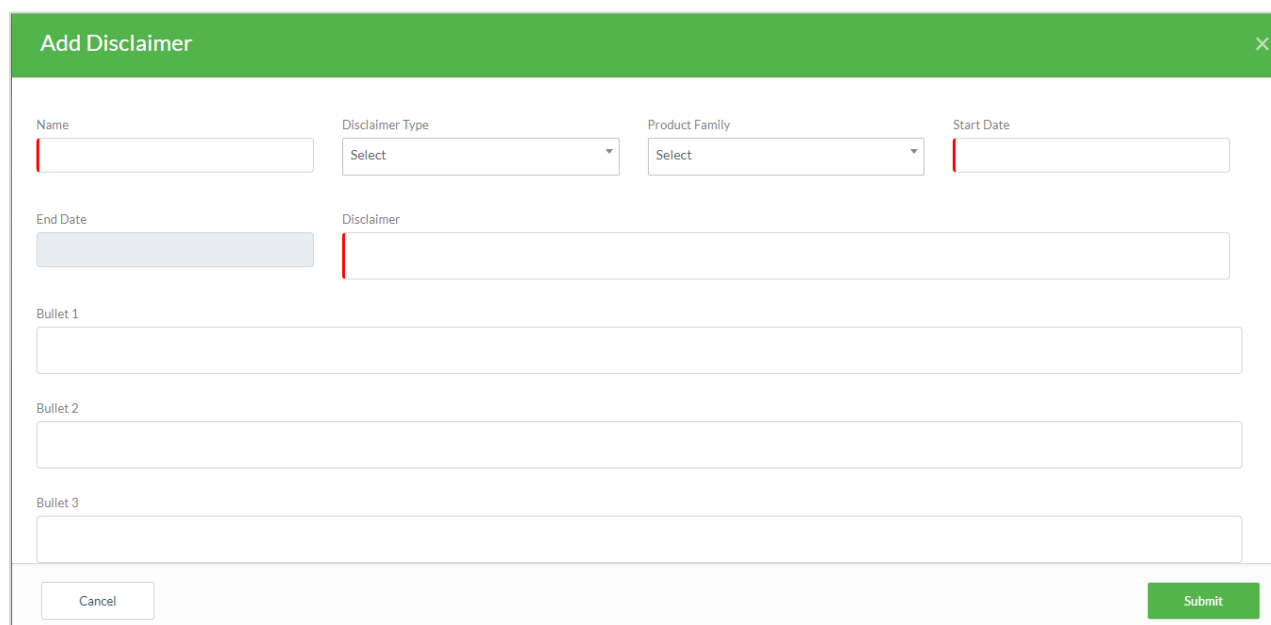

Figure 284 Add Disclaimer Button

2. After clicking the **Add Disclaimer** button, the following screen will be displayed.

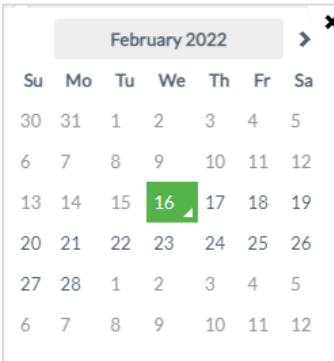

The 'Add Disclaimer' form is displayed with the following fields and controls:

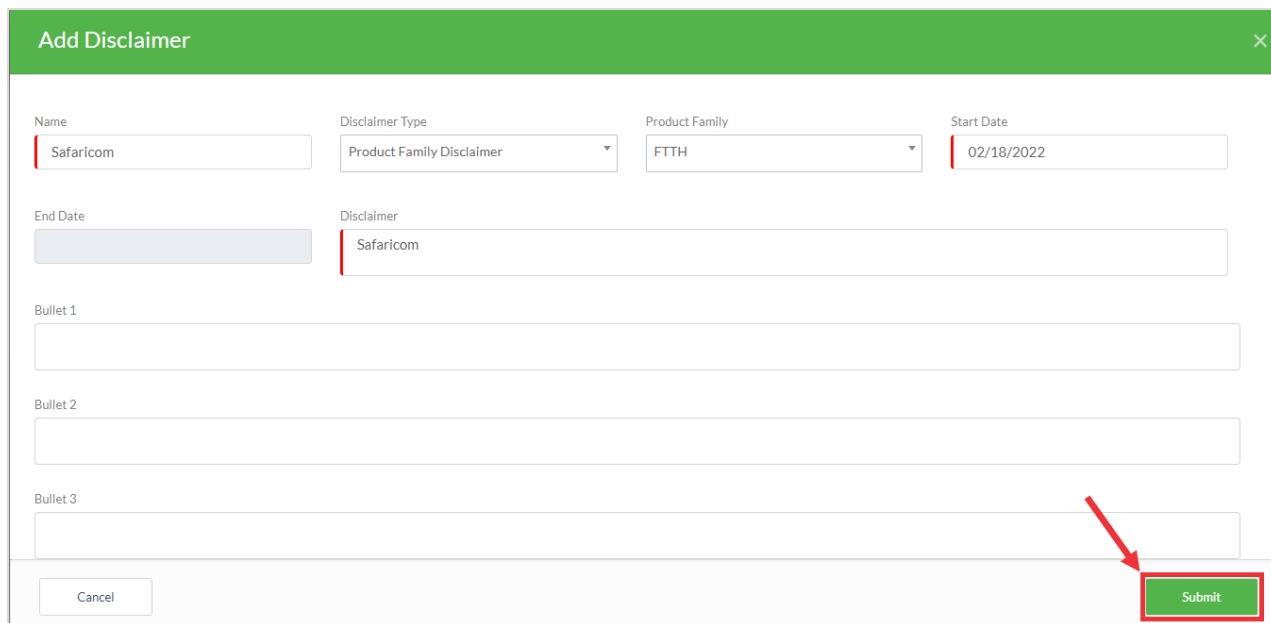

- Name:** Text input field.
- Disclaimer Type:** Dropdown menu with 'Select' as the current value.
- Product Family:** Dropdown menu with 'Select' as the current value.
- Start Date:** Text input field.
- End Date:** Text input field.
- Disclaimer:** Large text area for the main disclaimer text.
- Bullet 1, Bullet 2, Bullet 3:** Three separate text input fields for additional details.
- Buttons:** 'Cancel' and 'Submit' buttons at the bottom.

Figure 285 Add Disclaimer Details Screen

3. Enter/Select the following details in the corresponding fields. If the fields are marked with "!" is mandatory.

Field	Description
Name	Enter the name of the disclaimer.
Disclaimer Type	Select the disclaimer type in the drop-down list. For example, Promo Disclaimer, PO Disclaimer, and so on.
Promo Duration	Enter the promo duration time in this field. Note: This field will be displayed when the Disclaimer Type is selected as "Promo Disclaimer".
Campaign	Enter the campaign name of the promo. Note: This field will be displayed when the Disclaimer Type is selected as "Promo Disclaimer".
Product Family	Enter the campaign name of the promo. Note: This field will be displayed when the Disclaimer Type is selected as "Product Family Disclaimer".
Start Date	Select the Start Date from the calendar. 
End Date	End date will be selected by default based on the selected start date.
Disclaimer	Enter the disclaimer information in this field.
Bullet 1	Enter the disclaimer information in bullet 1.
Bullet 2	Enter the disclaimer information in bullet 2.
Bullet 3	Enter the disclaimer information in bullet 3.

- After entering all the required details, click the **Submit** button. Refer to the following screen.

The 'Add Disclaimer' form is displayed with a green header bar. It contains the following fields:

- Name:** Text input field containing 'Safaricom'.
- Disclaimer Type:** Dropdown menu showing 'Product Family Disclaimer'.
- Product Family:** Dropdown menu showing 'FTTH'.
- Start Date:** Text input field containing '02/18/2022'.
- End Date:** Empty text input field.
- Disclaimer:** Text input field containing 'Safaricom'.
- Bullet 1, 2, 3:** Three empty text input fields for additional details.
- Buttons:** 'Cancel' and 'Submit' buttons at the bottom. The 'Submit' button is highlighted with a red box and a red arrow points to it.

Figure 286 Add Disclaimer Submit Button

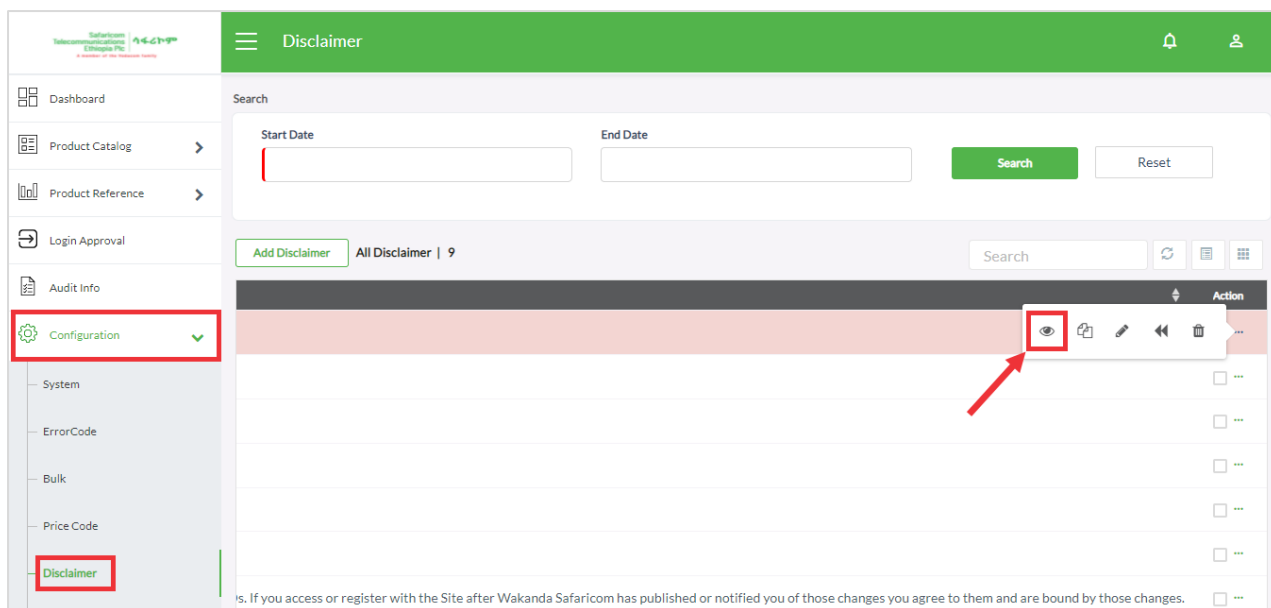

A success message will be displayed, indicating that the Data is submitted successfully.

11.5.2 View Disclaimer

Using this option, you can view the existing disclaimer details.

To view the Disclaimer:

- On the **Disclaimer** screen, click the **View** button  to view the existing disclaimer details. Refer to the following screen.

The 'Disclaimer' screen is shown with a green header bar. It includes a sidebar menu on the left with the following items:

- Dashboard
- Product Catalog
- Product Reference
- Login Approval
- Audit Info
- Configuration** (highlighted with a red box)
- System
- Error Code
- Bulk
- Price Code
- Disclaimer** (highlighted with a red box)

The main content area has a green header bar with the title 'Disclaimer'. Below it is a search bar with 'Start Date' and 'End Date' input fields, a 'Search' button, and a 'Reset' button. Below the search bar is a table with the following columns:

- Add Disclaimer** (button)
- All Disclaimer | 9** (text)
- Search** (input field)
- Action** (column with icons for view, edit, delete, and refresh)

The table contains one row with a red background, which is highlighted with a red box and a red arrow points to the 'View' icon in the 'Action' column.

Figure 287 Disclaimer - View Button

2. After clicking the **View** button, the following screen will be displayed.

The 'View Disclaimer' screen displays the following information:

- ID:** 2
- Name:** DisclaimerPF
- Disclaimer Type:** Product Family Disclaimer
- Product Family:** GSM
- Start Date:** 11/23/2021
- End Date:** (empty field)
- Disclaimer:** Play by the Rules
- Bullet 1:** (empty field)
- Bullet 2:** (empty field)
- Cancel** button at the bottom left.

Figure 288 View Disclaimer Details Screen

11.5.3 Modify Disclaimer

Using this option, you can modify the existing disclaimer details.

To modify the Disclaimer:

1. On the **Disclaimer** screen, click the **Modify** button  to modify the existing disclaimer details. Refer to the following screen.

The 'Disclaimer' screen shows a sidebar with 'Configuration' and 'Disclaimer' highlighted. The main area displays a table of disclaimers. The first row is highlighted in red, and its action column contains a pencil icon (Modify button) which is circled in red with an arrow pointing to it.

Figure 289 Disclaimer Modify Button

2. After clicking the **Modify** button, the following screen will be displayed.

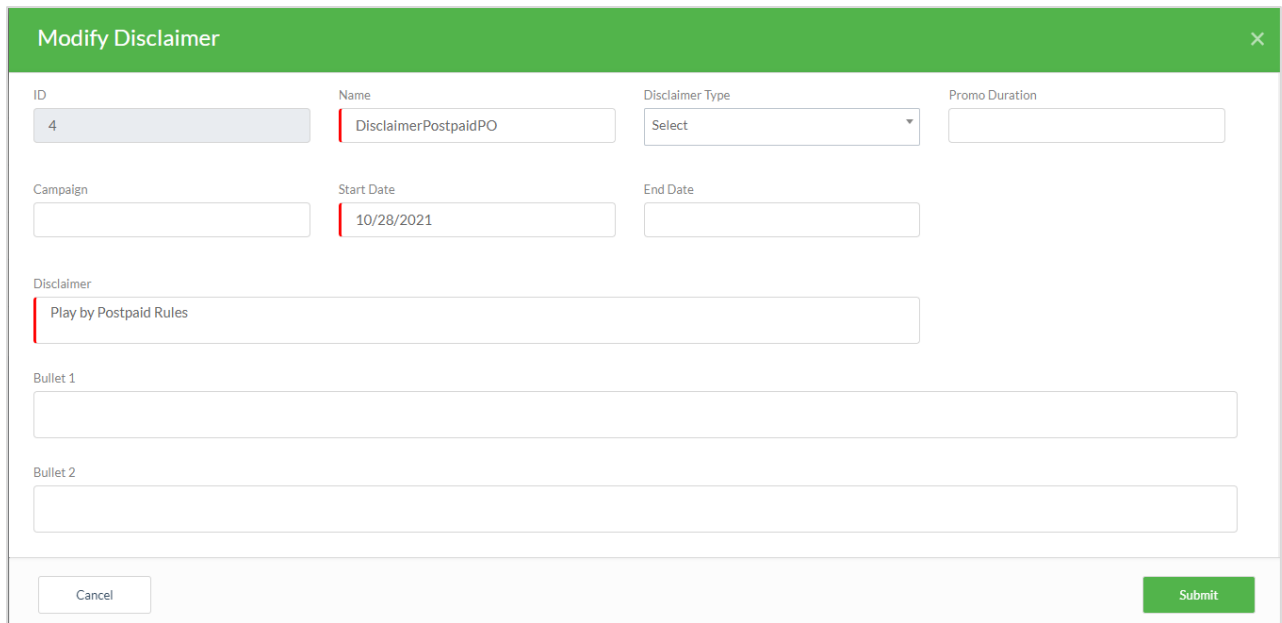

Figure 290 Modify Disclaimer Details Screen

Note: While modifying the Disclaimer, the start date should be higher than the previous version start date but not less than the current date.

3. Modify the necessary details and click the **Submit** button. Refer to the following screen.

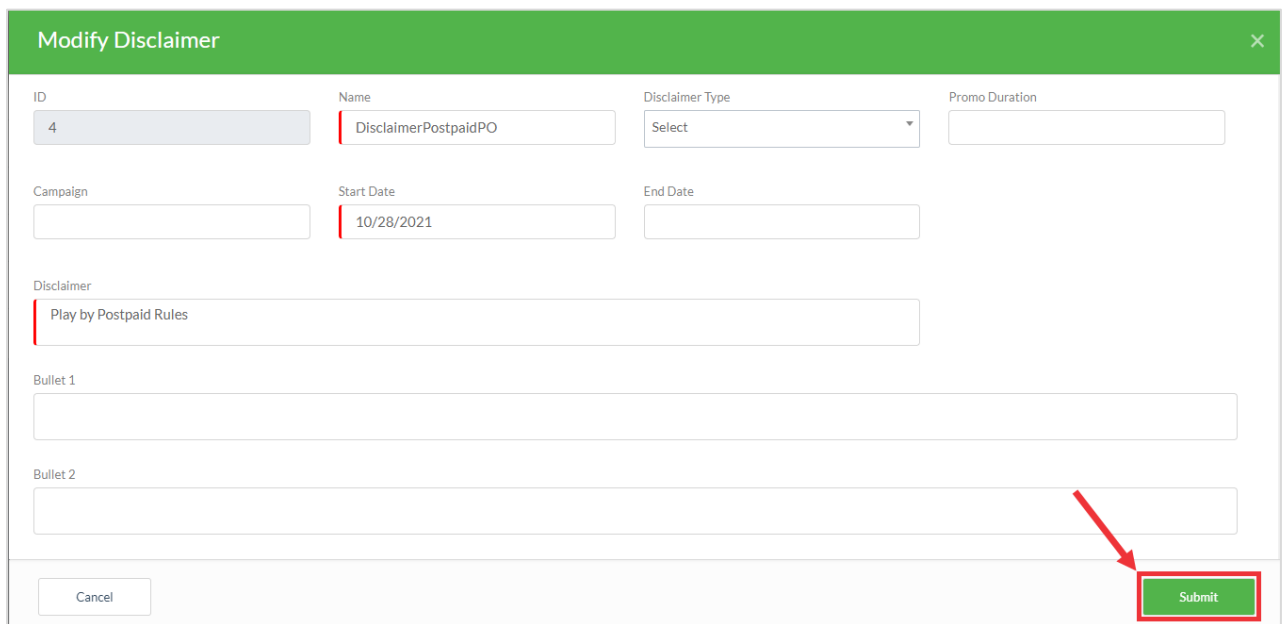

Figure 291 Modify Disclaimer Submit Button

A success message will be displayed, indicating that the Data is submitted successfully.

11.5.4 Copy Disclaimer

Using this option, you can copy the existing disclaimer details.

To copy the Disclaimer:

1. On the **Disclaimer** screen, click the **Copy** button  to copy the existing disclaimer details. Refer to the following screen.

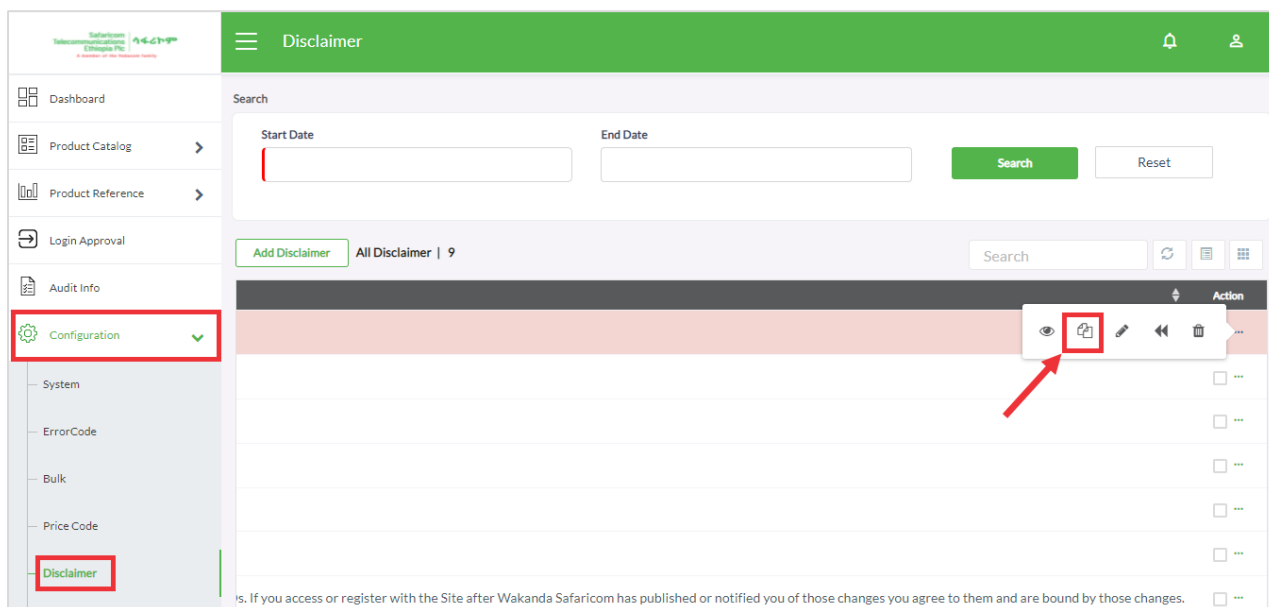

Figure 292 Disclaimer Copy Button

2. After clicking the **Copy** button, the following screen will be displayed.

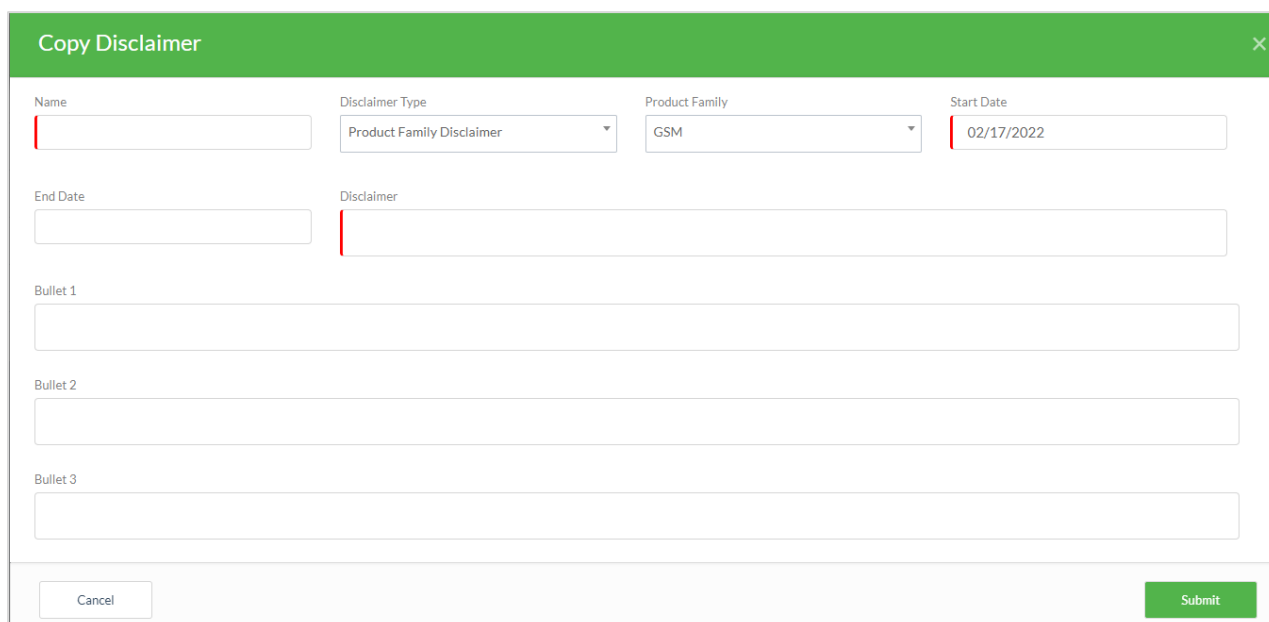

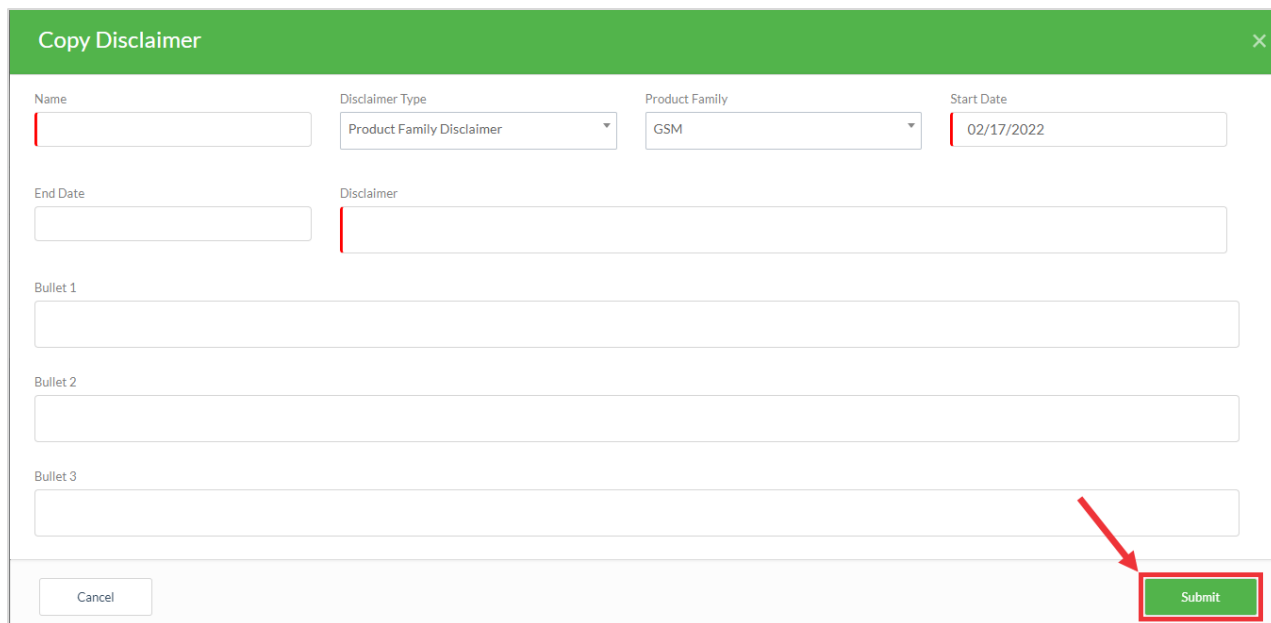

Figure 293 Copy Disclaimer Details Screen

- Copy the required disclaimer details and click the **Submit** button. Refer to the following screen.

The 'Copy Disclaimer' form is displayed with a green header bar. It contains several input fields: 'Name' (text), 'Disclaimer Type' (dropdown menu showing 'Product Family Disclaimer'), 'Product Family' (dropdown menu showing 'GSM'), 'Start Date' (text field showing '02/17/2022'), 'End Date' (text), and 'Disclaimer' (text). Below these are three bullet points labeled 'Bullet 1', 'Bullet 2', and 'Bullet 3', each with a corresponding text area. At the bottom left is a 'Cancel' button, and at the bottom right is a green 'Submit' button, which is highlighted with a red rectangle and a red arrow pointing to it.

Figure 294 Copy Disclaimer Submit Button

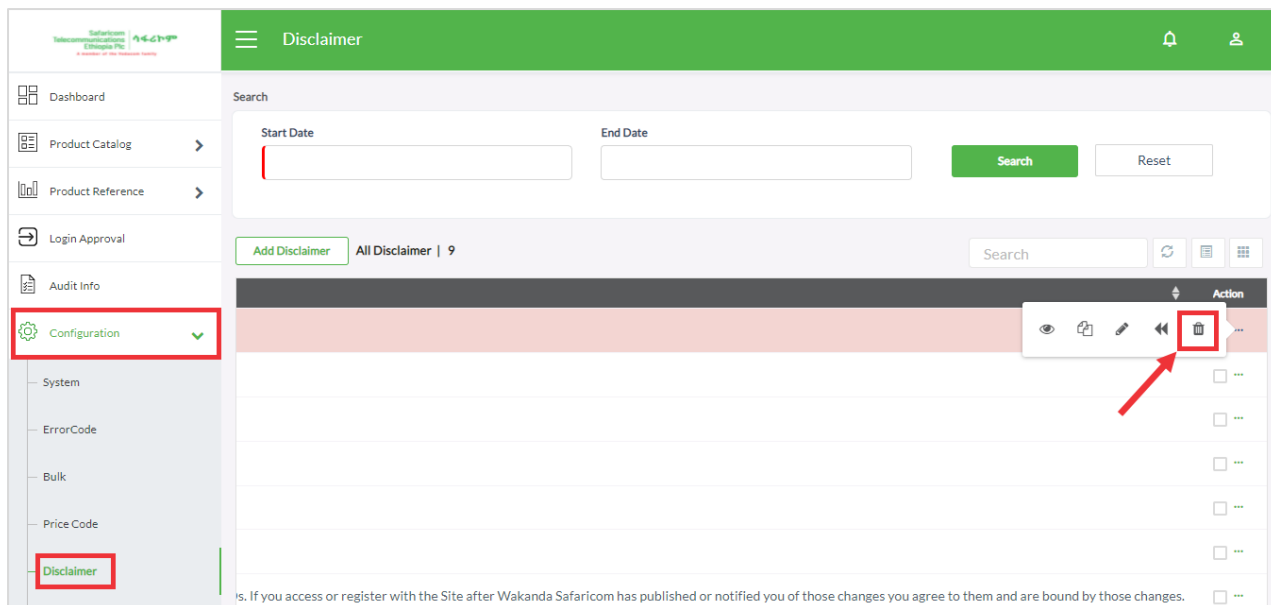

A success message will be displayed, indicating that the Data is submitted successfully.

11.5.5 Delete Disclaimer

Using this option, you can delete the existing disclaimer.

To delete the Disclaimer:

- On the **Disclaimer** screen, click the **Delete** button  to delete the existing disclaimer. Refer to the following screen.

The 'Disclaimer' management screen is shown. On the left is a sidebar with a menu including 'Dashboard', 'Product Catalog', 'Product Reference', 'Login Approval', 'Audit Info', 'Configuration' (highlighted with a red box and a green checkmark), and 'Disclaimer' (highlighted with a red box). The main area has a green header 'Disclaimer' and a search bar with 'Start Date' and 'End Date' fields, a 'Search' button, and a 'Reset' button. Below the search bar is a table with columns for 'Add Disclaimer', 'All Disclaimer | 9', and 'Action'. The 'Action' column contains icons for view, edit, and delete. The delete icon (trash can) is highlighted with a red box and a red arrow. At the bottom, there is a disclaimer text: 'If you access or register with the Site after Wakanda Safaricom has published or notified you of those changes you agree to them and are bound by those changes.'

A success message will be displayed indicating that the Data is submitted successfully.

11.8.4 Delete Context Parameter

Using this option, you can delete the existing context parameter.

To delete the Context Parameter:

1. On the **Context Parameters** screen, click the **Delete** button  to delete the existing context parameter. Refer to the following screen.

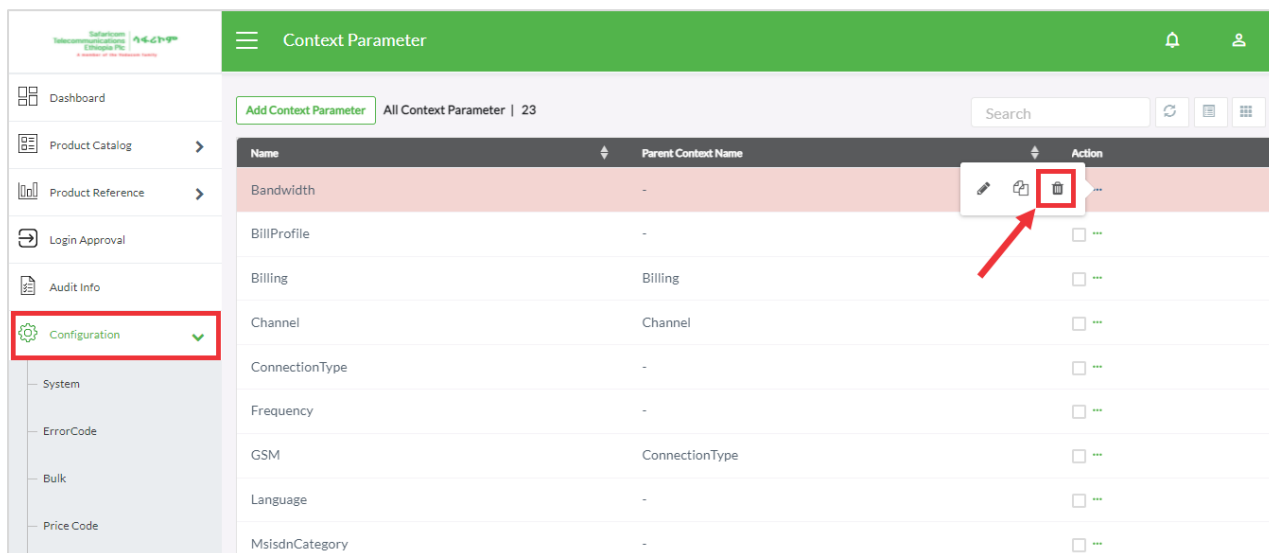

Figure 338 Context Parameters Delete Button

2. After clicking the **Delete** button, the following confirmation message will be displayed.

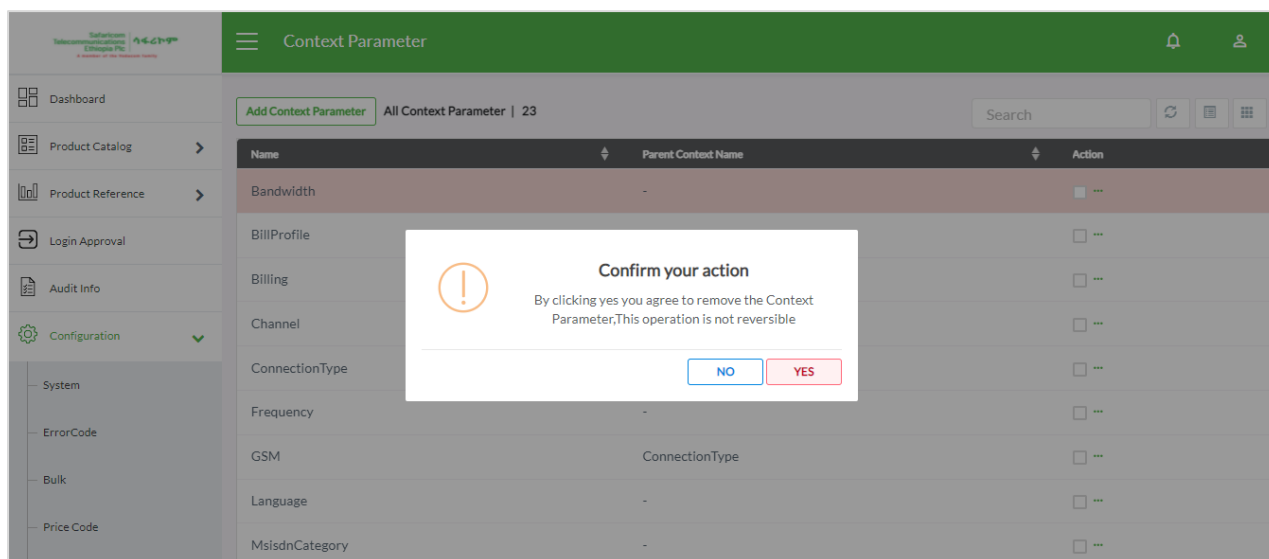

Figure 339 Confirmation Message

- If you receive the confirmation message, **"By clicking yes you agree to remove the context parameter. This operation is not reversible"**. Click **"Yes"** to confirm the action.

A confirmation message will be displayed indicating that the selected **Context Parameter** is deleted successfully.

Or

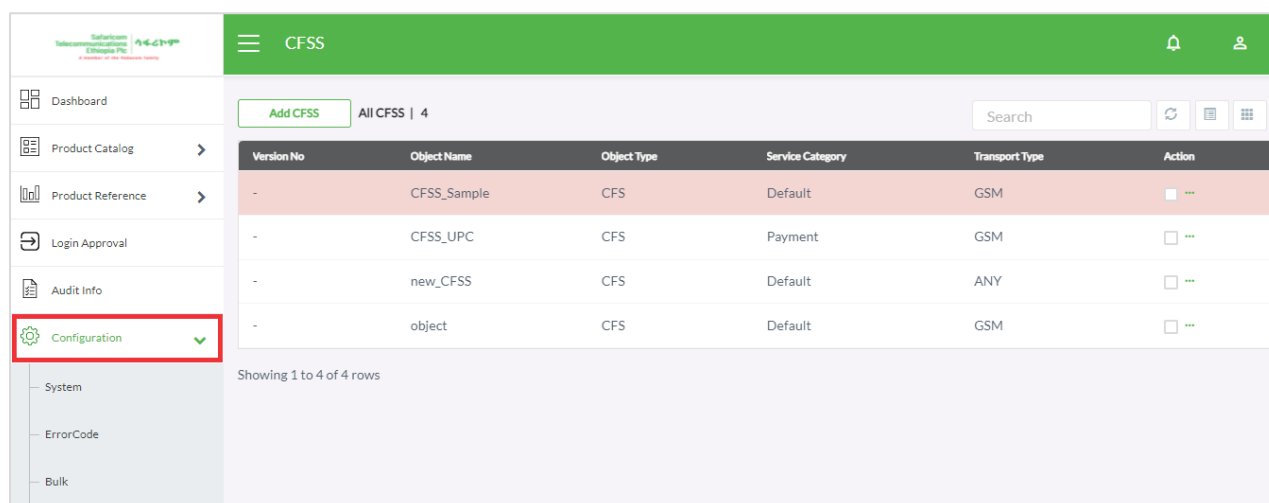

Click **"No"** to discard the action.

11.9 CFSS

Using this option, you can add and manage CFFS for specific services. You can also modify, copy, and delete the existing CFSS details.

To manage the CFSS:

- On the side menu, click the **Configurations >> CFSS** to view the CFSS details. Refer to the following screen.

Version No	Object Name	Object Type	Service Category	Transport Type	Action
-	CFSS_Sample	CFS	Default	GSM	☐ ...
-	CFSS_UPC	CFS	Payment	GSM	☐ ...
-	new_CFSS	CFS	Default	ANY	☐ ...
-	object	CFS	Default	GSM	☐ ...

Showing 1 to 4 of 4 rows

11.9.1 Add CFSS

Using this option, you can add the new CFSS.

To add the new CFSS:

1. On the **CFSS** screen, click the **Add CFSS** button to add a new CFSS. Refer to the following screen.

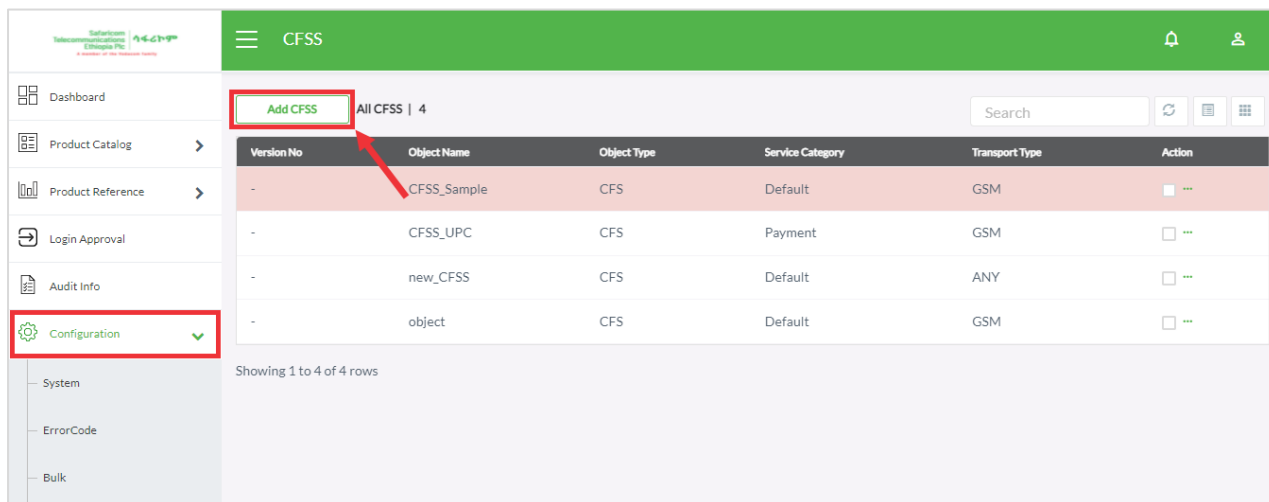

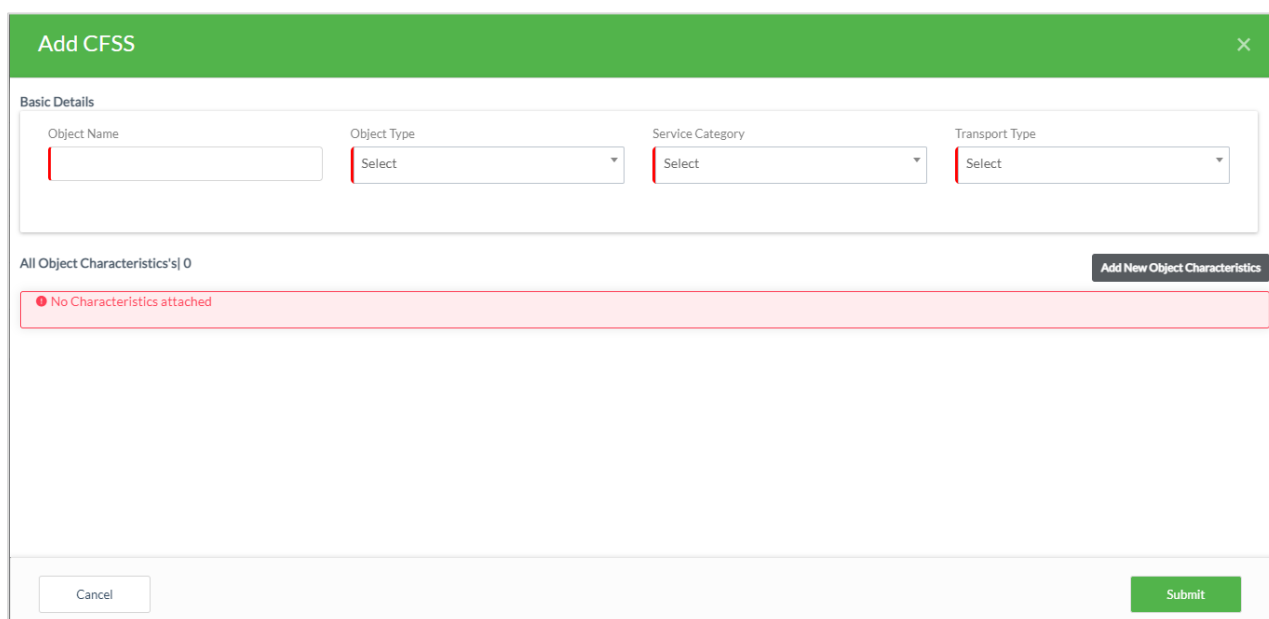

Figure 341 Add Context Parameter Button

2. After clicking the **Add CFSS** button, the following screen will be displayed.

Add CFSS

Basic Details

Object Name

Object Type

Service Category

Transport Type

All Object Characteristics's 0

No Characteristics attached

Figure 342 Add CFSS Details Screen

- Enter/Select the following details in the corresponding fields. If the fields are marked with "!" is mandatory.

Field	Description
Object Name	Enter the name of the CFSS object.
Object Type	Select the object type in the drop-down list. For example, CFS, PRS, and LRS.
Service Category	Select the service category in the drop-down list. For example, Send SMS, Payment, and so on.
Transport Type	Select the transport type in the drop-down list. For example, FWA, PON, and so on.

- On the **Add CFSS** screen, click the **Add New Object Characteristics** button to add the new object characteristics. Refer to the following screen.

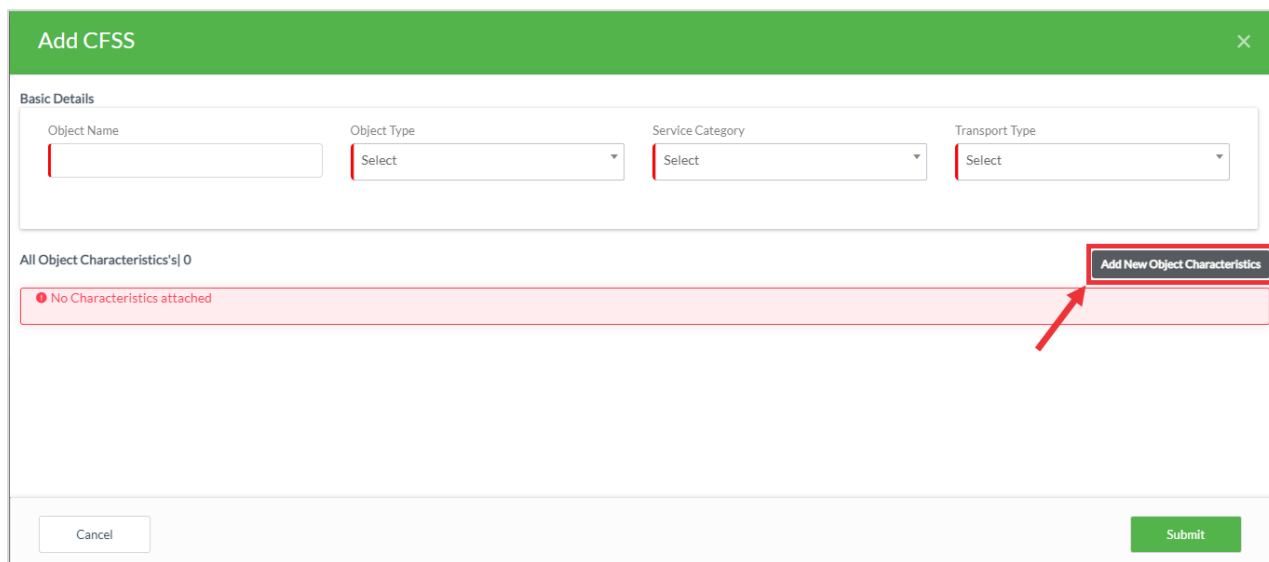

Figure 343 Add CFSS - Add New Object Characteristics Button

5. After clicking the **Add New Object Characteristics** button, the following screen will be displayed.

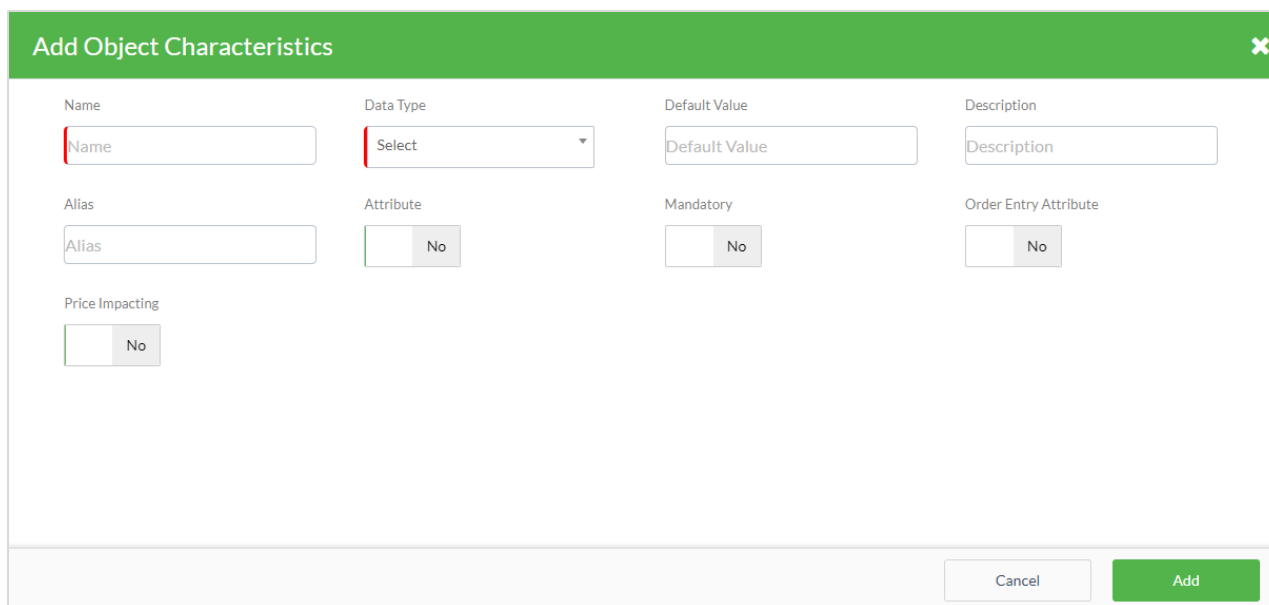

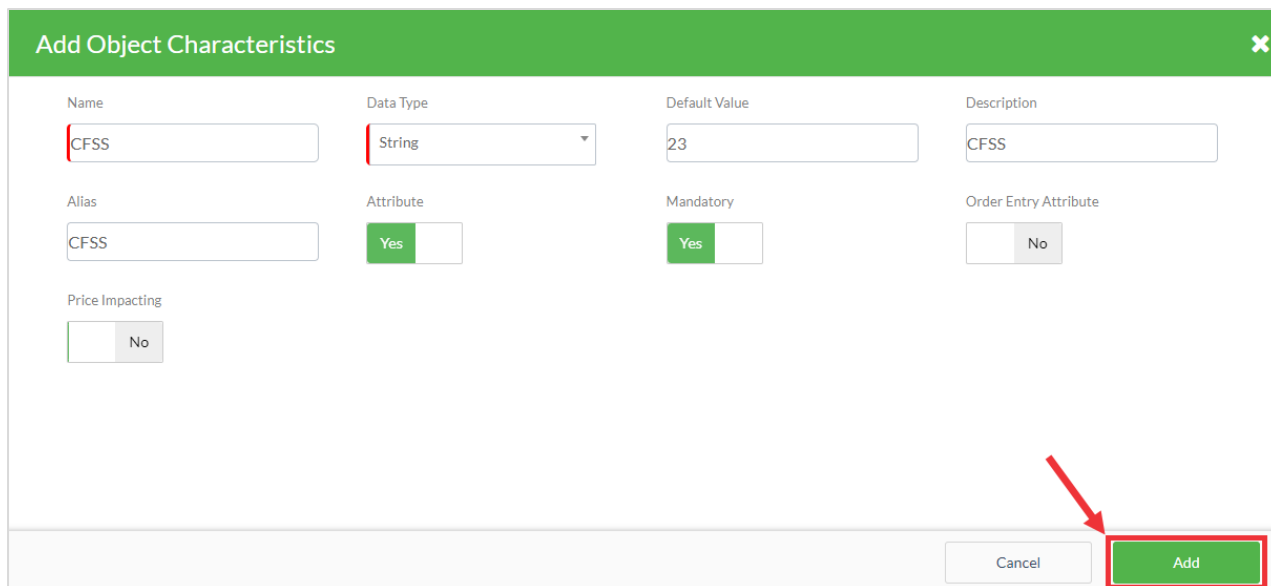

Figure 344 Add New Object Characteristics Details Screen

6. Enter/Select the following details in the corresponding fields. If the fields are marked with "!" is mandatory.

Field	Description
Name	Enter the name of the object.
Data Type	Select the data type in the drop-down list. For example, Integer, String, and so on.
Default Value	Enter the default value of the new object.
Description	Enter the description of the new object.
Alias	Enter the alias name in this field.
Attribute	Click "Yes" to turn on the attribute. Or Click "No" .
Mandatory	Click "Yes" to turn on the mandatory. Or Click "No" .
Order Entry Attribute	Click "Yes" to turn on the order entry attribute. Or Click "No" .
Price Impacting	Click "Yes" to turn on the price impacting. Or

Click **"No"**.

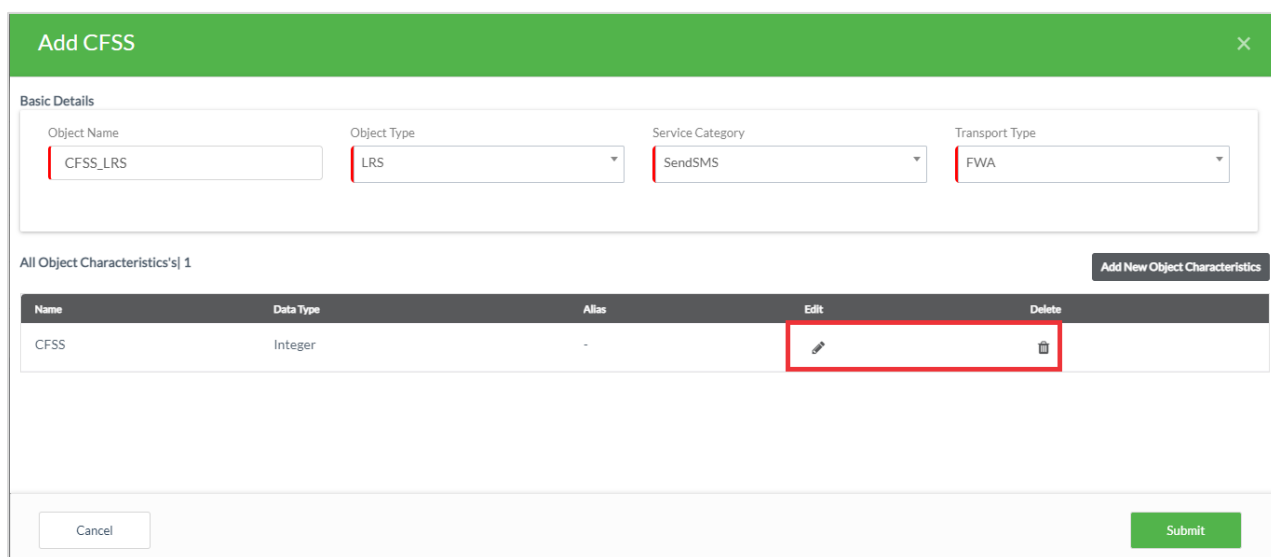

- After entering all the required details, click the **Add** button to add the new object characteristics. Refer to the following screen.

The screenshot shows the 'Add Object Characteristics' form. It has a green header bar with the title and a close button. The form contains several input fields and checkboxes: 'Name' (CFSS), 'Data Type' (String), 'Default Value' (23), 'Description' (CFSS), 'Alias' (CFSS), 'Attribute' (Yes), 'Mandatory' (Yes), 'Order Entry Attribute' (No), and 'Price Impacting' (No). At the bottom right, there are 'Cancel' and 'Add' buttons. A red arrow points to the 'Add' button, which is also highlighted with a red border.

Figure 345 Add Object Characteristics - Add button

- After clicking the **Add** button, the following screen will be displayed.

The screenshot shows the 'Add CFSS' form. It has a green header bar with the title and a close button. The form is divided into two sections: 'Basic Details' and 'All Object Characteristics's] 1'. The 'Basic Details' section contains four dropdown menus: 'Object Name' (CFSS_LRS), 'Object Type' (LRS), 'Service Category' (SendSMS), and 'Transport Type' (FWA). The 'All Object Characteristics's] 1' section contains a table with one row of data. The table has columns for 'Name', 'Data Type', 'Alias', 'Edit', and 'Delete'. The 'Edit' column contains a pencil icon, and the 'Delete' column contains a trash icon. At the bottom right, there are 'Cancel' and 'Submit' buttons.

Name	Data Type	Alias	Edit	Delete
CFSS	Integer	-		

- On the **Add CFSS** screen, click the **Modify** and **Delete** buttons  and  to modify and delete the existing object characteristics details. Refer to the above screen.

- After entering all the required details, click the **Submit** button. Refer to the following screen.
